## CITY AND COUNTY.

### BRIEF MENTION.

Miller & Son commenced work on the McKenzie bridge at Spores' ferry last Monday.

Hunt has put up a new awning in front of his shoe shop this week, and it now looks decidedly neat.

B. C. Pennington's new market north of the Astor House is nearly finished and he will move in, in a few days.

The University Base Ball Club go down today to play the Albany club. We predict that Eugene will gather the laurels.

Preston says he can sell gloves, saddles, harness, whips and everything else in his line cheaper than any other establishment in town.

Parties going on the excursion on the 26th inst., will please put up their lunch in small boxes so that they can be packed in a box car.

Rev. J. T. Wolfe will preach in the M. E. Church to-morrow morning on the "Resurrection of Christ," and in the evening on "Honor to the name of God."

Mechanics have been at work this week fitting up the second room to the right of the hall over the Grange Store for an office.

As soon as finished Mr. Fitch will move his law office and the room where his office now is will be occupied by Drs. Cleaver & Henderson, dentists.

On the 31st of April, Mr. B. F. Dorris, assisted by members of the lodge of this place and Harrisburg, organized West Point Lodge No. 62, I. O. O. F., at Coburg in this county with six charter members and during the evening eight new members were initiated.

The following officers were elected: T. J. Vaughan, N. G.; James Armstrong, V. G.; Jasper Wilkins, Sec.; H. L. Thompson, Treas. After the organization the entire party were invited by the N. G. elect to his home, where a fine supper was prepared by Mrs. Vaughan which was fully appreciated by all her guests.

New Shop.—E. L. Espy has rented the lower story of Winter's building, under the photo gallery to be used as a paint shop for repainting old work, and sign painting.

ALIVE.—Boyd & Miller are determined to let the people know that they are alive and where they can be found. They have hung out one of the neatest signs in town this week.

O. & C. R. R. TIME TABLE.—Train south carrying freight and passengers, 2:02 P. M. Train going north, carrying freight and passengers, 9:41 A. M. L. G. ADAIR.

New Sign.—Humphrey, of the Dexter Stable, has hung out a new eighteen-foot sign this week that eclipses them all. If you want a nobby turnout there's the place to get it.

A RELIABLE PIANO TUNER.—Mr. Paul Schoen will be in Eugene in a few days and will attend to repairing and tuning Pianos or Organs. Leave orders at Crain Bros, or A. W. Stowell.

CHANGE.—Mr. Wm. Skelton, who has had the lease of the carding and spinning mill in this city for several years, has leased the hosiery factory at Jefferson, and will take possession in a few days.

FINE PICTURES.—Winter, the artist, laid on a table yesterday some of the finest specimens of the photographic art we have ever seen. These pictures were all enlarged from small copies, and for distinctness of outline and life-like feature, cannot be excelled on this coast.

STOLEN.—Last Saturday two Indians were lounging around Steinbeiser's grocery store, when a lady came in, and while Mr. S. was waiting upon her, the swishes stole two bottles of brandy off the counter and got away with them.

New Ad.—See the ad. of Hawley, Dodd & Co. elsewhere. They are the most extensive dealers in agricultural implements, machinery, etc., in the State, and their extensive business enables them to sell everything in that line cheaper than any other house engaged in the same line of trade.

DISMISSED.—The case against J. E. McCabe, indicted for man-slaughter for the killing of Monroe Zamwalt, was tried for the third time this week with the same result as upon the two former trials—the jury disagreed, standing eight for acquittal and four for conviction. The case was dismissed from the docket.

COMMENCED.—A blast was made at the iron foundry of Crouch & Brown last Thursday, and the proprietors are very much elated at the successful result of their first attempt. Every thing works to a charm, and they are now prepared to furnish castings and repair all kinds of farm implements and machinery in as good a manner and as cheap as any other foundry in the State.

COURT.—Lane County is certainly improving morally. The Circuit Court has been in town a few days. The docket was the lightest of any for twenty years and was cleared off for the first time during that time. There was not a single case coming before the Grand Jury. This is a creditable record for one of the largest and most populous counties in the State, and it is a well-earned credit.

PERSONAL.—The following named members of the legal fraternity have been in attendance upon the Circuit Court this week: Judge W. W. of Harrisburg, H. S. Hazard, District Attorney, of Empire City, R. S. Smith, J. K. Weatherford, of Albany, Judge Kistler, of Corvallis, and J. J. Walton, J. M. Thompson, R. S. Bean, C. W. Fitch, Robert Fagan, Horace Koon, and G. B. Dorris of this city.

