THE BASIS OF RUSSIA'S CLAIMS.

The St. Petersburg Golos is quoted as saying that the "Russian occupation of the Christian Provinces of Turkey, which would be the logical consequence of a refusal of the Porte to carry out the demands of the protocol, would exclude all ideas of the ambitious designs attributed to Russia, who by intervening in behalf of the Christians would solely pursue humanitarian ends." Russia has always pleaded her humanitarianism in every attempt she has made to annex Turkish territory, of which she has seized an immense amount. She has, it is true, good reasons for asserting her right to protect the Christians, although there is a strong political territorial feature connected with the territorial feature connected with the ambitious designs attributed to Rusclaim. It must be remembered that the Treaty of Kainardgi, in 1874, gave Russia the right to remonstrate in favor of the Greek Christians in Moldavia and Wallachia (the present Roumania), and an organic statute of Turkey in 1834 gave her the right of protectorate, and in 1849 the Conven-tion of Balta Liman gave her the ad-ditional right of armed intervention in favor of the Christians in Turkey. It was the assertion of this right is intended for the tough, fibres, cords and mus-which brought on the Crimean war, cles of horses, mules and animals. but the Treaty of Paris in 1856 placed READ! READ! a severe check upon this traditional right, and Russia Lad to submit to it because she had been weakened. She now revives the old claim, which lies at the bottom of the Eastern question, and it remains to be seen whethcr there will be any combination of European Powers with Turkey to oppose her. It appears now, that, should Russia confine her "occupation" to Bulgaria, Servia and Bosnia, and not lay her hands on Constantinople, she will not be molested, at present, at least.

It makes very little difference whether the case be "weach," sprain, spavin or lameness of any kind, the effects are the same. The great power of the Liniment is, however, shown in Poll-evil, Big-head, Sweeny, Spavin, Ring-bone. Galls and Scratches. This Liniment is worth millions of dollars to Livery men, Farmers ad those having valuable animals to care for. We warrant its effects, and refer to any farrier who has ever used it. present, at least.

THE DESERT LAND LAW IN KERN.

The Kern county press defends the landholders against the charges which have been made against them in connection with the Desert Land Law, possession under its provisions of tracts which were utterly useless without irrigation, and which could not be cultivated in small holdings because of the cost of putting water upon them, and which could never be utilized unless capitalists combined to irrigate them on an extensive scale.

The local press, which certainly ought asserting that they have only acquired irrigate them on an extensive scale. The local press, which certainly ought to know what it is saying, declares that no wrong has been done to any one, under the Desert Land law, so far as Kern county is concerned, but that, on the contrary, the county has been benefited by the addition of a million dollars to its taxable property, and by the increase of its productive area. These journals assert emphatically that the land taken under the lealthy. J. B. Rose & Co., New York. new law would have remained desert indefinitely if not utilized in this way, and that the public have gained instead of losing by the transaction. This evidence is important, and it is needless to say that it carries far greater weight than the hasty conclusions of outsiders, who are not aclands in question, and whose reasoning is based upon theoretical views quite as likely to be wrong as right. The Desert Land law may have been abused. We think it very likely, for we never heard of a land law which was not made a cover fer fraud in some way. But it does not appear that it has been abused in Kern county.

MERELY A CHANGE OF NAME,

The reverse of the poetic fancy that a rose by any other name will smell as sweet is likewise true. Call the rankest noxious weed what you will, it is the same weed still. The political thugs who used to call themselves "Crescents"—and they are exercicence-have adopted the more descriptive title of "Free School Lea guers." Their hidden way of saying it is, that they will vote for no candidate for office who does not oppose the division of the public school fund in fivor of any sect. The clear English of which is, that they bind their members never to vote for any candidate who is a Roman Catholic, Their "Free School League" is a fraudulent and deceptive trade-mark, put on to allure the multitude. It is a secret and treasonable organization, and only fanaties, bigots, Lase demagogues or fools, will have part or fellowship in it. The honest and open old Democratic party has witnessed the birth and death of similar pernicious organizations, and it will witness the demise of this rank production of the old puritanical hydra seed in good time, Dark-lantern crusading political leagues do not thrive or live long on this free soil .- Ele.

PROPRIETARY

After years of the most to gious requarch and investigation, and ofter the
practical application in treatment to thousands of patients, Geo. Chandler, A.M.,
M.D., now presents to the American public the following remedies, his sole discovery and property, the efficacy of which
is attested in the voluminous quantity of
testimonials, the unsolicited offerings of
angering and discouraged patients, who
have not only received relief and benefit
from their continued use, but have been
radically cured of allments and chronic
complaints, which have been adjudged by
the most eminent physicians as hopeless.

THE WONDERFUL EGYPTIAN BLOOD-PURIFIER.

HEMAR.

