

THE EUGENE CITY GUARD.

EUGENE CITY, OREGON. SATURDAY, JAN. 20, 1877.

Politicians, no matter to what party they belong, are hardly to be considered responsible persons. They have always been notorious for doing ridiculously foolish things.

The good work of raising woman from her lowly sphere goes bravely on. A Presbytery in New York on the 4th inst. concluded the trial of Rev. Dr. Lee for a violation of St. Paul's injunction and of the rules of the church in allowing a woman to occupy his pulpit.

Gov. Grover, in one way and another, has done more to bring Oregon into notice than could half a dozen Boards of Immigration. His action and published opinions in the Watts-Cronin case have made him and Oregon both famous, and henceforth peo- at a distance will turn with inquisi- tive interest to a place that furnishes such men as our Governor and minds capable of scotching the most un- scrupulous combination of fraud and corruption that have ever disgraced our country.

The Christian Advocate, of Port- land, has quit religion and gone into politics—espousing the cause of Grant, Chandler and all the other thieves. It is very painful to see how that paper has degenerated since Dr Dillon was displaced as its editor.

The N. Y. Herald says: "The Or- egon Electoral muddle is encouraging to stockholders in lunatic asylums." It looks something as if the inmates of about six first-class asylums had been engaged to pass on it.

Gov. Grover as a Witness.

Dispatches to Eastern papers in re- gard to the testimony of Gov. Grover at Washington differ very materially from those sent the organ at Portland. A dispatch to the N. Y. Sun of the 5th says:

Gov. Grover was before Morton's Com- mittee to-day for a considerable time, and after a searching cross fire produced a most favorable impression on all Republicans present, apparently even on Morton himself. The latter began the investigation in his peculiarly snappish and insolent manner, but Gov. Grover's dignified, quick, and laconic replies entirely disarmed his antagonist, and with an air of evident disappointment he changed his tone and treated the Governor with marked respect.

Morton was equally unsuccessful when he approached the Governor as to his judicial power over the court and the giving of certificates, for that gentleman quoted an authority from Morton's own State showing that the duty of giving commissions and certificates of election are political, and the responsibility rests alone on the discretion of the Executive as a conservator of the Constitution.

Finally Morton, with a great show of con- sequence, referred to Mr. Patrick's visit, out of which Republicans have tried to extract something sensational. On this point Gov. Grover said, with cutting indifference, that the gentleman called on him and remained perhaps ten minutes; that he was very much occupied with official duties at the time, and regarding the call merely as one of courtesy on his part, he had paid little or no attention to Mr. Patrick's remarks.

It is a pointed fact that Germany makes the best needles.

The Presidential Problem.

From the dispatches of the 17th it appears that the joint committee of the Senate and the House has agreed on a plan to ascertain who shall be President of the United States for the next four years. According to a dis- patch to the New York World it can be authoritatively stated that the con- ference committees of the two houses on a plan to verify and count the elec- toral vote have virtually agreed. On the 16th the main feature was adopt- ed by a decided majority. This fea- ture proposes a tribunal of arbitration, to be composed of the first five judges of the Supreme Court, to be selected in the order of their length of service on the bench. To this arbitration is to be referred all questions of law and equity arising out of contested returns for decision as to which is the proper return to be counted. Their decision, however, is not to be final, as has been foreshadowed in some quarters, but is to be left to revision by Congress. The two houses are to be briefly de- bate it and then vote upon it. If both do not agree to reject it, then it is to remain, and the return submitted for such vote is to be counted for a valid electoral vote. The arbitrators are to act co-ordinately directly with the two houses of Congress, through the President of the Senate, and the de- cision submitted by the former is to be passed upon separately by each house, but announced to the joint con- vention. If both the Senate and House of Representatives decide to reverse, then the return involved is not to be counted. The whole plan, it is expected will be submitted to Congress.

The San Francisco Post has found "day-light," and here is how it does it: "The vote of Indiana was as follows: Hayes.....208,111 Cooper.....9,533 Total.....217,644 Tilden.....210,326 Democratic majority.....4,118 Now let us try it this way: Tilden.....210,526 Cooper.....9,533 Total.....220,059 Hayes.....208,111 Republican majority.....11,948 That is what we call a very good showing for a State that gave Grant a majority of over 17,000 in 1872.

