From the St. Louis Republican.

Mr. Carl Schurz's recent article in the Westliche Post winds up with a repetition of the foolish rumor—put forth by a Republican paper—that Gov. Tilden is in feeble health, not likely to live out his term if elected, and consequently the Presidency would devolve upon Gov. Hendricks, who has been induced to accept the

man, he is merely a politician, and a not very honorable one either, if we may judge from his latest editorial effort. He is no longer a Liberal Research of the animal creation. Its effects open severe casss of Spavin, Sweeny, Wind Gall, Big Head and Poli Evil, are little less than marvelpublican and a reformer; he has join-ed the "stringht out" Republicans and anti-reformers. After denouning Grant and Grantism for years in the strongest English and German, he now endorses a platform which declares Grant and his administration "deserving of the continued and hearty gratitude of the American people." In other and plainer words, he is eating penitential dirt at the feet of the very men who persistently abused him.

This may be shrewd political strategy on the part of Mr. Schurz, but there are some persons who will not besitate to call it demagoguery of the lowest kind. Had he been all his friends claimed for him, or even half what his ememies have been willing to concede him, he would have refused to thus stultify himself in order to get back into a party out of which he was so vigorously kicked only a little while ago. If he could not support Tilden and Hendricks, he need not have put on the zebra form of Hayes and Wheeler. A dig-nified neutrality would have saved his character and preserved his influence.

As matters now stand, he has seriously damaged the one and very materially weakened the other. We presume Mr. Schurz thinks he carries the Liberal-Republican German vote in his pocket, and we predict he will find himself mistaken in supposing that his countrymen can change their principles as easily as he has done.

They Changed the Name of the Town.

From the Washington Chronicle PHILADELPHIA, June 25.—The Plymouth pastor paid us a visit last week, and remained in our midst upward of three or four days. His presence upon the ground attracted a Pants Goods, staring crowd whenever he presented himself. Mr. Beecher with several triends was engaged in inspecting CALL AND SEE MY STOCK. when he happened to meet Commis-sioner Dutur of Oregon. Recogni-zing Mr. Dufur, whom he had met on a former occasion, Mr. Beecher in his usually pleasant manner, raised his hat to the Commissioner, at the

same time remarking:

"How do you do, Mr. Commissioner? This is Mr. Dutur of Oregon, is it not ?"

"Yes," replied Dufur. "Oh, yes, and this is Mr. Beecher?"

"I am glad to meet you again," answered Mr. Beecher. You see, I take a great interest in your State of Oregon. I believe that they did me the honor to name of their townships Beecher-Town."

Wild Western Journalism,

Editorial in the Cincinnati Enquirer. When the snarling ill-conditioned editor of the Cleveland Plain Dealer gets drunk and falls out of the thirdstory window of his boarding-house, people in the street who catch a glimpse of his florid face and sanguinary hair ery out: "Behold the blaz-ing meteor." They afterward gather about the quivering, glutinous, odorous mass on the pavement, sweep it up and carry it into the house and put it to bed. Neighbors look at each other and smile and make remarks something like this: "If he was a sober man or a man of any consequence in the community, of course it would have killed him." Mr. Armstrong keeps his bed a day or two and amuses himself by mak-ing faces at black monkeys on the bed-post. Meanwhile the four or five old subscribers of the Plain Dealer drop in at the office as they return from work in the quarries, and remark to Mr. Hoyt: "How it does improve the paper to have that old whiskey-head bunged up. Can't you manage to have him run over by a railroad train?" Mr. Hoyt chuckles and says: "Never mind, boys, it'll fetch him in time." post. Meanwhile the four or five

If the article had not been signed with the initials of his name, we should have thought it impossible that such language could have come from his pen. It is not worth while to waste many words. The whole world will agree with us in this judgment. That such arguments are entirely unworthy of a man who enjoys the reputation that Carl Schurz does.

The Amerika is quite right, but it fails, perhaps, to see that Mr. Schurz has concluded to pocket whatever reputation for consistency and manliness he possesses during the present campaign. He is ho longer a statesman, he is merely a politician, and a

DR. DOHLETY'S Largely and Steadily Increasing Practice, which has constantly kept pace with the unexampled increase and steady growth of the Pacific Coast, induced his removal from his long established and well-known quarters, on the corner of Sacramento and Leidesdorff streets, in this city, to more commodious and eligibly located apartments, at No. 649 Clay Street, where he has a spacious suite of handsomely fitted up and conveniently arranged Examination and Consultation Rooms, (occupying the whole of the two upper stories) which patients may at all times visit, and see only the Doctor and his assistants.

