The reason assigned for these extreme acts of authority on the part of the President, is that he was concerned in the whiskey ring and the Indian trauds, and wishes to punish the prosecutors of Belknap and Babcock. This is the motive assigned by the President's enemies; but we have too much respect for General Grant to accept it. But is he not doing all he can to confirm this terrible impression? Will not the country think N. Y. Herald.

ion? Will not the country think that this silent, swift vengeance upon Dyer and the rest is only susceptible of one explanation? Our complaint ies with the Senate and the House. The President is by no means an ir-responsible officer. He is as much the servant of the people as Yaryan, and entitled to no more consideration. It is the duty of the Senate, who advises with the President upon all of his appointments, to know why these changes are made. It is the duty of the House to protect the people against these constant aggressions, these daily exhibitions of personal government. We are tired of children in a short time. No family can afford to be wishout the Centaur Liniment, white wrapber.
The Republicans in the House and Senate assume a terribly responsibility in consenting to these tyrannical freaks. It is natural that a man so stolid and selfish as

An Ex-Confederate's Story about Custer.

The Washington Star relates the tollowing interesting estimate of Gen. Custer from a confederate stand-point: At Brandy Station, Pleason-ton, after retreating slowly all day, made a stand, and there was stubborn made a stand, and there was stubborn fighting all the next day. In a charge made directly at the station upon a light battery that was cutting up our men with schrappel severely, I was unlucky enough to be cut off from my command, and discovered my misfortune too late to remedy it, I was not considered to remedy it. I put spurs to my horse and galloped through mistake directly into the ranks of a squad of deserters from the confederate army. I was treated out-rageously, literally stripped of every-thing, and was about to be shot when Gen. Custer rode up with his staff and bodyguard. Seeing him in his gaudy hussar jacket with the Austrian knot of rank on the arm, I supposed him to be one of our officers, and hailed him. He came up to me, and seeing my pitiful condition, and being informed that my captors had threatened to shoot me, called to his orderly, saying, "Here, orderly, this man is a fellow-being and not a brute; have him put under guard at headquarera." And then turning to an aid, se said, "Put these men under arrest." remained under guard at Custer's retreat, and was treated most nobly and kindly by the general and all around him. I never met a man so around him. I never met a man so young who to my mind bore the stamp of the hero so visibly improseed on his countenance, and though daring and dreadful in a charge and in the land th ing and dreadful in a charge and in the heat of battle almost merciless, his mild, gentle, kindly manner to me when the fight was over plainly shows what a vast amount of human kindness heat beneath that trave dragoon's breast. To him I owed my life, while still an enemy, and to his memory I humbly add my testimony to those noble attributes which those who have ever met him knew he possessed to so remarkable a degree.

"My wife has for a long time been a terrible sufferer from rheamstism. She has tried many physicians and many temedies. The only thing which has given her relief is Centaur Liniment. I am rejoiced to say this has cured her. I am doing what I can to extend its sale.

W. H. RING.

This is a sample of many thousand of testimonials received, of wonderful cures effected by the Centagr Liniment. The ingredients of this article are published around each bottle. It contains Witch Haz I Mentha, Arnica, Rock Oil, Carbelle, and ingredients hitherto little known. It is an indisputable fact that the Centaur Liniment is performing more cures of Swellings, Stiff Joints, Eruptions, Rheumatism, Neuralpia, Scialica, Caked Breasta, Lock-jaw, &c., than all other Liniment. Embrocations Extracts, Salves, Ointments and Plasters now in use.

For Toothache, Esrache, Weak Back, Itch, and Cutaneous Eruptions, it is admirable. It cures burns ard scalds without a scar. Extracts poison from bites and stings, and heals frost-bites and chilblains, in a short time. No family use afford to be without the Centaur Liniment, white wrapper.

DR. DOHLRTY'S Largely and Steadily Increasing Practice, which has constantly kept pace with the unexampled increase and steady growth of the Pacific Coast induced his removal from his long established and well-known quarters, on the corner of Sacramento and Leidesdorff streets, in this city, to more commodious and eligibly located apartments, at No. 649 Glay Street, where he has a spacious suite or handsomely fitted up and conveniently arranged Examination and Consolitation Rooms (occupying the whole of the two upper stories) which patients may at all times cisit, and see only the Doctor and his assistants.

DR. DOHERTY desires to inform the General Public, and especi-ally all those laboring under all forms of Chronic Complaints, that he can be consulted at 649 Clay street, on every variety of Disease of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all SPECIAL DISEASES

SPECIAL DISEASES, of which the list is numerous, and which are more closely connected with the general health than the majority of people are aware. Unhappy invalids for years persist in concealing their condition from a motive originating in mistaken delicacy, and suffer in stlence until their miseries become too acute to be repressed, and mental and physical debility unfits the sufferer for active duties of life. This latter type of affliction manifests itself in the complaint protessionally known as Syphilis, in all its forms and stages; Seminal Weakness, and all the distressing forms of Self-Abuse, or Onanism i Genotricus, Gleet, Stricture; Nocturnal rind Diurnal Emissions, Sexual Debility, Diseases of the Rack and Loits, Inflammation of the Bladder and Kidneys, etc., etc. The number of persons suffering from these horrible Diseases, in whom the Doctor has effected a radical cure, and be counted by the thousand and the voluntary certificates in his possession, received from persons he has restored to health are enough to satisfy all that the Doctor's skill in the treatment of these affections, enables him to warrant speedy, curres, even in obstinate cases, and in every instance give relief. Diseases which formerly baffled the medical skill of the most learn ed and experienced Practitioners of the healing art, and were regarded by the most rearm ed and experienced Practitioners of the healing art, and were regarded by the most icarn ed and experience and successions, received from the sufficient procession, received from the sufficient processions, received from the sufficient processions, enables him to warrant speedy, curres, even in obstinate cases, and in every instance give relief. In no case is publicity permitted except at the express wish of the pat ent; and the Doctor confidently trusts that his long experience and successful practice will continue to insure him a liberal share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most successful remedies against diseases of all kinds.

He cures without mercury, charges moderate fees, treats his patients in a correct and honor able way, and has references of unquestionable versicity, from men of known respectability and high standing in society. All parties who may consult him by letter or otherwise, will receive the best and gentlest treatment.

TERRIBLE POISONS.

Among the most subtle and virulent of poisons in the human blood is that arising from Venerall Taint often breaking out, after years of apparent cure, in hideous sores upon various parts of the body. Its great danger lies in the fact that it is given to the innocent partner or to the unborn child without showing in the person originally contracting it.
