Investigations of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law vouchsafes thift and perpetuity. Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article. By reason of superior merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

Mr. EDITOR:—Having read in your paper reports of the remarkable cures of catarrh, I am induced to tell "what I know about catarrh," and I fancy the "snuff" and "inhalling tube" makers (mere dollar grabbers) would be glad if they could emblacon a similar cure in the papers. For 26 years I suffered with catarrh. The nasal pasages became completely closed. "Snuff," "dust," "ashes," "inhalling-tubes," and "sticks," wouldn't work though at intervals I would snift up the so-called catarrh snuff until I became a valuable tester for such medicines. I gradually grew worse, and no one can cines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was.
