ODELL AGAIN,

From the Standard. CLEAR LAKE, Cal., Oct. 16, 1876. DEAR FRIEND:-Your favor of the Ist inst, was received while traveling to this place, and this is the first opportunity I have had to reply to it. I am sincerely grateful to Senator Kelly and yourself for the active assistance you have given in procuring the payment of this small debt from the government. To a poor man even ance you have given in procuring the payment of this small debt from the government. To a poor man even such a trifle is important. It may seem strange to business men that a deputy surveyor should survey in the field and make the proper return of a township, his work be approved and the government avail itself of it, and yet the work be omitted from his acyet the work be omitted from his acyet the work be omitted from his account against the government and he remain utterly ignorant of the fact. Yet such is the case in this instance. Yet such is the work was done a copy. Years after the work was done a copy of the account being needed to adjust the interests of the partners, I found the Surveyor General had omitted this township from my account altogether. The most charitable conclugations of the surveyor depends of your Centaur Liniment. We all feel thankful to you, and recommend your wonderful medicine to all our friends." Years after the work was done a copy gether. The most charitable conclusion would be that the error in the account was merely a mistake. But as Mr. Odell, the then Surveyor General, acted falsely and faithlessly with me in regard to a second contract, I think this further injury was as likely to have been by design as accident. The contract executed by my partners and myself was of the kind known to depu contract executed by my partners and myself was of the kind known to deputies as non-paying; a part of it is located on the top of the Cascade mountains, brushy and heavily timbered, a part of it to connect old work to the boundary line between California and Oregon and also to connect.

to be fictitious, the contract promised me was given to the surveying firm of Howard & Turner, on the terms, as Mr. Howard informed George Nurse, proprietor of Linkville, that they, Howard & Turner, were to divide the profits derived from it equally with Surveyor General Odell.

But this kind of corruption is not peculiar to General Odell or the Oregon office. It has been equally ripe in California. Alex McKay, a compe tent surveyor of the latter State, informed he had surveyed two or three different contracts without even knowdifferent contracts without even knowing who received his pay from the Government, he being requested to sign a blank power of attorney and accept \$100 per month for his services.

Sins:—I have tried the Castoria and can speak highly of its merits. It will, I think, do away entirely with castor oil. It is pleasant and harmless, and is wonderfully efficacious as an aperient and laxative. It is the very thing.

an aperient and laxative. It is the very efficacious as turned out of office, but not upon the ground of his corrupt practices. Mr. Odell has resigned his, but only to receive the best paying contracts, and now by the selection of his brother politicians is the ugly figure head of the Republican of the services. the Republican electoral ticket.

I shall certainly vote for Hayes and Wheeler if I live and have strength to reach a poll, but regret being compelled to express my preference through so corrupt a channel. Very truly yours,

Mr. Clymer Tells Why Grant was Not

Impeached.

From Clymer's New York Speech, I say to you, and I mean to be unany blame that may be attached to me, and remark here that I am willing to bear it, that if it was not within a few months there would be a change of administration, impeachment would be laid at the door of the present President of the United States. I tell you

that I know from my own knowledge and from the investigations of the committee that he has been defiant of the law; he has purposely disregarded the statutes; he has been guilty of high crimes and misdemeanors. I say now, that it it were not within a few months he will be removed by the will of the people, that his name would have been presented to the United States Senate for impeach- Bread, Cakes, Pies, Fruits and Vegetables. ment for high crimes and misdemeanors. If you want all this, elect Rutherford B. Hayes for President. And why, fellow citizens? Because he was nominated by the men within the ranks of the Radicals, and representing Grantism; for he must be of them to be elected, and when elected he must be their tool and instrument. And if he were not to be their tool and instrument he would never have en their candidate. These are broad deductions, tair deductions from all that has been said by the honorable gentleman preceding me. And it is in this way that they would attempt to reform the body politic. And yet there must be reform to preserve the body politic. But with such reform, in four years it would not be worth

BETHESDA SPRINGS.

THESE SPRINGS ARE LOCATED ABOUT 55 miles east of Eugene City and within four miles of the celebrated Big Prairie of the McKensle. They are within a few hundred yards of Horse Creek, one of the most famous trouting streams in Oregon. Deer and Elk are very plenty near these springs, having been the resort for ages of these animals. The grandest and most picturesque scenery in the North Pacific. We have the best buildings and the best accommodations of any Springs in this part of the State. Our bath house is new, and is constructed with reference to the wants of those visiting us from the valley. We also have an excellent vapor bath room constructed near the head of the Spring, and in all things, we propose to keep up with the demand for an institution of this kind.

An experienced physician in attendence at all desires to inform the General Public, and especially all those laboring under all forms of Chronic Complaints, that he can be consulted at 649 Clay street, on every variety of bisease of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all SPECIAL DISEASES, of which the list is numerous, and which are more closely connected with the general health than the majority of people are aware. Unhappy invalids for years persist in concealing their condition from a motive originating in mistaken delicacy, and suffer in silence until their miseries become too acute to be repressed, and mental and physical debility untils the sufferer for active duties of life. This latter type of affliction manifests itself in the complant professionally known as Syphilis, in all its forms and stages; Seminal Weakness, and all the distressing forms of Self-Abuse, or Onanism; Gonorrhora, tileet, Stricture; Noctornal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc. The number of persons affering from these horrible Diseases, in whom the Doctor has effected a radical cure, can be counted by the thousand, and the voluntary certificates in his possession, received from persons he has restored to health, are enough to satisfy all that the Doctor's skill in the treatment of these affections, enables him to warrant speedy cures, even in obstinate cases, and in every instance give relief. Diseases which formerly haffled the medical skill of the most iearmed and experienced Practitioners of the healing art, and were regarded by the majority of Physicians as utterly incurable, now readily yield to modern remedies, when prescribed by the intelligent Practitioners. The preservation of health and life is dependent upon the proper condition of the procreative functions and any weakness or cause of weakness of the generative organs or their less is a direct attack upon the general health as well as a sure destruction—if not properly cured—of the organs that are the pride of one sex and the blessing of the other. In Youth is laid the foundation of much of the misery of after years by the indulgence of the most destructive of habits making life a curse and spreading weakness and ruin among markind, for it is a well known fact that the indulgence in solitary vice, even in the slightest degree, plants seeds of weakness in the system that grow to a harvest of disease, sorrow and shame in after years.