With the most grateful sentiments of reward for the liberal patronage bestowed on him for the past thirteen years, at his old office, DR. DOHERTY

desires to inform the General Public, and especi-ally all those laboring under all forms of Chronic Complaints, that he can be consulted at 649 Clay street, on every variety of Disease of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all SPECIAL DISEASES,

of which the list is numerous, and which are more closely connected with the general health than the majority of people are aware. This lattertype of affliction manifests itself in the complaint professionally known as Syphilis, in all its forms and stages; Seminal Weakness, and all the distressing forms of Self-Abuse, or Onanism; Gonorrhæa, Gleet, Stricture; Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc. The number of persons suffering from these horrible Diseases, in whom the Doctor has effected a radical cure, can be counted by the thousand, and the voluntary certificates in his possession, received from persons he has restored to health, are enough to satisfy all that the Doctor's skill in the treatment of these affections, enables him to warrant speedy cures, even in obstinate cases, and in every

By the practice of many years in Europe and the United States, he is enabled to apply the most successful remedies against diseases of all kinds.

He cures without mercury, charges moderate fees, treats his patients in a correct and honorable way, and has references of unquestionable veracity, from men of known respectability and high standing in society. All parties who may consult him by letter or otherwise, will receive the best and gentlest treatment.

Patients (male or female) residing in any part of the country however distant, who may desire the opinion and solvice of Dr. Doberty in their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sa-

cred.

The Doctor is a regular graduate, and may be consulted with every confidence.

If the disease be fully and candidly described, personal communication will, in most cases, be unnecessary as instructions for diet, regimen and the general treatment of the case itself (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted.

still offers to the afflicted the positive assurance of honorable treatment and rapid and absolute cures, as can be shown by thousands of testimonials from grateful Patients. Let me call the attention of those who suffer to some of the effects of SEMINAL WEAKNESS.

The preservation of health and life is dependent upon the proper condition of the procreative functions and any weakness or cause of weakness of the generative organs or their uses is a direct attack upon the general health as well as a sure destruction—if not properly cured—of the organs that are the pride of one sex and the blessing of the other. In Youth is laid the foundation of much of the misery of after years by the indulgence of the most described by the indulgance of the most described by weakness and ruin among mankind, for it is a well known fact that the indulgence in solitary vice, even in the slightest degree, plants seeds of weakness in the switzer. the indulgence in solltary vice, even in the slight-est degree, plants seeds of weakness in the system that grow to a harvest of disease, sorrow and

isfy all that the Doctor's skill in the treatment of these affections, enables him to warrant speedy cures, even in obstinate cases, and in every instance give relief. Diseases which formerly baffled the medical skill of the most learned and experienced Fractitioners of the heating art, and were regarded by the majority of Physicians as utterly incurable, now readily yield to modern remedies, when prescribed by the intelligent Practitioner, who makes the human system, and these special ailments, his constant study and sulgect of observation.

In no case is publicity permitted except at the to check the course of the complaint, if you experience any of them—nightly discharges, slight discharges at other times, trembling, anxiety, forgetfulness, confusion, pain in back, limb or body, forebodings, indigestion, timidity, aversion to seciety, loss of power, want of control, variable temper, attacks of sickness akin to biliousness, deposits in urine, irregular bowels, etc., etc.

TERRIBLE POISONS.

Among the most subtle and virulent of poisons in the human blood is that arising from Venereal Taint often breaking out, after years of apparent cure, in hideous sores upon various parts of the body. Its great danger lies in the fact that it is given to the innocent partner or to the unborn child without showing in the person originally contracting it. TERRIBLE POISONS.

THE USE OF MERCURY
only aids in this terrible deception by drying it apon the surface and driving it back into the blood. ALL VENEREAL POISON IS A BLOOD POISON AND CAN BE COMMUNICATED IN THE BLOOD and the only certainty of prevention of transmission is in the positive cures of the reform treatment practiced at the Dr. J. C. Young Medical Institute, comprehensive, scientific and thorough, baving received endorsements as the best of almodern practice. Becent cases cured in a few days and chronic cases with remarkable rapidity. Our tests of the presence of the Taint in the blood are nover failing.

There are no class of complaints that so ealist the sympathies of the medical mind or so command its gravest thought and study as those that afflict women.