This incomparable DEPURATIVE is a powerful ALTERATIVE, TONIC, DI-URETIC, DIAPHORETIC, and APERI-ENT, combining virtues which render it invaluable and never-failing, and by its continued use will thoroughly cradicate all diseases of the blood. Its ingredients are of a purely harmiess extraction, the products gathered from remote Egyptian Previnces, and where there is the slightest taint of disease in the system, it never fails in ejecting that disease through the medium of the skin, or expelling it through the many and carious channels of the body, thereby allowing, and, indeed, forcing all the organs into their proper normal and functional condition. A very brief space of time will convince any patient using it, of its undoubted reliability and wonderful curative properties, it being, most unquestionably, the very acme of medical triumphs, and the greatest discovery of the present age, in the treatment of every disease where the blood itself is primarily the sent of the lesion or disorder, such as SCROFULA and the thousand and onbecauses that lead to this terrible affiction, of which all civilized communities are cognisant, for Hiblical Truth has asserted that the "Sins of the fathers shall elett even unto the third and fourth generations," and to BROKEN-DOWN AND ENFEEBLED CONSTITUTIONS it is a powerful reluvenator, causing the wreck of man once more to assume the God-like form of manhood.

**For CUTANEOUS DISEASES, URNATIFICION OR CONTIVENESS, LIVER AND KIDNEY COMPLAINTS, GENERAL AND KENY, AFFECTIONS OF THE BONES, INDOLERY COMPLAINTS (and to the gentler sex it is a boon long sought for by sensitive, susceptible, and delicate females, as it takes direct action upon their aliments) AND ALL FORMS OF CHRONIC DISEASE IN WHICH THE BLOOD IS THE SEAT OF THE TROUBLE, it is invaluable. A perservence with this remedy will prove a positive and permanent cure for CHILLS and FEYERS and all MALA-PIAL POISONS.

Thousands of Testimonials attest the truth of these claims.

Price, One Dollar, in large bottle, or six bott

DYSPEPSIA. GASTRON.

GASTRON is a safe, speedy, and positive cure for that most depressing of ailments, and a brief course of treatment will restore the digestive organs to their pristims, strength, and promote the healthy action of the stomach and intestines. The nervous irritability of literary and ult persons pursuing a sedentary life, is speedily removed by this agent. The stomach is restored to health and the keynote of the spaten will once more respond in the performance of labor.

Price, One Dollar, in large bottle, or six bottles, \$5.

BRONCHITIS AND LUNG AFFECTIONS. TRACHEON.

A slight so-called cold will ofitimes lead to a serious cough, which, uncared for or badly treated, must have but one result—it must eventuate in a settled case of BRONCHITIS, or what is worse, the deadly CONSUMPTION. To all suffering from harassing cough and expectoration, TRACHEON offers a sound, reliable, and permanent relief. It augments expectoration, and enables the patient to expet that terribly septio deposit, which, if left without judicious treatment, must communicate its poison to the vesicular substance of the lung, degenerating and destroying that most essential of organs, and ultimates only in an early and untimely death. TRACHEON has no equal, much less a superior, and its use cell not only remove the deposit, thereby affording great relief, but heals the membrane and leaves the patient in possession of healthy lung tissue.

Price, Flity Cents per bottle, or six bottles, \$2.50.

Price, Fifty Cents per bottle, or size bottles, \$2.50.

PILON.

PILES. Hemorrhoids.

Many couses tend to produce this pain, ful and distressing state. The blood is retarded in its return; the too frequent use of drustic purgatives tends to produce congestion of the bovets, torpid action of the liver, and numerous other causes are the source of this complaint, and hitherto nothing effectual has been presented to the public, which would rapidly alleviate symptoms and ultimately prove an effective cure. In PILON we have a remedy which not only acts almost instantly, but will remove the largest tumors of the parts (Piles) by absorption, and many who have received not only benefit, but have been radically cured, have been assured (prior to using this treatment) by eminent surgeons that the only relief they ever could expect in life, would be by an operation, and removing it or them from the body by a procedure which necessitated the knife. This remedy has been haited with delight, and is now prescribed by many practising physicians, who are cognizant of its merits, as the only known sure cure for PILES.

Price, Fifty Cents per package, or six for \$2.50.

THE AROVE REMEDIES ARE thorough in the eradication of the different and various maladies denominated, and are the result of patient, searching, laborious, and selentific investigation, embracing a period of many years, in Europe and America.

If the specific directions are complied with, thousands of patients will bear selfness to their relative merits, and corroborate every assertion. Where there are many complications of disease, and patients so desire, DR. CHANDLER will be pleased to give all information, and treat by letter if necessary.

Descriptive and Explanatory Circular of the above remedies sent on receipt of stamp. If the PROPRIETARY MEDICINES are not on sale at your particular druggist's, send orders to

SPECIAL DISEASES,
of which the list is numerous, and which are
more closely connected with the general health
than the majority of people are aware. Unhappy
invalids for years persist in concealing their condition from a motive originating in mistaken delicacy, and suffer in silence until their miseries become too acute to be repressed, and mental and
physical delality unfits the sufferer for active,
duties of life. This latter type of affliction manifests,
itself in the complaint professionally known as
Syphilis, in all its forms and stages; Seminal,
Weakness, and all the distressing forms of Seff.
Abuse, or Onanism; Gonortheza, Gleet, Stricture;
Nocturnal and Diurnal Emissions, Sexual Debility, Discases of the Back and Loins, Inflammation
of the Bladder and Kidneys, etc., etc. The number of persons suffering from these horrible Diacases, in whom the Doctor has effected a radical
cure, can be counted by the thousand, and the volunitary certificates in his possession, received from
persons he has restored to health are enough to satfy all that the Doctor's skill in the treatment of
these affections, enables him to warrant speedy,
