These great pain relieving and curative remedies have a ready worked their way into every handst where the English language is spoken. That the repetation of and demand for such remedies as these are should extend and increase, could not be otherwise. There is no pain, soreness or swelling which they will not alleviate. There are but exceptional cases of constitutional hum as and distorted joints, which they do not cure, and none they will not benefit. They are soothing, absorbing and emollient. They are soothing absorbing and emollient. They are soothing absorbing and heal burns and scalds without scars. For themmatic affections, pains in the back, stiff joints, womes, strains and cruptions, they act with absolute certainty. These preparations are of two kinds, the Family and the Animal Liniment. Being universally adapted to the external climents of man and beast, the name of the Half Horse and Half-Man Centsurs was naturally attached to them. They perform cures never before effected by any remedy. Undoubtedly more of shein are sold than of adjother liniments, ointmente, oils, embrocations, plasters and so called pain-killers confains.
