

Camels in Nevada.

A correspondent of the Live Stock Journal gives some interesting items concerning the success of the camel breeding experiment in Nevada. We quote as follows:

At Ogden we met eight camels, en route from their birthplace to the Zoological Gardens in Philadelphia. They were in charge of Mr. Frank J. Thompson, superintendent of the gardens.

The breeding of camels was begun in Texas, twenty years ago, by an importation of the War Department. From Texas the camels were taken to Carson valley, Nevada. The first importation were India camels; the second were the two-humped camels of China. These two varieties cross well together. The two-humped are preferable, as they are more docile and kindly to handle than the single-humped.

The breeding of the camels has been a success, and, as pack animals, has been profitable. They subsist upon the sage brush and less desirable herbage of this rugged, barren region, and attain such size as is unknown in any other country. They were the largest we ever saw, and were selected with reference to shipping in the cars. The largest ones could not be put into the ordinary stock cars as used on the Pacific railroad. The man who owns and breeds them is a Swiss, and wants to sell out, and return to his native land. He does not, he intends to remove to Arizona with them, for the reason that camels as pack animals frighten the teams of "freighters" and make trouble for him continually. They breed once in two years; and in this lot there was one year camel with her year old calf at her side, taking his dinner like any other great, saucy calf. The most of these were two and three years old. The five year olds were, as stated, smallish selections from this herd, yet their humps were very near the roof of the car, and their odd-looking heads had to be kept in a very cramped position.

It is a matter of wonder and congratulation that the breeding of superior camels is added to the live stock interests of the country. From this camel-breeding establishment can be supplied all the show animals needed for the world, as they cost no more to rear than mules, and are far better as pack animals. The rigors of winter, and the heat of summer, are alike favorable to their growth and prosperity. Nevada, though, is a fine stock growing region for cattle, horses or sheep, as well.

Ex-governor Kirkwood, of Iowa, has been chosen United States Senator from that State. He is described as a salary-grabber, and a boor, a man of little principle and decaying power, and while he will add weight to the Republican party in the Senate, it will be most emphatically dead weight. Still he is preferable to Belknap or Harlan.

If we are to choose between bixby shirts in determining who shall be next President, we prefer Blaine to Morton's. There is genuine gore on the garment of the former, while that of the latter is only saturated with a solution of drick dust.—St. Louis Globe (Rep.)

Another startling case of fraud upon the Government is developing before the Senate Committee on Indian Affairs in relation to the expenditure of the appropriation of \$300,000 to remove a few Pawnee Indians from Nebraska to Indian Territory. The Government is said to be in possession of documents showing that pretty much of the whole amount was squandered or stolen.

The Howe Sewing Machines. POINTS OF SUPERIORITY.

Simplicity, Perfection of Mechanism. Durability—Will last a Lifetime. Range of Work—Without Parallel. Perfection of Stitch and Tension. Ease of Operation and Management. Self-Adjusting Take-up. Adjustable Head.

In range of work this Machine cannot be equaled. Will work equally well on thick or thin goods, from gauze to heaviest leather, or even leather, without change of needle, tension, or thread. We will warrant them to do this. Our fine work is equal to any, and our heavy work exceeds that of any other Machine in the world.

This Machine makes the celebrated Lock-stitch—the stitch invented by Mr. Howe—alike on both sides. The tensions are positive for both upper and lower thread. The shuttle tension is upon the thread as it leaves the shuttle, and not the bobbin, as in most Machines, and this tension is invariable, whether the bobbin be full or nearly empty. It is obtained by means of a screw in the shuttle, and can be changed in a moment, without taking out the work, breaking the thread, or threading through holes.

What we claim, in substance, is, that this is an honest Machine, and, if put in your family will do any and all of your work perfectly, will last a lifetime in a willing and ready servant, and is not subject to FITS.

Persons who have tried all Machines are unanimous in declaring this to be the easiest learned of any in the market. In the majority of cases our customers learn from the instruction book without further aid.

Among the many "First Premiums" awarded the ELIAS HOWE SEWING MACHINES

May be seen the following: The International Exhibition of all Nations, London, 1862, a Gold Medal. New York State Fair, 1866. Exposition Universelle, Paris, 1867, a Gold Medal. Cross of the Legion of Honor to Elias Howe, Jr., as original inventor. Ohio State Fair, 1868. New York State Fair, 1868. Vermont State Fair, 1868. New Hampshire State Fair, 1869.

If you are prejudiced in favor of any particular Machine, at least examine THE HOWE before you purchase.

Recollect that Mr. Howe was the original inventor of Sewing Machines, and gave twenty years of his life to perfecting this Machine.

Every Machine is Fully Warranted and Satisfaction Guaranteed in every case.

All the Branch Offices and Agents of the Howe Machine Co. keep a full stock of Silk, Cotton and Linen Thread, which can be relied upon as to quality at a price. We would, therefore, advise all those using our Machines to purchase their supplies at our office.

THE HOWE MACHINE CO., 111 & 113 Post Street, SAN FRANCISCO. Corner Third and Alder Streets, PORTLAND.

BICKFORD AUTOMATIC KNITTER

This cut represents the use of my special file, made to fit the angle of the teeth, leaving both points at a single blow, making the saw the simplest and cheapest to file in the world. The shortening of the teeth to the thickness of a sheet of paper, which leaves only single teeth, leaves but little dressing necessary. For the unfiled edges of the outside of M, the third surface of the file is all that will be needed. They are made of the highest quality. By the use of this file all difficulty is removed, and the cost of filing Lightning Cross-cut Saws at the factory is two cents per foot; buck saws, four cents each. The cost of the 10 inch for cross-cut is 50 cents each; five inch for buck saws, half price. A large stock kept constantly at my store, 30 Beekman Street, New York.