Grant's last noble utterance has gone into history. It is this: "I don't care a damn for the Supreme Court!" Whom the Gods wish to destroy, says an exchange, they first afflict with the delirium tremens.

The Journal says that Mitchell has been "bull-dosing the Democrats." Well, why not? He has been, ever since first heard of, "bull-dosing" hon- or, honesty, decency, morality, truth and virtue, and it cannot be expected that a reprobate who has so long been hanging on the ragged edge of total depravity would reform now.

The Oregon Case.

A New York dispatch of January 18th says: The treasury of the \$8,000 check has been discovered by the N. Y. correspondent of the Boston Traveller who unfolds the tale as follows: Your correspondent has just concluded a long interview with Jordan, cashier of the Third National Bank in this city. He declared the \$8,000 transaction was undertaken by three members of the Democratic National committee who determined to invest their own funds in an endeavor to find some favor in Oregon. Tilden knew nothing about it until it appeared in print, and then he denounced it in most unmeasured terms, sending for Pelton his secretary, and threatening to take away his position as secretary of the national committee, also threatening to dismiss him from his service. Pelton thereupon told the whole story how Scott guaranteed the money, how he (Pelton) went to Jordan, and asked Jordan to go to Martin & Runyon to issue the check, how Runyon handed the check over to a man named Diamond, and that finally the checks were drawn, neither of which succeeded. Tilden denounced them as fool- ishly second-rate trading with his interests and ended by temporarily suspending Pelton from his services. The difficulty is to make the public believe such a story. I told Jordan, but he assures me it is the absolute fact, and that he is suffering Tilden's displeasure because he undertook to get money sent to Oregon.

Florida for Tilden.

The World's Washington special says Senator Jones, of Florida, received to day the following dispatch, dated Tallahassee Fla. Jan. 17th: Information of the quo warrants has been decided upon, the demurrer in favor of the Democrats and against the Hayes electors. This decision is given by Judge White, of the circuit court, the demurrer being made that the Hayes electors having met and acted no court could consider their eligibility. After fact, by denying this demurrer the court decides that it has jurisdiction, and the case will proceed to trial upon the main issue as to the right of the Hayes electors to act at all. Meanwhile the decision on demurrer will be appealed to the supreme court. Dudley Field who is following the case, regards this decision as of the highest importance, and practically establishing the action of court as it has already decided that the canvass of the vote, under the laws of the State must be ministerial.

ITEMS OF NEWS.

Pilkins and Casey have left New Orleans for Washington. Iles is breaking up from Pittsburg, Pa., to Louisville, Ky. Sargent thinks that Florida was carried fairly for Hayes.

Jan. H. Wilbur has been appointed Indian agent at Yakima, W. T. Hon. Wm. Windom has been re-elected U. S. Senator from Minnesota. The W. U. T. Co. has reduced its rates between the East and West. A bill is before the House taxing every emigrant landing in New York \$1 50.

The late snowstorm in the East has made navigation by land and water very difficult. The dispatches sent by Republicans to Florida are being inquired into by the Democrats. Nicholl's sheriff refuses to recognize the writ of habeas corpus issued by Packard's judge.

Investigations into the Alabama and Mississippi elections develop nothing worthy of mention. Jas. G. Blaine has been re-elected to the U. S. Senate from Maine for the long and short term. Grant has telegraphed Gen. Auger that he is to use his troops only to prevent breaches of the peace.

In case Perry resigns, Senators talk of electing some one out a Senator to act as Vice President. Forsyth, successful Minnesota's Republi- can elector, is said by Democrats not to be a naturalized citizen. The House will pass no harbor and river bill this session because of the almost certain veto it would receive.

Pinchback has taken three colored Republi- can Senator in New Orleans over to the Nicholl's government. Ex-District Attorney, Chas. G. Fisher, convicted of stealing court papers, has been pardoned by the President. Congress will be again petitioned to make a sixteenth amendment to the Constitution allowing female suffrage.

