Gen. Key Decides Against the Lottery

Upon the representations of numerous affidavits of special agents of the post-office department, Postmaster General Key has arrived at the conclusion that all lottery companies and lottery agents are doing fraudulent business within the purview of his statutory powers, concerning schemes to defraud the public. He has therefore to-day commenced the issuance of special orders to postmasters at specified cities, directed by name against all persons known to be concerned in lottery business, forbidding postmasters to pay any postal money order, to deliver any registered letter addressed to persons thus named. The money orders and registered letters are to be returned to the senders and the letters are to be stamped with the word "Fraudulent."

Partisan Knavery in Maine.

Agusta, Nov. 14.—The rumors in regard to the governor and council intending to count out the republican majority in the legislature are exciting general attention. They come from sources that entitle them to belief. Messrs. Baker & Baker have filed a notice with the governor to-day to cases in Washington county. It is reported that no hearing will be allowed in disputed cases, but that certificates will be issued Monday, as has already been difficulties, as the Indians were afraid of the soldiers. The Ute . Commission.

Los Pinos Agency, Nov. 14.—Ouray carried his point at the Indian council on the night of the 12th inst., and the principal chiefs of the White River Utes, except Jack, were present at the agency yesterday, ready to give testimony when before the commission are sworn in by Chief Ouray according to the custom of the Ute nation. Douglas was the first witness called. At the order of Ouray he arose from his seat, and standing erect with arm raised, administered the oath to himself as follows: "By the Heaven above, by the earth that will receive me, by the Great Spirit that looks down upon me, I dare not speak anything but the truth." This was said with much force and with an appropriate gesture. The oath like all the Indian testimony, was translated into Spanish by Ouray and then in to English by the interpreter, Townsend. At first he was nervous and very pale but towards the close of his testimony had regained his wonted composure. He saw nothing, heard nothing, and took no part in the killing of Meeker and the employes and the fight with Thornburg. He found also Mrs. Meeker running around loose, and took her to his house and took care of her. His time was so much occupied with the care of his wounded boy that he did not know what was going on. At the time the killing of employes commenced he was in a warehouse, and does not know who began the attack. He says that his feelings overcame him, and it made him cry to think into what a condition his friends had fallen. Meeker told him that in two days soldiers would be heard in the disputed cases in Frank-lin, Lincoln and Penobscot counties, and to have officers come to the agency and H. M. Heath did likewise in regard to have a council, and try to settle existing the soldiers. Meeker promised to go with fight with Thornburg was going on, though neither Donglas nor Meeker knew

hand instantly. Secretary Schurz and General Sherman are to be congratulated on their selection of members of the commission. Three more competent men could not be found to perform the important duties assigned

LATER-Johnson has been on the stand all the forenoon, but knows even less than Douglas. To the question, "Do you know whether there has been any fight at White River?" he answered "No." None of his relatives were in the fight, so far as known, and he could not give the name of a single Indian engaged in the Meeker and Thornburg affairs.

## PACIFIC COAST.

Storm in San Francisco Harbor.

San Francisco, Nov. 10.-The storm of yesterday morning was productive of con-siderable minor damage among the ship-ping in the harbor. Several small crafts in Mission bay were driven ashore or sunk. The steamer Idaho dragged her anchors and went ashore at Potrero. The ships James Chester and Edderside come into collision and both were considerably damaged. Ferry steamers had very rough passages, and creek boats were drawn off.

Oakland Marsh Lands

The Central Pacific Railroad Compa to-day commenced suit in the third dis-trict court against the city of Oakland to quiet title to about 500 acres of land lying along the water front of that city and on the south side of San Antonio creek. This course has been made necessary by the recent agitation of the water front question in Oakland and a squatters' war which had been in progress on the marsh land. The land in question is worth about

half a million dollars.

Another Evasion.

The new constitution provides that the directors or trustees of corporations and joint stock associations shall be jointly and severally liable to creditors and stock holders for all moneys embezzled or misappropriated by the officers of such corporation or joint stock association during the term of office of such directors or crustees. To tevade this provision an agreement is being signed by the stock-holders of one of the largest banks in the city waiving such liability on the part of the directors, unless such embezzlement or misappropriation shall be the result of co-operation, collusion or negligence of such director or directors as may be sought to be made liable for such embezzlement or misappropriation. Other banks are about to pursue the same course.

Brooks, in the district court, at once demanded a new trial, and the prosecution through the acting district attorney, acknowledged that they had not legal evidence to convict, and asked that the prisoner be discharged from indictment. The court made the order and the late prisoner departed for his home, where he was arrested in April,

O'Brien's Estate. The distribution of the estate of W. S. O'Brien, deceased, amounting to \$9,000, 000, which was to have taken place Aug. 29th, last, has by the decision of the probate court, rendered yesterday, been indefinitely postponed, the estate being defendant in four of the suits brought by John H. Burke against J. C. Flood and others amounting to \$38,944,000. Burke filed opposition to the distribution, together with copies of complaints in all the actions pending and was demurred to by the executors and legatees of the estate. Judge Myrick, of the probate court, in overruling the demurrer says that sufficient appears in opposition to show that a partial distribution should not be made until the controversy as to the rights of Burke is disposed of.