I will furnish my latest improved 1876 pattern Cross-cut, at 75 cts. per foot, and the same saws at same price, for Cash in advance, where the Hardware Dealers do not sell the genuine latest improved Lightning Saws. Agents Wanted—Special inducements. Will send C. O. D. if express charges are enclosed.

Buck Saw Blades, sent by mail Postage Paid, at 75 cts. each.

The attention of the trade is especially invited to the publication of my Patent Saws as shown by the patented Device, Injunction and Costs of U. S. Court, September 1st, 1874. In the meantime the other varieties of Cutting Teeth Saws have been overthrown and pronounced invalid. My patent M Teeth alone stand as the only valid and protected Patent for Cross-cut and Buck Saw Teeth. I shall proceed at my leisure to make it interesting to infringers, having retained excellent counsel.

My advice to the trade is to cease selling competitors of my goods. I will make any of these imitation goods at prices as low as they will turn of good material and workmanship, while I will make the genuine Patent Lightning Saws, so that it can be retailed at 75 cts. per foot, by the dozen.

Special terms made with the jobbers and agents for quantity.

Special inducements offered to Agents. For further particulars, send for catalogue. Address, E. N. BOYNTON, 30 Beekman St., N. Y.

ELLSWORTH & CO., DRUGGISTS, WILL CONTINUE THE BUSINESS in all its departments at the old stand, offering increased inducements to customers, old and new. As heretofore the most Careful attention given to Prescriptions. The change in the firm requires the immediate settlement of all old accounts. my1

HAL'S SARSAPARILLA AND IODIDE OF POTASS. The best "cure" of the Complexion now in use. Cures Pimples, Boils, Blisters, Rheumatism and Mercurial Poisons. Sold by all Druggists. Use Low's Concentrated Flavoring Extracts for Ice Cream, Cakes, &c.

POND'S EXTRACT. "Hear, for I will speak of excellent things." POND'S EXTRACT—The great Vegetable Pain Destroyer—Has been in use over thirty years for cleanliness and prompt curative virtues cannot be excelled. CHILDREN—No family can afford to be without Pond's Extract. Accidents, Bruises, Contusions, Cuts, Sprains, are relieved almost instantly by external application. Promptly relieves pains of Burns, Scalds, Erysipelas, Chafings, Old Sores, Boils, Felons, Corns, etc. Arrests inflammation, reduces swellings, stops bleeding, removes discolorations and heals rapidly. FEMALE WEAKNESSES—It always relieves pain in the back and loins, fullness and pressing pain in the head, nausea, vertigo. IN LEBORUM, it has no equal. All kinds of ulcerations to which ladies are subject are promptly cured. Fuller details in book accompanying each bottle. No case, however chronic or obstinate, can long resist its regular use. VARIETIES OF FEARS—It is a specific for RHEUMATISM, NEURALGIA, Toothache and Earache and all alike relieved, and often permanently cured. PHYSIANS of all schools who are acquainted with Pond's Extract of Witch Hazel recommend it in their practice. We have letters of commendation from hundreds of Physicians, many of whom order it for use in their own practice. In addition to the foregoing, they order it for Swellings of all kinds, Hemorrhoids, Burns, Scalds, Erysipelas, and all the diseases of the face, and in simple and chronic Diarrhoea, Catarrh, (for which it is a specific), Cholera, Pruritus, Itch, Scabies of the Face, Scald-head, Chapped Lips, Face, and indeed all manner of skin diseases. TOILET USE—Removes Scurfiness, Redness, and smarting Itch, Cures Eruptions, and all the diseases of the face, and in simple and chronic Diarrhoea, Catarrh, (for which it is a specific), Cholera, Pruritus, Itch, Scabies of the Face, Scald-head, Chapped Lips, Face, and indeed all manner of skin diseases. PRIVATE MEDICAL AID QUICK CURE'S MODERATE CHARGES DR. W. K. DOHERTY'S PRIVATE MEDICAL SURGICAL INSTITUTE

DR. DOHERTY'S Largely and Steadily Increasing Practice, which has constantly kept pace with the unexampled increase and steady growth of the Pacific Coast, induced his removal from his long established and well-known quarters, on the corner of Sacramento and Leidesdorf streets, in this city, to more commodious and elegantly located apartments, at No. 649 Clay Street, where he has a spacious suite of handsomely fitted up and conveniently arranged Examination and Consultation Rooms. (occupying the whole of the two upper stories) which patients may at all times visit, and see only the Doctor and his assistants.

With the most grateful sentiments of regard for the liberal patronage bestowed on him for the past thirteen years, at his old office, DR. DOHERTY desires to inform the General Public, and especially all those laboring under all forms of Chronic Complaints, that he can be consulted at 649 Clay Street, on every variety of Disease of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all

SPECIAL DISEASES, of which the list is numerous, and which are more closely connected with the general health than the majority of people are aware. Unhappy invalids for years persist in concealing their condition from a motive originating in mistaken delicacy, and suffer in silence until their misery becomes too acute to be repressed, and mental and physical debility unites the sufferer for active duties of life. This latter type of affliction manifests itself in the complaint professionally known as Syphilis, in all its forms and stages; Seminal Debility, and all the distressing forms of Self-Abuse, or Onanism; Gonorrhoea, Gleet, Stricture; Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc. The number of persons suffering from these horrible Diseases, and who in silence until their misery becomes too acute to be repressed, and mental and physical debility unites the sufferer for active duties of life.
