COUNTY. CITY AND

The State.

According to the latest returns the Legislature will stand : Democrats, 45; Republicans, 41; Independents, 4. Boise (Rep.) 181 in the 3d District, resident left with his cow, remarking, "I

Mg. HIGHY .- This gentleman, who was the Republican nominee for Prosecuting At-Lane's hall last Saturday evening. He is a great talker ; words flow from his lips as rain from the Oregon sky in winter, incessantly, copiously and aimlessly. He is like a 4-gallon keg of steam beer ; you can draw off about three hundred quarts of froth, but you cannot repress a feeling of disappointment when you find that you have only about a pint of good honest beer left. He is an eloquent speaker, and at his hands the "bloody shirt" is almost transformed into a thing of beauty. He fought the war over again from first to last, and fought more vir orously, we dare say, than in the days the recollection of which now tries his soul so wonderfully; and all through the battle he insisted that he had no desire to disturb the decaying remains of "settled issues." He perverted history and truth to some extent. but not quite so badly as the average Radical orator.

Swanaw .-- A letter from Siuslaw to the Mercury says : The farmers of Siuslaw have n larger crops this Centennial year than ever before, and if the season proves to be a favorable one, there will be at least a third more grain raised than in former years. The grass is perfectly splendid, and as a consequence cattle and sheep are doing well. There have been a few cattle buyers around offering tolerable fair prices for beef cattle. The indications are that times will liven up somewhat. There has been a large revival meeting going on in this neighborhood, conducted by Revs. Derrick and Misner of the M. E. Church. Nineteen acces sions to the church has been the result of their labors. The meeting lasted nearly three weeks and was a good one.

CELEBRATION .- Eugene Hook and Ladder Company No. 1 have decided to celebrate the Centennial Fourth of July with a picnic during the day and a dance at night. At a sonal interview with a strawberry this seameeting held on Thursday night at Lane's son. mmittee previously appointed for that purpose announced that they had procared subscriptions to the amount of about festivals and kindred entertainments to draw \$200, and it was resolved to proceed to celebrate. A committee of arrangements, consisting of B. C. Van Houten, S. A. Ogden, Wm. Campbell, L. G. Jackson and P. H. Farrell, was appointed with power to appoint all necessary sub-committees. The picnic, it is understood, will be held on the northeside of Skinner's Butte. STEEL SHORS .- Messrs. Poindexter & Rush are using a new steel horse shoe, which is put on without either toe or heel corks, the upper surface being nearly flat and the lower one provided with a ridge on each side of the return, and it is very probable that when he row of nails. These ridges prevent the animal from slipping, removing the necessity for calks, and at the same time leaves him standing flat-flooted on the ground where he has all the percentage of leverage, a portion of which is lost by raising him up from the ground. This appears to be nearer a common-sense shoe than any other we have ever seen. They are made of the best quality of steel and are much more durable than the ordinary iron shoe.

A SOLOMON NEEDED .- A granger who | To BE HAD AT THE BAZAR -- The cheapformerly lived at this place and afterward est and most stylish linen suits over on Long Tom, lost a heifer about two years brought to Eugene. Also a nice assortment since, and up to two weeks ago had heard or of embroirdred and lace handkerchiefs at seen nothing of the animal ; having removed very low rates ; and a nice variety of other

The resident granger eyed the receding non-resident contemptuously, with a stick presented if it were a gun, and was last seen by the non-resident in this "shape." This is evidently another case of importance to grangers, and some Solomon should arise among them to decide and settle the matter. We will add that some people believe it a very difficult matter for two cows to mother one calf without the owner or keeper knowing which one or whether both is, or are, the mother, or mothers, as the case may be.
