There have been more negroes hung, says the N. Y. Day Book, within the past year than there was in the whole century since the declaration of Amer ican Independence! What an astounding fact-a fact that any one may verify if they have any conscience or are sensible to the "deep damnation of their taking off." Nor is there, or should there be any mystery about it. Though human, or course, they are widely different human beings from ourselves, and while in their own centre of life, where the Creator placed them and adapted them, they live and multiply their kind. And when in juxtaposition with us, rules are applied to them in accord with their nature and wants they also live and multiply and fulfill a vast and beneficient purpose in the civilization of modern times. But thrust from their natural orbit into ours, and rules applied to them in deadly conflict with their pature and wants, they therefore, rapidly perish, "like the Indian." It is as inhunan and motstrous to force them into so called "freedom," or what is in fact freedom with us to force children into the condition of adults and rote of citizenship. Most people have a notion that they must "die out," for it is a fact familiar to everybody's experience; but think of the punishment in store for the authors of such a transcedent crime!

DECIDEDLY RICH.—The Standard publishes the following letter which deserves to go the rounds of the press for the originality of its orthography, punctuation, etc : "The best way fur californy to git read of thear girls is for them to cum to oregon and fur thear Mothers to stand ind the doore and watch for oregoning boys to cum A long the road and flirt thear handkerchief at them and when the young men cum to the hous she Must com mence develing the girl A bout a rich man ind californy and tell the young Menthat she wants hear girl to Marry A rich man and that A rich man are siting to hear and that she can git him in A short time A young green horn will cum A long and the girl will qookett him and make him be leive that she can get the rich man in californy but she dont think A Nuf of him to marry him but she will qookett him tell she git him and then she is all rite and in this way they can get read of all the worthless girls in californy."

Somebody ought to publish a house hold tract, and advise people to kindle their fires with gunpowder, instead of kerosene. It would be vastly safer indeed, for the gunpowder only explodes, and then it is done with it, and if it blows out the windows and doors, or takes off a leg or an arm, or puts out an eye, that is all there is of it, and people know what to expect. But the kerosene not only explodes, but takes fire, and its burning vaper is pretty sure death to the woman who In fact, we have the best assortment of article found in tries this sort of kindling. It is an casy or the oil-can right over the coals to make a blaze when the fire is slow, but the hospital ambulance and the Stock of coroner's inquest are pretty sure to follow. The most sickening of all horrors, being burned alive, is the natural outcome of this hurrying up of slow fires by the quick kindling of kerosene, but every woman who tries it ought to know that she would be a good deal safer in the front of a battle than behind the kerosene can in such an experiment - Philadelphia Ledger.

A CHANGE DEMANDED.—The Stockton Independent, in an article on "A change in our Indian policy needed," has the following sensible remarks: "We think that the management of Indian affairs should be wholly entrusted to the military department. The system of keeping accounts in the Saddle & Harness Shop army is so rigidly strict that an officer could not possibly pursue the thieving ONE DOOR NORTH OF system practiced by many of the pres ent agents with impunity. In cases of difficulties with the Indians the military arm of the government is brought into play to effect settlements and re-store peace, and it would seem to be better that the whole thing should be entrusted to the military in the first place. Had the business devolving upon the agencies been all along conupon the agencies been all along con-ducted by honorable soldiers instead attention is called to of thieving civilans, we would have had fewer Indian depredations and a stronger feeling of security among settlers in the trontiers."

A granger stood curiously watching the pea nut man as he methodic-ally turned the crank of his roaster. After expectantly waiting until pa-tience ceased to be a virtue, the unso-phisticated tiller of the soil blurted out: "Hullo! you feller why don't you play suthin?"

TRIED.

People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the

MEXICAN

Mustang Liniment,

FOR MAN AND BEAST.

This liniment very naturally originated in America, where Katurs provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 25 years, until now it enetroles the habitable globe.

The Mexican Mustang Liniment is a matchless

remedy for all external alliments of man and beast.
To stock owners and farmers it is invaluable.
A single bottle often saves a human life or restores the usefulness of an excellent horse, ox,

cow, or sheep.

It cures foot-rot, hoof-ail, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life.

It cares every external trouble of horses, such as lameness, terratches, twinny, sprains, founder,

as lameness, scratches, swinny sprains, founder, wind gall, ring-bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure. Particularly valuable to Miners.

It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately much the cheapest. Bold everywhere,

NATURAL SELECTION.

Investigations of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law vouchsafes thift and perpetuity. Does not the same principle govern the commercial prosperity of man? An inferior cannot superssede a superior article. By reason of superior merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

Osea. AN OPEN LETTER. It Speaks For Itself.

AMES, TURER OF TIRON WARE, It Speaks For Itself.
ROCKPORT, MASS., April 2, 1877.
Mr. EDITOR:—Having read in your paper reports of the remarkable curses of extarrh, I am induced to tell "what I know about catarrh," and I fancy the "sauff" and "inhailing-tube" makers (mere dollar grabbers) would be glad if they could emblazon a similar cure in the papers. For 26 years I suffered with catarrh. The masal passages became completely closed. "Snuff," "dust," "sakes," "inhailing-tubes," and "sticks," wouldn't work though at intervals I would snif up the so-called catarrh snuff until I became a valuable tester for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 168 hours. All sense of smell and taste gone, sight and hearing impaired, body shrunken and weak ened, nervous system shattered, and constitution broken, and I was hawking and spitting seven-eights of my time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to parchase a package, and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hidrostatic pressure, the only way compatible with common sense. Well Mr. Editor, it did not cure me in three fouths of a second, nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Glokien Medical Discovery to purify my blood and strengthen my stemach. I also kept liver active and bowels regular by the use of his Pleasant Purgative Pellets. If my experience will induce other sufferers to seek the same raugas of relief, this letter will have answered its purpose.

curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of Golden Mecical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dinziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or "Billiousness." In many cases of "Liver Complaint," only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it affects perfect cures, leaving the liver strengthened and healthy.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billous Fever, &c., and indeed all the arbetions which arise from malari-cus, marsh, or miasmatic poisons.

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest cases of Chills and Fever and the concomitant disorders. Such a remedy the necessities of the people in malarious districts demand. Its great superiority over any other medicine yet discovered for the cure of Intermittents is, that it contains no gr nine or mineral, and those who take it are free from danger of quinism or any injurious effects, and are as healthy after using it as before. It har been extensively employed during the last thirty years in the treatment of these distressing disorders, and so unvarying has been its succes that It has gained the reputation of being infal It can, therefore, be safely rec

as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasmatic poison in the blood, and frees the system from its influ once, so that fever and ague, shakes or chills, once broken up by it, do not return until the discuse is again contracted.

The great variety of disorders which arise from the irritation of this poison, such as Neuralgia, Rheumatism, Good, Hendache, Blindness, Toothache, Larache, Catarrh, Asthma, Pal-pitation, Spienic Affections, Hysterles, Pain in the Bowels, Colle, Paralysis, and decange of the Stomach, all of which become intermittent or periodical, have no speedier remedy than Aven's Agus Cons. which cures them all alike, and protects the system from future attacks. A a preventive, it is of immease service in those communities where Fever and Agne prevails, a a stays the development of the disease if taker while first approach of the premionitors symp-oms. Travellers and temporary resident-are

will ever other if they small themselves of the protection this remedy affects. For Liver Complaints, arising from torpidity into healthy neticity, and produces many remark able cures where other medicines fall.
