From Long Tom.

LONG TOM, Jan. 13, 1880.

EDITOR GUARD:—During the late rains the streams have been unusually high. The waters of the Long Tom and Coyote, were higher than they have been since the flood of 1861. The streams spread to the foothills, and nearly all the bridges were swept away. About 250 yards of the Ellmaker bridge was swept off, cutting off communication, by wagon, with Eugene for the Winter.

By the wind storm of Jan. 10, many miles of fencing were thrown to the ground, and the stock passed from farm to farm at leisure.

Hay, oats and tobacco are in demand on the American Bottom. REGULAR.

RETURNED.—Part of the Perkins' surveying party, consisting of Messrs. H. C. Perkins, J. B. Alexander and Frank Alexander, have returned. They report having a rough time working through rain and snow. They left W. Alexander and Mr. Renfrew, at Portland, who will bring up the stock.

Irving Items.

A correspondent at Irving, under the date of Jan. 15th, sends us the following items:

Snow almost gone; farmers glad. Our blacksmith, who has been sick, is again able to resume work, and the farmers are happy.

We have had no school since the holidays. Our teacher left, and has not yet returned. Does any one know what has become of him?

The Grand Prairie Taxpayers Club is agitating the question of the free school system. They are in favor of making every district self supporting, allowing them to levy a tax sufficient to sustain a three, six or nine months school. We expect at the coming election to vote for men of that kind. Further we say that no property shall be exempt from taxation, and no indebtedness taken out.

Irving precinct has been in need of a Justice of the Peace, and made an application to the court to have one appointed, but the court says it will be too expensive to the county. We intend to make up a pony purse to pay for the appointment of a Justice, if the county cannot afford to pay for it, after our paying in a goodly portion of the revenue of the county. We will give them to understand that we are not yet bankrupt. A Justice we will have. The commissioners need not expect to retain their offices if they treat this precinct that way. Look out for the next election. SUBSCRIBER.

STATE UNIVERSITY.

A column devoted to the interests of the Laurean and Eutaxian Literary Societies, and the State University.

W. C. TAYLOR, EDITOR.

Eutaxian.

The Eutaxian Literary Society was organized the first of the school year 1876. Although there were few to take the responsibility of organizing and sustaining a literary society that should be both a source of pleasure and profit to the young ladies attending the State University, through all the years to come, yet these few, feeling the need of such a society, determined to put forth their energy in its organization and maintenance.

While it was appropriate that the brother society (Laurean), should go out into the world's wide battlefield and in the sight of the public, gain brilliant victories and wear the laurels, the young ladies, realizing that their work and influence would be more quiet, yet as important, chose for themselves the name Eutaxian, meaning well sustained. It has reference more to an unassuming, quiet influence in aiding and sustaining the cause of higher improvement. The name at once becomes liable to ridicule, and is an accusing witness, if the society is neglected by its members; but, happily, such has never been the disposition of the Eutaxians. Although sometimes few in number, it has been well sustained by some members who were firm in its support. Now there is a lively interest taken, both in the rhetorical and debate. One meeting is devoted to readings, recitations, essays, and to becoming familiar with the lives and writings of prominent authors, the next meeting to developing and improving the debating talent of the members. QUAEVIS.

Meeting of the Ebtaxians.

At the last meeting of the Eutaxian Society, owing to the unusual inclemency of the elements, there was not the usual attendance. Misses Carrie Walker and Annie Patterson were elected members. The leaders on duty for the debate, being absent, it was postponed for two weeks. However an impromptu debate was called for and the all important and intensely interesting question, "Resolved, That old maid do more good in the world than married ladies," was chosen. Although the leaders had not a minute to collect their thoughts they showed, by their promptness, that they had thought soberly and deeply on the subject. Each member was allowed to choose her side, and speak from the heart. The question was debated with great earnestness and eloquence. The President, becoming bewildered by the weighty arguments presented on both sides, was unable to give a decision. There were fifteen spoke for the affirmative, twelve for the negative and two on the fence. One lady's feelings so overcame her that, after addressing the President, she sunk into her chair gasping: "Girls I can't speak on this subject! It hurts my feelings. All I can say to you is, get married if you can." QUAEVIS.

Meeting of the Laureans.

The Laurean Society held its regular session January 9th, a fair proportion of the members present. All seemed to be in a humor, due no doubt to the fact that vacation is past and hard work its again the duty of the day. The following question was debated: "Is conscience a safe moral guide." The discussion was opened by Wallace Mount, affirmative, followed by C. M. Hill, negative. A lively debate was engaged in by numerous members of the society, during which much solid argument was produced by both sides. A few members being in a facetious mood made the hour lively with their witty remarks. The president decided the question in favor of the negative. The society will hold an open session Jan. 23d, to which the Eutaxians, faculty and other friends are invited.

The following resolutions were adopted as embodying the sentiment of the society:

WHEREAS, It is the object of this society to fit its members for the more efficient discharge of many of the duties which will devolve upon them when they have taken their ranks among the business men of the community; and

WHEREAS, In this country a great part of the business, relating to the public welfare, is transacted by popular assemblies; and

WHEREAS, We recognize the importance of a thorough knowledge of the rules that govern such assemblies, and the importance of being ready in debate, that we may the more easily defend our own rights and the more easily propagate our own ideas of justice and expediency; and

WHEREAS, Our aim is success, and since success is but the legitimate reward of untiring industry and unceasing application; therefore be it

RESOLVED, 1st, That we do individually pledge ourselves to regularly attend all meetings of the society, as far as it is in our power.

2d, That the public be given to understand that we look upon our attendance upon the society as our first duty, and that at all times when either our presence or our patronage is solicited, that the same will be promptly refused if desired on the evening of our regular meeting.

Brevities.

Some examinations have been going on, during the past week at the University. This accounts for the lean and anxious physiognomy, which has been noticed lately among the students.

The several rhetorical divisions met in the auditorium yesterday, to hear from their representatives. The exercises consisted of essays, recitations and declamations, enlivened by vocal and instrumental music.

The storm did the University no damage, although it shook the building sufficiently to disturb the equilibrium of Prof. Coadon's fossils quite perceptibly.
