Intemperance of Novel Kinds.

A recent address of Governor Gar-celon before the Maine Temperance Convention calls attention to various kinds of intemperance which have edges of Washington county wheatgenerally escaped attention. He fields. creasing evil, especially among the young. In addition to chewing and smoking, he says snuff dipping is be-coming almost universal. The use of opium has also increased to an alarming extent. Many a man, be says, has appeared upon the stage ad vocating temperance who had in his the west of Forest Grove burned con pocket a bottle of laudanum or black siderable cord wood and fencing. drops. The lady, too, carries c'iloroform and ether to moisten her handkercheif, with which to allay nervous excitement. There can be no ques tion that opium eating has increased to a fearful extent. Not long since from Staunten, Va., a conference of druggists reported that the ratio of na Bay last week, but floated off withincrease of sales in 1877 over 1876 out damage at high tide. was 92 per cent, and 1876 over the preceeding year 64 per cent, and in 1875 over the preceeding year 50 per cent. That was another section of the country, and was thought to be peculiarly characteristic of the Shen andoah valley. But we will venture the assertion that the precentage of increase in Maine has been quite as large, and that the sales of druggists since the prohibitory legislation has been in vogue will so show. It such is the fact, the change from the use of intoxicating liquors to opium is far from being an improvement.

Worm in the Wheat.

On Wednesday last a farmer came anto L. Kline's store and said that he was sure there were worms in the wheat. He opened a stalk at the joint in our presence and we took it to Messrs. Burkhart & Chapman's and examined it with a magnifying glas, and found it to be a vertiable worm "alive and kicking." The glass will perhaps magnify about 30 diameters, and the worm was as large, in that view, as a butter bean. It can hardly be seen in the straws, but if any ene will take the pains to open a stalk at a point, and look closely, the worm will be found—especially on the late sown Chili Club wheat. on the late sown Chili Club wheat. The worm is white, or a light green color, and is almost the shape of a tobacco worm.

It might be well for our farmers to look into this matter and see if that is a parasite which would make the same deadly blast that the rust would packages cures the eldest and worst cases we bring.-Albany Democrat.

Catarrh is the most prevalent of any known disease. It is insidious and generally pronounced to be incurable. Swallowing, while asleep, the vicid secretions of catarrhal colds, poisons the lungs and from thence undermines of. The discovery of a real cure for Catarrh and Hay Fever by Dr. Wei De Meyer of New York, is second in importance only to the discovery of a preventitive of small pox. The facts and proofs of the work being done by Wei De Meyer's Catarrh Cure are set forth in a pamphlet, which is forwarded gratis to any address. The testimonials therein contained are unquestionably the most remarkable upon medical record. Cases of five, ten and twenty

TRIED. TRUE

People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the

MEXICAN

Mustang Liniment,

FOR MAN AND BEAST.

This liniment very naturally originated in Ameri-ca, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 25 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless

remedy for all external allments of man and beast.

To stock owners and farmers it is invaluable. A single bottle often saves a human life or re-stores the usefulness of an excellent horse, ox,

cow, or sheep.

It cures foot-rot, hoof-ail, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life.

It cures every external trouble of horses, such

as lameness, scratches, swinny, sprains, founder, wind-gall, ring-bone, etc., etc. The Mexican Mustang Lininent is the quickest cure in the world for accidents occurring in the eure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheuma-tism, and stiffness engendered by exposure. Par-ticularly valuable to Miners.

It is the cheapest remedy in the world, for it penetrates the muscle to the benc, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportion-ately much the cheapest. Sold everywhere.

Dr. Pierce's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases inclient to the organism of woman, singled it out as the climax or erowsing gem of my medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physicion; and so confident am I that it will not disappoint the most sangulae expectations of a single invalid lady who uses it for any of the altments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. (For conditions, see pampilies wrapping bottle).

The following are among those diseases in which my Favorite Prescription has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorthora, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and letroversion, Bearing-down, Senantons, Internal Heat, Nervous Depression, Debility, Despondency, Haramened Miscarriage, Chronic Congestion, Infammation and Uterralic of the Uterus, Inopotency, Barrenness, or Sterlity, and Female Weakness. I do not extol this medicine as a "cure-sal," but it admirably fulfills a singlescen of purpose, being a most perfect specific in all chronic diseases peculiar to Female, and with a diseases peculiar to Female, and gives much valuable advice in regard to the management of those affections.
