Burlington Hawkeye.

The other evening the Rev. Mr. Philacter sat down at the tea-table

with a very thoughtful air, and attended to the wants of his brood in a very abstracted manner. Presently he looked up at his wife and said:

"The Apostle Paul—"

"Got an awful lump on the head 'safternoon," broke in the pastor's eldest son, "playing base-ball. Bat flew out of the striker's hands when I was umpire, and cracked me right above the ear an' dropped me. Hurt! Golly!" and the lad shook his head in dismal but expressive pantomime as he tenderly rubbed a lump that as he tenderly rubbed a lump that looked like a billiard ball with hair on it. The pastor gravely paused for "The Apostle Paul-"

"Saw Mrs. O'Gheminie down, at Greenbaum's this afternoon," said his eldest daughter, addressing her mother. "She had the same old everlasting black silk, made over with a vest of tilleul green silk, coat-tail basque pattern, overskirt made with diagonal folds in front, edged with deep fringe; yellow straw hat, with black velvet facing inside the brim, and pale blue flowers. She's going to Chicago."

The good minister waited patiently, and then, in tones just a shade louder than before, said:

"The Arnestle Poul."

The pastor informed his son that he might stay away from the river, and then resumed his topic. He said :

The mother litted a warning finger toward the boy and said, "Sh !" and the father resumed : "The Apostle Paul says-"

"Don't bite off twice as much as you can chew," broke out the eldest son, reproving the assault of his little brother on a piece of cake. The pastor's face showed just a trifle of annovance as he said in very grim, de cided tones

"The Apostle Paul says-" "There's a fly in the butter?" shricked the youngest hopeful in the family, and a general laugh followed. When silence was restored, the eldest daughter, with an air of curiosity,

"Well, but, pa, I really would like ostle Paul said." o know what the A Pass the mustard," said the pastor, absently.

Then the Committee rose and the Senate went into executive session and soon after adjourned.

Eomaine Gold, so extensively worn in Paris, was first discovered in 1870, by the celebrated French chemist, Mons. D. Be Lainge, who manufactured it into jewelry, and for five years sold it to the leading jewelers of Paris for Solid Gold. In 1875, when his secret became known, ten of the manufacturing jewelers established a stock company, with a capital of \$10,000,000 for the purpose of manufacturing Hormaine Gold Jewelry and Watches. With this immense capital, and the sid of improved machinery they are enabled to produce all the latest patterns of jewelry at less than one-tenth the cost of Solid Gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.

We have secured the exclusive agency of the United States and Canada, for the sale of all goods manufactured from this metal, and in order to introduce them in the most speedy manner, have put up assorted sample lots as given below, which we will sell at one-tenth the retail value until January 1st, 1878. ## PROPRIETARY MEDICINES

DR. CHANDLER, F.R.S.A., Late Physician to St. George's and St. Bertholo mew's Hospitals, London, Curator to St. Elizabeth's, etc.

After years of the most suborlous research and investigation, and after the gractical application in treatment to thousands of patients, Geo. Chandler, A.M., M.D., now presents to the American public the following remedies, his sole discovery and property, the efficacy of which is attested in the voluminous quantity of testimonials, the unsolicited afterings of suffering and discouraged patients, who have not only received relief and benefit from their continued use, but have been radically cured of ailments and chronic complaints, which have been unjudged by the most eminent physicians as hopeicss.

## THE WONDERFUL EGYPTIAN BLOOD-PURIFIER. HÆMAR.

This incomparable DEPURATIVE is a powerful AITERATIVE, TONIC, DI-URETIC, DIAPHORETIC, and APERIENT, combining virtues which render it invaluable and never-failing, and by its continued use will thoroughly eradicate all diseases of the blood. Its ingredients are of a purely harmless extraction, the products gathered from remote Egyptian Provinces, and where there is the stightest taint of disease in the system, it never fails in ejecting that disease through the medium of the skin, or expelling it through the many and various channels of the body, thereby allowing, and, indeed, forcing all the organs into their proper normal and functional condition. A very brief space of time will convince any patient using it, of its undoubted reliability and wonderful curative properties, it boing, most unquestionably, the very acme of medical triumphs, and the greatest discovery of the present ege, in the treatment of every disease where the blood itself is primarily the sent of the lesion or disorder, such as SCROFULA and the thousand and one causes that lead to this terrible effiction, of which all civilized communities are sognizant, for Biblical Truth has asserted that the "Sins of the fathers shall visit even unto the third and fourth generations," and to BROKEN-DOWN AND ENFEEBLED CONSTITUTIONS it is a powerful rejuvenator, causing the wrech of man once more to assume the God-like

A perseverance with this remedy will prove a positive and permanent cure for CHILLS and FEYERS and all MALL-BIAL POISONS.

GASTRON. GASTRON.

GASTRON is a safe, speedy, and positive cure for that most depressing of ailments, and a brief course of treatment will restore the digesitive organs to their pristine strength, and promote the healthy action of the stomach and intestines. ## BRONCHITIS AND LUNG AFFECTIONS.

TERACHEON.

