COUNTY. AND

JOINT DISCUSSION.-E. A. Cronin, Esq., ocratic candidate for Presidential Elector, and Dr. J. W. Watts, Republican candidate, will address their fellow citizens on the political issues of the day in this city on Monday, October 16th at 7:30 r. M. Also at Harrisburg on the 17th, at 1 P. M.

PUBLIC SPEAKING .- Hon. Lafayette Lane and Hon Richard Williams have agreed to discuss jointly the political issues of the day, and will address the citizens of Eugene next Tuesday, October 3d, at 1 o'clock P. M.

They will also speak at Junction at 1 o'clock P. M., and at Harrisburg at 7 P. M. on advance.

THE NEW COUNTY .- A long Tomer, in this concerning the proposed new county of Nu-cleus.

There is much interest being felt among our people just now in regard to the proposed new county that is to be taken from Linn, Lane and Benton. The bill for its organization will be before the Legislature at an early tion will be before the Legislature at an early day. A measure involving important interests as does this, should be carefully and intelligently considered. The friends of the new county demand its organization for many reasons, some of which are, first, the people embraced in the limits of the new county are subject to much greater inconvenience and expense in attending to their public and prints haviness at their respective county seats. vate business at their respective county seats than they would be in the new county. Secthan they would be in the new county. Sec-ond, for the reason that the average mileage of the people in the limits of the new county to reach their respective county seats in the old counties, is more than double what it would be to reach a centrally located county seat in the new county. Third, the differ-ence of the item of the mileage of witnesses jurors, sheriffs, assessors, surveyors, etc., the expenses attendant upon private business at expenses attendant upon private business at the county seat demonstrates a saving to the people in favor of the new county of several thousand dollars annually. Fourth, the or-ganization of the new county inflicts no injus-tice or hardship upon the old counties, as it takes off the remote portions of their territo-ries which necessarily swell the taxes on account of the excessive mileage arising therecount of the excessive mileage arising there-from. Fifth the new county government can be supported with less expense to the people than either of the counties from which it is taken, for the reason that it has a central density of population and productive re-sources, superior advantages for transporta-tion, the river and railroad traversing its centre from side to side. Sixth and last, but not least the new county organization is decentre from side to side. Sixth and last, but not least, the new county organization is demanded for the reason that it is in compliance with one of the fundamental principles of our theory of government that the interest and convenience of any part of the people should be protected when not in conflict with law and the rights of others.

SERIOUS ACCIDENT. On Thursday the trestle work upon which the bridge feross the Santiam river, near Jefferson, was being built went out and the workmen were precipce of 35 feet; into wate only about twelve inches in depth. Mr. Burgess and Mr. Harry Miller were among the number who went down with the timbers. Mr. Burgess came up yesterday, bad-ly bruised from heat to foot. Mr. Miller was badly hurt, it being feared for a time that his injuries would prove fatal. It is hoped, however, that he will be in a condition to be brought home next week.

PUBLIC EXAMINATION. - At the public examination on Thursday by School Superintendent Bolon, the following passed for the University: Nora Harris, 89 per cent.; Eliza Spencer, 87; Agnes Osburn, 90; Ella Gray, 83; Augusta Osburn, 85; Aggie McCornack, 83; Ella Geary, 83; Nettie McCornack, 82; Augusta Patterson, 81.

First grade certificates were granted to Myron Judkins and R. G. Callison.

THE NEXT GOVERNOR.—The Salem corres ondent of the Oregonian says: "There is a rumor, nothing more, that measures are on foot to retain the gentlemanly and accominodating Secretary of State in that position after Gov. Grover resigns, under which arrangment Mr. Whiteaker, President of the nate, would become Governor. The con summation of this measure would, we be lieve, necessitate the resignation of Mr. Chadwick and his reappointment by the Acting

BIOGRAPHICAL -The Salem Statesman is giving biographical sketches of legislators. It oes up one of our members as follows;

does up one of our members as follows:

Rodney Scott, member of the House from Lane county, was born in St. Charles county, Misouri, in the year 1842; crossed the plains to California in 1845 and from there to Oregon in 1846, and has been a resident of the State ever since 22 years in Lane county. Mr. Scott is one of the substantial thinking men of the State, engaged in developing our actual resources and bringing his mental powers to bear in the various branches of industry which must make us a great State and great people, and only accepts a place in the House at a sacrifice in point of personal interest, that he may serve the people who demand his services. He is exceedingly modest and does not take up the time of the House with long-winded speeches about nothing.

University Committee appointed by a committee appointed by a committee the building prepare for a State University came up last Saturday and made their up last Saturday and their report, We have not seen their report, but are informed that it will be favore recommending an appropriation, to complete the building and place the grounds in order.

LEASED. - The Eugene City Mills have bee sed for a term of years by A. S. Patterson and Mr. Edria, both well and favorably known in this community. We bespeak for them a liberal patronage and a prosperous business. They are now prepared to store wheat on liberal terms.

ARRIVED .- Rev. J. S. McCain has arrived with his family from Jacksonville, and servioes will hereafter be held regularly at the

BY-LAWS UNIVERSITY OF THE STATE OF OREGON.

lat. It is far more durable because it is 100.

2d. It is Cheaper because of ... a simplicity and disability, and will outlast several Wooden Mills.

3d. It is Less Complicated because there is only three pieces of operating machinery.

3d. It is less Complicated because the story three pieces of operating machinery.

4th. It is more powerful than any other Mill, on account of the thin fau, and consequent increased suction of air, and because it is operated by an eccentric, being far superior to the crank shaft or rest piu, as a lifting and falling power.

5th. It needs no care, no watching, having self-feeding oil caps and self-regulating banes. It regulates, protects and takes care of itself.

6th. It never warps, shrinks, or swells, hince it is not liable to get out of order. Once up, it goes all right.

7th. It does more work, runs easier and throws a fan ger body of water. It will submerge a larger tract of land, with less wind and in a shorter space of time than any other Windmill now in use. It may be set to turn out of the wind at any desired pressure, there being a graduated lever for that purpose.

Sth This Mill took the only premium given at the California State Fair, ever the many others there on exhibition.