Hewitt says that Chandler telegraphed to the "three disputed States" that they must be counted for Hayes. The Times says the Senate Committee which went to South Carolina is agreed that the State went for Hayes. It is feared a clash of authority will take place between the Supreme Court and the House in the Barnes case.

Ten thousand armed Democrats are pre- paring to go to Washington to witness Tilden's peaceful inauguration. Nicholls has telegraphed that it is not his intention to make a recount of the electoral vote. That he leaves to Congress. James Gordon Bennett was put on board the steamer Richmond, bound for Europe from the Herald news yacht, on the 13th.

The six Republican sergeants-at-arms who went to Pinchback's house, have been sent to jail in default of \$1,000 apiece bail. Gen. Auger considers that President Grant's instructions in the Louisiana business have not materially changed the situa- tion. Sub-committee has been appointed by the House postal committee to consider the pe- tition for a re-organization of government control.

The Times says that the dispatches from Chandler which have fallen into the hands of the House committee, at Florida, are bogus. The Massachusetts legislature is balloting for Senator. Boutwell and Hoar lead for the Republicans and Judge Abbott for the Democrats. Democrats will defend the court house in New Orleans against the impostor Packard. The Evening Democrat recommends hang- ing Packard.

Kellogg admitted to the House investigat- ing committee that he had received a dis- patch that Louisiana must be carried for the Republicans. The House appropriation bill reduces the salaries of civil officers about 10 per cent, and the clerical force to about the number proposed last year. Judge Donohue has decided that Dr. Phelps is justified in refusing to answer the grand jury about the May-Bennett duel, as it might criminate him.

The evidence before the coroner's jury in the Astabula railroad case shows gross neg- ligence on the part of the engineers having charge of the bridge. Lieut. Baldwin struck Sitting Bull's camp on the 18th ult. on Red river and defeated him with a loss of all his camp property and sixty mules and ponies. The late Major General J. P. Bankson, of the Philadelphia militia, who lately suicided at Philadelphia, is said to be deficient in his accounts \$150,000.

The Democratic House passed a joint res- olution at New Orleans, unanimously, on the 16th, that their policy be kindness and fair- ness to the colored people. Bishop Welmer of Louisiana testified to the peaceful relation between the races. Ex- Chief Justice Manning testified as to the bad character of Gov. Wells. Bennett and May fought at a little station in Delaware near the Maryland line, called Slaughter House. May was slightly wound- ed. Three shots were fired before blood was brought.

Grant says that in case no result in the Presidential election is reached before the 4th of March, the President of the Senate will be recognized by the Cabinet as the President of the United States. Secretary Chandler refuses to answer whether the dispatches sent to Florida promising troops were on his own motion or some one's else. The committee insists and gives him till Wednesday to make up his mind. The House recommends that the Loui- siana returning board be brought before the bar of the House to show cause why they should not be compelled to produce the original papers called for, or else be committed for contempt.

Estimates sent to Congress of deficiency of appropriations required by all depart- ments contain only the following for the Pacific coast: \$25,000 for continuing coast survey during the remainder of the current fiscal year, \$9,000 for amounts due for sur- veying public lands in California, Oregon, Washington and Arizona. Pelton testified in the Oregon case that it was understood that the Republicans in- tended to make a defense of Watts' eligi- bility and that the Democrats needed money with which to engage counsel, so a check for \$8,000 was sent. The Republicans not doing as was expected, the \$8,000 was re- turned.

John Parker, of Albany being examined in the Oregon case, testified he was not armed on the day of meeting of the Oregon electors. Ben Simpson testified that he and Governor Grover had spoken of Watt's ineligibility in the middle of November, and the latter said the authorities were conflict- ing. C. C. Jordan cashier of the First National bank of New York, testified that the \$8,000 check was returned unused. Grover testified that he had never written a letter to any one stating that Tilden would get an electoral vote from Oregon. Watts considered himself eligible. Mitchell made a voluntary statement that he did not know Watts was a postmaster until after the election.

OREGON.