Charles DeYoung in Court. In the municipal criminal court to-day argument was entered upon in regard to the validity of indictments found by the last grand jury. Charles DeYoung was called upon to plead to the indictments found against him for assault to murder . S. Kalloch, Mr. Campbell who was with Messrs. Cohen and Lloyd, appeared for defendant, moved that the indictment be set aside on the following grounds: That certain grand jurors who were not qualified to act in the case, were present when the DeYoung indictment was acted upon; that after the death of Mr. Cunningham there were only eighteen grand jurors, and that number did not make a grand jury; that Mr. Burton had no auhority to act as foreman of the grand jury; that Juror Eggers only heard part of the evidence in DeYoung's case, and that really only twelve found the indicament against DeYoung. The first ground was disproved by the testimony of H. F. Williams, one of the grand jury. The last one, admitted by the district attorney regarding Juror Eggers' testimony, was ruled out, and counsel proceeded to argue the question of there being only eighteen on the jury after the death of Conningham.

San Jose, Nov. 10 .- This afternoon Jose Roderiguez, an ex-convict and desperado, well known to the officers of this city was shot by Joseph Felez in front of Minch saloon in Mayfield, the latter using a shotgun loaded with buckshot. He died soon afterward. The trouble arose from the refusal of Feliz to furnish

left here three weeks ago for the newly discovered Skagit gold mines. Being an expert in this line his return has been awaited with great interest by many indisposed to accept his report on the mines as conclusive. Mr. Thibert arrived here this morning, and was interviewed by your correspondent. He states that his party were engaged six days in poling up thous the Skagit river from Mount Vernon to the head of canoe navigation; from thence two and a half days making the trip overland to the diggings, packing from 75 to 100 pounds to the man over a very difficult foot trail, though not so bad as had been represented. At the time eft but little work was being done, claim holders generally waiting for the water to go down. On Butceer claim is being constructed a wing dam for the purpose of draining the creek bed. The Borer claim has been worked down to bedrock, and found rich. Mr. Thibert prospected eight pans on top gravel, from which he obtained thirty-three cents. This, he states, is much richer than any top gravel found even in Cassair. He also prospected five pans on rim rock from which he obtained ten cents. Other parties are making \$5 per day, panning top gravel. Most of the claims will be very hard to open, bedrock in many places being 12 to 20 feet below the surface. Claims are being located very fast. On claims al-ready open, work will be continued till the first of December or later. As a general thing however, operations will be suspended all spring. On the night of the 1st inst., ice formed to the thickness of three inches in the mines. Mr. Thibert predicts that there will be from 1500 to 2000 persons in the mines next season. The rush will commence about the first of March. A pack trail by the present route, which is generally needed, he says will cost a large sum. A good trail, however, can be opened over the same route for \$1000.

An Alegorical Expression.

The workingmen held another anti Judge Wright decision meeting evening at the corner of Fifteenth street and Potrero avenue, at which Kearney announced that on the 1st of December he proposed to wade knee deep in blood and perish in the pool in an attempt to seat the workingmen's candidates. There s a deep seated impression that Kearney's threats are alegorical in their nature, as he testified on a previous occasion when placed on trial for incendiary utterances.

Murder Will Out.

San Francisco, Nov. 14 .- An action was recently begun in the 23d district court by Tax Collector elect Tillson to oust William Ford from the office on the ground that he, Tillson, had been elected to fill the unexpired term caused by the death of William Mitchell. On Tuesday Judge Thornton issued an order that relator Tillson recover possession of the tax collector's office of San Francisco and judgment of "ouster" entered against Wm. Ford. The case was promptly carried on appeal to the supreme court which, according to a dispatch received this morning from Sacramento, affirmed the judgment of the 23d district court and a remitter was ordered to issue forthwith. This pecision of the supreme court settles the question of the short term of three contested offices, namely, supervisor for third ward, tax collector and auditor; and those who have been holding these offices will now be compelled to vacate. News of the decision of the supreme court in favor of the tax collector elect, Tillson, created considerable comment at the City Hall. It was a topic of conversation among office holders and those who loiter around the building. Wm. Ford, present incumbent of the tax collector's office, took the decision good naturedly, saving, that there was nothing to do but obey the order of the court Mr. Ford will not take any proceedings under the salary pledge contest. He says he will turn over the books and papers of the tax collector's office to his successor as soon as the order of the court is reesived. Mayor Bryant takes the view that the decision of the court also covers the auditorship, and supervisorship of the third ward. These offices are held respectively by Colin M. Boyd and Thos. A. FOREIGN.

