Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billous Fever, and all malarial disorders. In missonate districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptoms which terminate in the ague paroxysm, succeeded by high fever and promes perspiration. by high fever and promes perspiration.

It is a startling fact, that quinine, arsenic, and other petsonous uninerals form the basis of most of the "Fever and Ague Prepara-tions," "Specifics," "Syrups," and "Ton-jes," in the market. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not core, but leave the malarial and their own drug poison in the system, producing quinism, disziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. Ayra's Agen Cems theroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its cer-tainty to cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, Aven's Ague Cune, by direct action on the liver and bil-lary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition.

We warrant it when taken according to