Seeding is almost over with on Myrtle creek, Douglas county. The much talked-of Yaquina railroad can be built for \$450,000. A baker and a tinsmith are wanted at In- dependence, Polk county. Rich ore has been taken lately from Faux's creek Jackson county.

"Ochoco Bill" was recently sold in Oak- land at Sheriff's sale for \$120. Peach trees are almost ready to blossom in some parts of Wasco county. The mill at the Lucky Queen mine has started work crushing good ore. Mr. Christman, living near the Dalles, says he has a plum tree in full bloom.

A new truck for the Dalles hook and ladder company, has been made at the Dalles. Hon. S. Staats has sold 400 acres of land near Monmouth, to a Mr. Damon, for \$8,000. Two unsuccessful attempts at burglary were made at the Dalles last week by two masked men.

The new flouring mill at Independence is completed and will commence operations immediately. In the canyon road case tried at Roseburg, the Judge decided against the Douglas county road company. Messrs. Handley and Sinnott, of the Dalles, offer \$100 for the arrest of the thief or thieves who robbed their store last week.

On the last trip of the schooner Annie Gee from San Francisco to Coos Bay, the mate was washed overboard and drowned. After the third round on first "blood," a Jacksonville referee decided a prize fight a draw, last week, and all bets off. The Douglas Independent urges the establishment of a salmon fishery and cannery at either Gardner or Scottsburg. The wharf at Luce's mill, Coos Bay, fell with a crash last week, precipitating a large quantity of lumber into the water.

TO THE PUBLIC.

The hymns robed the grave and lives on the dead, but men sometimes put brutes to the blush. We are reminded of this by the fact that D. B. Lakin charged \$400, for assisting to bury J. T. Witt's child, NEMESIS.

August Flower.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Com- plaint. More than seventy-five per cent of the people in the United States are afflicted with these two diseases and their effects; such as Sour Stomach, Sick Headache, Habitual Constiveness, Palpitation of the heart, Heart-burn, Water-brash, gawking and burning pains at the pit of the stomach, Yellow Skin, Cracked Lips and dis- agreeable taste in the mouth, coming up of food after eating, low spirits, etc. Go to your Drug- gist and get a 70 cent bottle of AUGUST FLOWER or a sample bottle for ten cents. Try it—two doses will relieve you. CHASE & BIGHAM, agents, San Francisco, Cal.

HOLLOWAY'S PILLS.—The thousands of existence—Epilepsy, &c.—Among the many shoals and perils of life on which our frail natures would founder, were it not for the benevolence that indicate and warn us of our danger, are epileptic fits, rash of blood to the head, apoplexy, &c., for which Holloway's Pills are the safest remedies in exist- ence. The disorders arise from some one or more derangements of the system. From whatever source, however, they may proceed, Holloway's Pills are the most salutary in effect, as they cool the blood, brace the relaxed nerves, give tone to the digestive or- gans and energy and vigor to the enfeebled constitution.

MEDICATED BATHS ARE EXPENSIVE. Not so, however, GLENN'S SULPHUR SOAP, a cheap and efficient substitute, which answers the same pur- pose as far as the local diseases of the skin, rheumatism and gout are concerned. HILL'S INSTANTANEOUS HAIR DYE produces natural effects and is safe.