### Meeting of the Board of Regents.

The Board met on the 15th inst., at 3 o'clock pursuant to an adjourned meeting, and there were present the following officers and members: Hon. Matthew P. Deady, President; Joshua J. Walton, Secretary; and T. G. Hendrick, B. F. Dorris, George Humphry, J. M. Thompson and Hon. R. S. Strahm—Absent: Hon. L. L. McArthur and Dr. S. Hamilton.

After reading the minutes of last session by the secretary, the Executive Committee made the following report:

To the Board of Regents of the University of Oregon:

Gentlemen:—We, your Committee, beg leave to make the following report:

1. We have ascertained that the parties owning the land South of the University building ask \$200 per acre for the same.

2. We have filed a petition with the County Court asking to have the streets and alleys vacated through the University grounds.

3. We have made inquiry about the costs of obtaining a supply of water from the springs on Mr. Dunn's farm near Spencer's Butte, and find that it will require at least \$4,000. The cost of supplying water by a ram from the mill race to be about \$400, and by wind pumps. It is believed that good water can be obtained from the old well of Hilyard Shaw, situated about one hundred yards North of the University building.

4. We have contracted with D. Cherry & Bro. for 60 seats for the chapel at a cost of 85 cents per foot.

5. We purchased 230 lbs. of corrugated rubber matting for the stairs at 35 cents per pound, making a cost of \$80; paid D. E. Fitch for putting down same, \$30; total, \$110. We also purchased 3 1/2 yards of best quality of Cocon matting wide, at a cost of \$2 per yard, amounting to \$7 1/2; paid Wm. Fraston for putting leather on same, 2 total, \$8 1/2.

6. We have estimated the cost of building privies and fence at \$500, and we had Mr. Bright, a practical painter, make an estimate of painting privies, fence, cornice of University building, key stones and window-sill, and he estimates the entire cost to be \$800.

7. We made inquiry of the Board of Education of the City of San Francisco, through the Chairman of our Committee, he having called in person on Capt. Phillips, Chairman of the Committee on schools, school houses and grounds; on Mr. Beaton, Secretary of the Board and Mr. Hexter, Chairman of the Board of Education. We learn from these gentlemen that they use stoves only in the schools of the city, the Lincoln school being the only exception—that in their opinion it was not best to adopt heated air as a means of warming, either as an economical or sanitary measure. The climate of the Pacific Coast being mild did not require as much heat to warm up the school rooms as in Atlantic States! That in our opinion the present means of heating the rooms is sufficient.

We have had a proposition from Messrs. Hexter & May to heat the building with hot air, for the sum of \$1,800. The proposition of Messrs. Hexter & May is submitted herewith.

We also herewith submit a report handed us by the Faculty asking an appropriation of \$5,000 for apparatus.

We have audited and allowed the following bills on the University building funds since our last report.

T. G. Hendricks, sundries as per bill, \$202.68; R. Hinton & Church, Sundries as per bill, \$2 75; Total \$205 43.

Respectfully submitted,  
T. G. HENDRICKS,  
B. F. DORRIS,  
J. M. THOMPSON,  
Ex. Committee

The Executive Committee were instructed to have a ram placed on the mill race near the University with pipes so to carry water to the tower of the building, to supply the University with water.

Also to paint all the wood work on the outside of the University building, key stones, and window sills, to complete the out houses and fence between the same.

The matter of purchasing apparatus for the University was taken under advisement until the next meeting of the Board to ascertain prices of the same.

Hon. M. E. P. Deady was requested to deliver the address to the graduating class in June, at commencement exercises.

### A CARD.

CORVALLIS, April 15, 1878.  
HON. J. F. MILLER, CHAIRMAN OF THE STATE CENTRAL COMMITTEE:  
DEAR SIR:—The Democratic State Convention, at its last session, nominated me for State Superintendent of Public Instruction. This was done without my consent or knowledge. No intimation of it ever reached my ears until the nomination was made and the Convention had adjourned. I appreciate the honor bestowed upon me by that representative body; but as being a minister of the Gospel, as well as a being a member of the State, I have been nominated to keep aloof from all political entanglements; and although the office to which I have been nominated is not strictly a political one, yet it can only be reached by passing through political channels. I therefore most respectfully decline the nomination.  
Your obedient servant,  
JOSEPH ESTER.

