SPECIAL DISEASES,
of which the list is numerous, and which are
more closely connected with the general health
than the majority of people are aware. Unhappy
invalids for years persist in concealing their condition from a motive originating in mistaken delicacy, and suffer in silence until their miseries become too acute to be repressed, and mental and
physical debility unfits the sufferer for active
duties of life. This latter type of affliction manifests
itself in the complaint professionally known as
Syphilis, in all its forms and stages; Seminal
Weakness, and all the distressing forms of SelfAbuse, or Onanism; Gonorrhom, Glect, Stricture;
Noctornal and Diornal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation
of the Bladder and Kidneys, etc., etc. The number of persons suffering from these horrible Discases, in whom the Doctor has effected a radical
cure, can be counted by the thousand, and the voluntary certificates in his possession, received from
persons he has restored to health are enough to satisfy all that the Doctor's skill in the treatment of
these affections, enables him to warrant speedy
cures, even in obstinate cases, and in every persons he has restored to treatment of isfy all that the Doctor's skill in the treatment of these affections, enables him to warrant speedy cures, even in obstinate cases, and in every instance give relief. Diseases which formerly baffled the medical skill of the most iearn ed and experienced Practitioners of the healing art, and were regarded by the majority of Physicians as utterly incurable, now readily yield to modern remedies, when prescribed by the intelligent Practitioners, who makes the human sysligent Practitioners who makes the human sysligent Practitioners.

diseases of the womb, hysteria, sterility, and all
other diseases peculiar to females, she should go

Medical Institute, and she will receive every possible relief and help.

Let no false delicacy prevent you, but apply immediately, and save yourself from painful suffering and premature death.

The Doctor is a regular graduate, and may be consulted with every confidence.

If the disease be fully and candidly described, personal communication will, in most cases, be unnecessary, as instructions for diet, regimen and the general treatment of the case itself (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted.

Should your condition require immediate attention, send ten dollars in coin, (or that value in currency) by Mail, or Wells, Fargo & Co.'s Express, and a package of medicines will be forwarded to your address, with the necessary in structions for use.