How the Press of Russia is Trammeled. BERLIN, Nov. 11 .- The editors of all the principal newspapers in St. Petersburg have recently been summoned to a press bureau of the ministry of the interior and instructed with reference to the conduct of their respective papers. They were informed that frequent complaints had been received from Lividia that articles in the St. Petersburg press interfered with the imperial policy, and therefore they must not continue in the same strain. Neither Germany nor Austro-Hungary, nor the relations of Russia with either of these two powers, nor France must be discussed. England may be discussed, but judiclously. Mark Twain in Politics

The largest political meeting of the campaign was held in this city by the Republicans last evening. The Opera House was densely packed to hear General Joseph R. Hawley, of Connecticut. General Hawley was introduced by Mark Twain (Samuel L. Clemens) who said: "I see I am advertised to introduce the speaker of the evening, General Hawley, of Connecticut, and I see the report that I am to make a political speach. Now, I must say that this is an error. I wasn't constructed to make stump speeches, and on that head (politics) I have only this to say: First, see that you vote. Second, see that your neighbor votes Lastly, see that yourself and neighbor don't scratch the ticket. General Hawley was President of the Centennial Commission. He was a gallant soldier in the war. He has been Governor of Connecticut, member of Congress, and was President of the Convention that nominated Abraham Lincoln. General Hawley - That nominated

know better. He was a member of my church at Hartford, and the author of Beautiful Snow." May be he will deny that. But I am only here to give him a character from his last place. As a pure citizen, I respect him; as a personal friend of years, I have the warmest regard for him; as a neighbor whose vegetable garden adjoins mine, why why, I watch him. That's nothing; we all do that with any neighbor. General Hawley keeps his promises, not only in private but in public. He is an editor who believes what he writes in his own paper. As the author of "Beautiful Snow has added a new pang to winter. He is broad-souled, generous, noble, liberal, easy feeling is generating. The Golos alive to his moral and religious responsi-says: That in the event of England at-bilities. Whenever the contribution box was passed I never knew him to take out a cent. He is a square, true, honest man in politics, and I must say he occupies a mighty handsome position. He has never shrinked a duty or backed down from any position in public life. He has been right every time, and stood there. As Governor, as Congressman, as a soldier, as the head of the Centennial Commission, which increased our trade in every port and pushed American production into all the known world, he has conferred honor and credit upon the the United States. He is an American of Americans. Would we had more such men! So broad, so bountiful in his character that he never turned a tramp empty handed from his door, but always gave him a letter of introduction to me. His public trusts have been many, and never in the slightest did he prove unfaithful. Pure, honest, incorruptible, that is Joe Hawley. Such a man in politics is like a bottle of perfumery in a glue factory-if may modify the stench if it doesn't destroy it, And now, in speaking thus highly of the speaker of the evening, I haven't said any more of him than I have of myself. Ladies and gen-

tlemen, this is General Hawley. Mr. Clemens was frequently interrupted by applause and laughter. At the close of his remarks, General Hawley stepped forward, and, for an hour and a half, spoke on the issues of the day. - Elmira Republican.

GENEROUS FEEDING PAYS.—Creamery

butter has gone to 30 cents per pound. Cheese has jumped to 101/2 cents per pound. The reason undoubtedly is the continued draught, which has kept pastures as bare and sere almost as in winter. Good dairymen commenced feeding in season, and thus kept their their stock up to a tolerable flow of milk, what was lost in quantity being made up quality. That is, the grain fed made the last till this time next year, but in all milk rich in the constituents that go to probability it was very near its end, and to make up butter and cheese. Those who have neglected to feed will suffer. for, once a cow shrinks in her milk from lack of feed and water, it is impossible thereafter to bring her back to a full flow. Those who have suffered most are those who do not believe there is any good in agricultural papers, and those who read them superficially. The good dairyman never allows his stock to suffer even during the summer for want of food. The stock-breeder who keeps pace with improved agriculture never allows his stock to cease growing from the time it is fit for market until ready for the butcher. The progressive farmer never loses a crop for want of feeding to the soil. How to do all these in the most economical manner is the problem that each must solve for himself according to the special requirements in the case. There is one point in dairy-farming not generally considered, and that is that the farm should be getting richer every year. The products are hay, grass and corn, fed on the farm, and the products sold are simply the condensed product in the shape of butter and cheese, and the hogs fed upon the buttermilk and whey while the manure made may be applied to the land to keep up its fertility. Thus when necessity requires, maximum crops of grain may be raised at a maximum Thus, although the dairyman may think he is getting light profits (and that they have been light for the last last two years is acknowledged) everything now points to good prices the coming winter. It is true, only those will reap the benefit of this who keep well posted as to the ways and means, through the reading of carefully edited agricultural papers, and their own correct judgment founded thereon. It must, of course, be satisfactory to those who have not done this that have nobody to blame

A THREE-YEAR OLD BOY DRINES CAR-BOLIC ACID AND DIES, -A distressing case of accidental poisoning by swallowing carbolic acid, the victim being the threeyear old son of W. H. Heisler, Cashier of the Seventh National Bank, was reported to the Coroner yesterday. During the summer, while Mr. Heisler's family were away, carbolic acid in various vessels was distributed through the house to prevent the ravages of moths in the carpets, furniture coverings and winter garments. The cupful which the child partook of was under a sofa in the parlor, and had been overlooked by the family on their return from the country. On Saturday the little fellow crept under the sofa and drank some of the burning acid. He sprang out and fell into convulsions, and the sickening odor of the disinfectant told the story. Physicians were sent for, who administered antidotes, without avail, and the child died on

but themselves.