THE NATURALISTS' AGENCY Minerals, Shells, Birds, &c. THE NATURALISTS' AGENCY HAS been established at 3725 Lancaster Avenue, Philadelphia, for the purpose of giving collectors of objects of Natural History an opportunity of buying, selling or exchanging their duplicates or collections. Please state where you saw this advertisement. Specimens sent to any part of the world by mail. A monthly bulletin of 8 pages sent free. My MINERALOGICAL CATALOGUE and table of species, by which most minerals may be identified, illustrated by over 8000 worth of Engravings, is now ready for distribution. It is an excellent check list containing in the price list every species and all the more common varieties arranged alphabetically and preceded by the species number. The species number indicates the place of any mineral in the table of species, after it will be found the species name, composition, streak or lustre, cleavage or fracture, hardness, sp. gr. fusibility and crystalliza- tion. Free to all customers. To others on re- ceipt of ten cents for postage. The large increase of my business has com- pelled me to rent the store No. 3727, and use it entirely for Birds, Mammals, Shells, Plants, Books, Fossils, Mould Builders' Relics and all objects of Natural History except Minerals. I have secured the services of one of the best taxidermists in the country, a gentleman who was employed by the Smithsonian Institu- tion in South America for three years. I have a very large stock of Western and Southern Birds on hand. Also, Heads and Antlers for Museums, Dining-rooms, Halls and Libraries. I have now over 88 tons, and nearly \$85,000 worth of Minerals on hand. I have sold over \$17,000 worth since the 17th day of January, when the first box was put into my establish- ment. November 13th, my cash sales were over \$1,500 and cash receipts over \$1,200. I have the best specimens ever seen of Ama- zon Stone, Ruby Silver, Samarskite, Amethyst- like, Brookite, Columbite of Yttria, Zonochlorite, Chilenite, Chalcedony, Rutile in Quartz, Hydro- titanite, Itacolomite, Nigrin, Green Wavel- lite colored by Vanadium, Peganite, Smoky Quartz, Rock Crystal, Perovskite, Schrolomite, Aegurite, Feldspar, pink, red, gray, hyacinth and green, Embolite, Melanite, Ozarkite, and Chlo- astroilite. Collections of Minerals For Students, Amateurs, Professors, Physi- cians and other Professional Men. These collections illustrate all the principal species and all grand subdivisions in Dana and other works on Mineralogy; Every Crystalline system; all the principal Ores and every known element. The collections are arranged in a printed label that can only be removed by cutting. The labels give Dana's species, number, the name, locality, and in most cases the com- position of the mineral. All collections accompanied by my Illustrated Catalogue and table of species. 100 Crystals and Fragments for Study..... \$1 100 Specimens, Student's Size, Larger..... 5 100 Specimens, larger, Amateur's size 2 1/2 x 1 1/2 inches..... 10 Collections of Gems, Pearls, Earthy minerals, Minerals used in any Arts or Agriculture, on hand or put up to Order. We sell Minerals by weight, for the Chemist and blouppie use, at very low prices, as Samar- skite 25c. per lb., Brookite Pure Crystal 25c. per lb., Rutile (pure) 25c. per lb., Wavelite 25c. per lb., Blende 10c. per lb., Lepidolite 20c. per lb. I desire especially to call attention to my re- markably fine specimens of AMAZON STONE, of which I have or have had nine-tenths of all the specimens ever found. I have made six trips to the locality, and think I may safely say no more will be found. Good crystals from 15 cents to \$1 each. I have just purchased the best of the Ruby Silver exhibited at the Centennial by the Chil- ian government. These are the only specimens weighing less than three lbs. that ever brought anything like \$1,000 each. My TITANIUM MINERALS are the finest ever known. Besides the Hydrated Titanic Acid, Hydrotitanite, a mineral recently analyzed by Dr. Koenig, of Pennsylvania University, I have also remarkably well crystallized Perov- skites, Brookites of enormous size, Rutiles gen- erated till they form a circle, Schorlanite, Warwickite, &c. I have the most beautiful green Wavelite and Peganite ever known, colored by Vanadic acid. I am selling ARTHUR'S at far lower price than it was ever sold at before. Over \$2,500 worth sold since the 10th of July. I have just bought the famous CHILTON COL- lection of Minerals and Shells, which have been on exhibition at Tiffany's for the past two years. The original price asked was \$3,000. It contained a number of unusual things, among them a Rutile in Quartz, for which Mr. Clinton was offered \$850. A twin crystal of clear calcite containing a pint of water, weighing over 10 lbs. The only perfect spiny- murex in the country. My collection of plants is very fine, comprising many that are rare, from the far North and West. I have just secured the Northern and Middle States (including Va.) collections of A. H. Curtis, who will no longer deal in them. I have several hundred volumes of rare old works on Mineralogy, Chemistry and the- tical sciences. Among them are many of the most interesting of the State and Govern- ment Reports. A. E. FOOTE, M. D., Prof. of Chemistry and Mineralogy, 3725 Lancaster Avenue, PHILADELPHIA, PA.