A slight so-called cold will oftimes lead to a serious cough, which, uncared for or badly treated, must have but one result—it must eventuate in a settled case of BRONCHITIS, or what is worse, the deadly CONSUMPTION. To all suffering from harassing cough and expectoration, TRACHEON offers a sound, reliable, and permanent relief. It augments expectoration, and enables the patient to expet that terribly septio deposit, which, if left without judicious treatment, must communicate its poison to the vesicular substance of the lung, degenerating and destroying that most essential of organs, and ultimates only in an early and untimely death. TRACHEON has no equal, much less a superior, and its use will not only remove the deposit, thereby affording great relief, but heals the membrane and leaves the patient in possession of healthy lung tissue.

Price, Fifty Cents per bottle, or six bottles, \$3.50. TRACHEON.

## PILES. Hemorrhoids. PILON.

PILON.

Many causes tend to produce this pain, ful and distressing state. The blood is retarded in its return; the too frequent use of drastic purgatives tends to produce congestion of the bowels, torpid action of the liver, and numerous other causes are the source of this complaint, and hitherto nothing effectual has been presented to the public, which would rapidly alleviate symptoms and ultimately prove an effective cure. In PILON we have a remedy which not only acts almost instantly, but will remove the largest tumors of the parts (Piles) by absorption, and many who have received not only benefit, but have been radically cured, have been assured (prior to using this treatment) by eminent surgeons that the only relief they ever could expect in life, would be by an operation, and removing it or them from the body by a procedure which necessitated the knife. This remedy has been hailed with delight, and is now prescribed by many practising physicians, who are cognizant of its merits, as the only known cure cure for PILES.

Price, Eifty Cents per package, or six for \$3.50.

THE ABOVE REMEDIES ARE thorough in the cradication of the different and various maladies denominated, and are the result of patient, searching, laborious, and scientific investigation, embracing a period of many years, in Europe and America.

If the specific directions are complied with, thousands of patients will bear witness to their relative merits, and corroborate every assertion. Where there are many complications of disease, and patients so desire, DR. CHANDLER will be pleased to give all information, and treat by letter if necessary.

Descriptive and Explanatory Circular of the above remedies sent on receipt of stamp. If the PEOPRIETARY MEDICINES are not on sale at your particular druggist's, send orders to

No. 649 Clay Street,

BETWEEN

Kearny and Montgomery Streets SAN FRANCISCO.

DR. DOHLRTY'S Largely and Steadily' lacreasing Practice, which has constantly kept pace with the unexampled increase and steady growth of the Pacific Coast, induced his removal from his long established and well-known quarters, on the corner of Sacramento and Leidesdorff streets, in this city, to more commodious and eligibly located apartments, at No. 649 Clay Street, where he has a spacious suite of handsomely fitted up and conveniently arranged Examination and Consultation Rooms, (occupying the whole of the two upper stories) which patients may at all times visit, and see only the Doctor and his assistants. sistanta.

With the most grateful sentiments of regard for the liberal patronage bestowed on him for the past thirteen years, at his old office, DR. DOHERTY

desires to inform the General Public, and especially all those laboring under all forms of Chronic Complaints, that he can be consulted at 648 Clay street, on every variety of Disease of the Lungs, Liver, Kidneys, Digestive and Genite-Urinary Organs, and all

SPECIAL DISEASES,
of which the list is numerous, and which are
more closely connected with the general health
than the majority of people are aware. Unhappy
invalids for years persist in concealing their condition from a motive originating in mistaken delicacy, and suffer in silence until their miseries become too acute to be repressed, and mental and
physical debility unfits the sufferer for active
duties of life. This latter type of affliction manifestsitself in the complaint professionally known as
Syphilis, in all its forms and stages; Seminal
Weakness, and all the distressing forms of SelfAbuse, or Onanism; Gonorrhæa, Gleet, Stricture;
Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation
of the Bladder and Kidneys, etc., etc. The number of persons suffering from these horrible Diseases, in whom the Doctor has effected a radical
cure, can be counted by the thousand, and the voluntary certificates in his possession, received from
persons he has restored to health are enough to satisfy all that the Doctor's skill in the treatment of
these affections, enables him to warrant speedy
cures, even in obstinate cases, and in every
instance give relief. Diseases which formerly
baffled the medical skill of the most learned and experienced Practitioners of the healing art, and were regarded by the mojerity of
Physicians as utterly incurable, now readily yield
to modern remedies, when prescribed by the intelligent Practitioner, who makes the human system, and these special ailments, his constant study
and subject of observation. SPECIAL DISEASES,

ligent Practitioner. who makes the human system, and these special allments, his constant study and subject of observation.

In no case is publicity permitted except at the express wish of the patient; and the Doctor confidently trusts that his long experience and successful practice will continue to insure him a liberal share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most successful remedies against diseases of all kinds.

He cures without mercury, charges mederate fees, treats his patients in a correct and honorable weracity, from men of known respectability and high standing in society. All parties who may consult him by letter or otherwise, will receive the best and gentlest treatment.

TO FEMALES.

When a female is afflicted with disease, as weak ness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, designement of digestive functions, general debility, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, she should go or write at once to Dn.
