WASHINGTON, Feb. 3 .- The following is the President's message to

ing is the President's message to Congress on the subject of resumption of specie payments:

To the Senate and House of Representatives: By act of Congress, approved Jan. 14, 1875, to provide for the resumption of specie payments the first of January, 1879, is fixed as the date when such resumption is to begin. It may not be desirable to fix an earlier date when it shall become obligatory upon the government to redeem its outstanding legal tender notes, in coin, on presentation; but it is certainly most desirable, and will prove most beneficial to every pecuniary interest of the country to hasten the day when the paper circulation of the country and gold coin shall have equal values. I believe the time has come when by a simple act of the legislative branch of the government this most desirable result can be attained. I am strength ened in this view by the course trade has taken in the last two years, and most of the sum dring the next year will be the same as during the year that has just passed. The daily edition will on week days be a sheet of four pages, and on Sundays a sheet of eight pages, or 56 broad columns; while the weekly edition will on week days be a sheet of four pages, and on Sundays a sheet of eight pages, or 56 broad columns; while the weekly edition will be a sheet of the same dimensions and character that has just passed. The daily edition will be a sheet of fixer pages, or 56 broad columns; while the weekly edition will be sheet of the same dimensions and character that has just passed. The daily edition will be a sheet of feight pages, or 56 broad columns; while the weekly edition will be sundays a sheet of eight pages, or 56 broad columns; while the weekly edition will be sheet of the same dimensions and character that has just passed. The daily edition will be sheet of the same dimensions and character that has just passed. The daily edition will be sheet of the same dimensions and character that has just passed. The daily edition will on that has just passed. The daily edition will obtu has taken in the last two years, and by the strength of the credit of the United States at home and abroad. For the fiscal year ending June 30, 1876, the exports of the United States exceeded the imports by \$120,213,102; but our exports include \$40,569,621 specie and bullion in excess of the imports of commodities for the six months of the present fiscal year. From July 1, 1876 to January 1, 1877, the excess of exports over imports amounted to \$175,448 69, and imports of specie and bullion exceeded the exports of the precious inetals by \$6, 192,147. In the same time the actual excess of exports over imports for imports for imports for imports of exports over imports. excess of exports over imports for also one of the very best. Address, THE SUN, New York City, N. Y. six months exclusive of specie and bullion amounted to \$113,737,040, showing for the time being accumulation of specie and bullion in the country amounting to more than \$21, 000,000. In addition to the national product of these metals for the same period the increase of gold and silver for six months is not far short of \$60, 000,000. It is very evident that unless this great increase of precious metal can be utilized at home in such a way as to make it in some manner remunerative to holders it must seek foreign markets as surely as would any other product of the soil or manufactory, and legislation which will keep coin and bullion at home will in my judgment soon bring about practical re-sumption and will add the coin of the country to the circulating medium, thus securing healthy inflation of a sound currency to the great advantage of every legitimate business interest. The act to provide for the resumption of specie payments authorized the Secretary of the Treasury to issue bonds of either desciptions named in the act, approved July 4, 1870, entitled an act to authorize the refunding of the national debt for not less than par in gold. With the present value of the 41 per cent. bonds in the markets of the world they could be exchanged at par for gold, thus strengthing the treasury to meet final resumption and to keep an excess of coin over the demand pending its permanent use as a circulating medium. At home all that would be required would be to reduce the volume of legal tender notes in circulation and to accomplish this I would suggest an act authorizing the Secretary of the Treasury to issue four per cent. bonds, with forty years to run before maturity, to be exchanged for legal tender notes whenever presented in sums of fifty dollars, or any multiple thereof, the whole amount of such bonds, however, not to exceed one hundred and fifty millions. To increase home demand for such bonds I would recommend that they be available for deposit in the U. S. treather than they be available for deposit in the U. S. treather than the press. Price, \$4; in full gift, \$5. urp for banking purposes under the various provisions of law relating to mational banks. I would suggest Kingdom of the Greek, "A story adapted to the further that national banks be refurther, that national banks be required to retain a certain per cent. of coin as interest received by them from the bonds deposited with the treasury as required by their circulation. I would also recommend the repeal of the 3d section of the joint resolution for the value of silver coin, approved January 22, 1876, limiting subsidiary coin and fractional currency to fitty millions. I am satisfied that if Congress will enact some such law as suggested they will give relief to the country in its effects, and

for which they will receive the grat-itade of the whole people. U. S. GRANT. FEBRUARY 3, 1877.

A California Wild Geose Story.
From the Anaheim Gazette.
The large flocks of geese that are constantly passing over the town are frequently shot at, but they generally any series in popular science recently given to the public. fly at too high an altitude to be reached by the leaden missiles. Sometimes, however, the shots take effect. The other day we' were watching a flock flying southward, when the report of a gun was heard, and we saw one of the geese begin to fall slowly. The others, perceiving that their comrade was wounded, uttered shrill cries of distress, and about a dozen of them flew under the wounded bird huddling together so that their backs formed a scort of hed on which the wounded of the wounded of health of heal flock flying southward, when the resort of bed, on which the wounded one rested. They buoyed it up for some time, the others looking on and manifesting their concern by atter-ing loud, discordant shricks. Finding that their companion was unable longer to accompany them in their flight, they abandoned him to his fate, and he fell into the arms of an expectant Chinaman.

MARK THESE FACTS THE TESTIMONY OF THE WHOLE

HOLLOWAY'S PILLS.

Let the suffering diseased read the following.
Let all who have been given up doctors, and spoken of incurable, read the following.
Let all who can believe facts and can have faith in evidence read the following.
Know all men by these presents, that on this the 20th day of June, A. D. 1066, personally came Joseph Haydock, to me known as such, and being duly sworn deposed as follows: That he is the sole general agent for the United States and defendencies thereof for preparation or medicines known as Dr. Holloway's Pills ank ointment, and that the following certificates are verbatim copies to the best of his knowledge and belief.

JAMES SMIETRE,
[L.S.]
Notary Public.
14 Wall street, New York.

Notary Public. 14 Wall street, New York. DR. HOLLOWAY—I take my pen to write you of my great relief and that the awful pain in my side has left me at last—thanks to your pills. Oh, Doctor, how thankful I am that I can get some sleep. I can never write it enough. I thank you again and assis, and am sure that you are really the friend of all sufferers. I could not help writing to you, and hope you will not take it amass. JAMES MYERS.

This is to certify that I was discharged from the army with chronic distribusa, and have been cured by Dr. Holloway's Pills. WILSON HARVEY, New York, April 7, 1866.

21 Pitt street.

The following is an interesting case of a man employed in an iron foundry, who, in pouring melted iron into a flask that was wet, caused an explosion. The melted iron was thrown around and on him in a perfect shower, and he was dreadfully burned. The following certificate was given to me by him about 8 weeks after the accident:

NEW YORK, Jan. 11, 1875.

An about 8 weeks after the accident:

New York, Jan. 11, 1875.

My name is Jacob Hardy; I am iron founder, I was badly burn by hot iron in November hast; my burns heased, but I had a running sore on my leg that would not heal. I tried Holloway's Ointment, and it cured my in a few weeks. This is sall true and anybody can see me at Jackson's Iron works, 24 Avenue.

J. HARDY, 119 Goerch street.