ARATE IT.—We have heard a great deal of complaint of late from persons living near the mill race about some persons throwing dead dogs, cats and other garbage and filth into the race. A few Sundays ago the congregation of the Baptist Church repaired to the usual place to perform the rite of baptism, when a dead dog, anchored with rope and stone, was found floating right in the way. This has become an intolerable nuisance and the city authorities should take measures to abate it.

ACCIDENT.—Last Tuesday Mr. E. W. Rhea and a hired man started out of town with a four horse team, and while crossing a bridge over the University a hog ran out from under the bridge frightening the leaders, and before the driver could check them, they turned around and broke the wagon tongue. Mr. R. jumped off the wagon to get hold of the team, when his foot caught upon some obstruction throwing him to the ground and cutting and ugly gash upon his forehead.

I. O. O. F. EXCURSION.—The Odd Fellows from Albany, Harrisburg, Junction and Eugene have chartered a train for the excursion on their anniversary on the 20th inst. They leave Albany about 6 o'clock in the morning, arriving at Roseburg at 11, remaining there some three hours and return to Albany. We are informed that tickets for 20 cars have already been sold, and hundreds of people want to go but cannot find room. The excursion bids fair to be a very pleasant affair if the weather is good.

That Terrible Scourge.  
Fever and ague, and its congeners, bilious remittent, besides affections of the stomach, liver and bowels, produced by miasmatic air and the use of Hostetter's Stomach Bitters, a purely vegetable elixir, endorsed by physicians, and more extensively used as a remedy for the above class of disorders, as well as for many others, than any medicine of the age. A hind-gut circulation, a torpid state of the liver, a want of vital stamina, are conditions peculiarly favorable to malarial diseases. They are, however, surely remedied by the great Preventive, which, by invigorating the system and endowing it with regularity as well as vigor, provides it with resistant power which enables it to withstand disorders not only of a malarial type, but a host of others to which feeble and ill regulated systems are subject. The Bitters are a safe as well as searching eradicator, and have widely superseded that dangerous drug, quinine, which palliates but does not eradicate malaria.

A Remarkable Result.  
It makes no difference how many Physicians, or how much medicine you have tried, it is not an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Disease. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boecher's German Syrup. To such we would say that 50,000 doses were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America.

Nasal Catarrh and Lung and Bronchial affections, and all diseases arising from an impure state of the blood, positively cured. Dr. Souville Mathieu, the eminent French physician and surgeon, and inventor of the Paris Spirometer which has given relief to thousands suffering from those terrible diseases in Europe and the United States. This wonderful instrument was invented by Dr. Souville Mathieu, for the treatment of Nasal Catarrh, Lung and Bronchial affections.

WILL CURE CONSUMPTION.  
To all suffering from the following diseases a ray of hope is offered through the kindness of a missionary friend who has sent me the formula of a purely vegetable medicine which has long been used by the native medicine men of Hindostan—for the positive and radical cure of Consumption, Bronchitis, Asthma, Catarrh, Dyspepsia, Throat and Lung difficulty, General Debility, Loss of Manhood and all Nervous Affections, its power has been tested in hundreds of cases without a failure. I now feel it my sacred duty as far as possible to relieve human misery and will send the recipe—FREE OF CHARGE—to any person who may desire it with directions for using. Sent by return mail by addressing with 2 stamps naming this paper, Dr. O. R. Brigham, Drawer 28, Utica, N. Y. September 26, 77—57.

VARIOUS CAUSES.—Advancing years, care, sickness, disappointment and hereditary predisposition—all operate to turn the hair gray, and either of them line it to shed prematurely. AYER'S Hair Vigor will restore faded or gray hair and red hair to a rich brown or deep black as may be desired. It softens and cleanses the scalp, giving it a healthy action, and removes and cures dandruff and humors. By its falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brassy, weak, or sickly hair, to which a few applications will produce the glow and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous. For sale by all dealers.

A FREE CURE.  
For consumption, bronchitis, asthma, catarrh, throat and lung disease. Also a sure relief and permanent cure for general debility, dyspepsia and all nervous affections, by a simple vegetable medicine which cured a venerable missionary Physician who was long a resident of Syria and the East, and who has freely given this valuable specific to thousands of kindred sufferers with the greatest possible benefit, and now he feels this wonderful invigorator; remedy, and will send FREE the original receipt complete, with full directions, to any person enclosing stamp for reply.
