Debts New and Old.

It is just and proper to protect the creditor class. But is it not equally just and proper to protect the debtor President Hayes does not think so. His political morality and view of public faith, as expressed in his veto of the Silver bill, do not take, coors. of the Silver bill, do not take coggi zance of the just interest of debtors. Only take legal precautions, he says, in effect, to secure the creditor class in their dishonest gains, by the sur reptitious demonetization of silver, and the Silver bill may become law with executive sanction. Not a word about the wholesale plunder of the taxpayers and the skinning of private debtors by the nefarious gold plot. For the taxpayers, who are of the debtor class, he has no sympathy. His bowels of compassion yearn over their despoilers-men who have Coast, crushed the country by heaping upon it unjust burdens, and who simulate virtue for the sake of covering their dishonest practices. We have no patience with the President on this matter. He has branded Congress and the vast majority of the nation as repudiators, and deserves to be held up to public censure for so do line. The first class tuner in their employ. All orders attended to by addressing Gardner Brothers, Salem, Oregon. ing. The facts are against the President. When silver was demonetized by a trick the silver dollar was at and Organs, if desired three per cent premiam in gold, and it had been at a premium generally from 1840 to 1873, when it was legislated out of existence. Was it not spolration and robbery, therefore, of the debtor class, public and private, their Branch House in Salem is a permanent institution.

Oct. 27tf to compel them to pay in gold alone, the value of which was artificially advanced by special lesislation.
What word of censure has President SPRING & SUMMER TRADE Hayes for this policy of contraction and legalizing fraud? Not a word. But he charges Congress and the nation with repuliating public and WE REG to inform our friends and the public tion with repuliating public and that we have just received direct from San private obligations because it is at Francisco and the Eastern markets private obligations because it is at Fre tempted in part to rectify this great wrong. The Silver bill does not go nearly far enough on the road towards national redress. It is a first step. As such we accept it. But much more remains to be done, and we look to Congress, in its present temper, to do it thoroughly and well .- S. F. Post.
