Ague Cure

is a purely vegetable bitter and powerful tonic, and is warranted a speedy and cer-tain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Re-mittent Fever, Dumb Ague, Periodical or Billous Fever, and all malarial disis Fever, and all malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptoms which perminate in the ague paroxysm, succeeded by high fewer and profuse perspiration.

It is a startling fact, that quinine, arsenic, and other poisonous minerals form the basis of most of the "Fever and Ague Prepara-tions," "Specifics," "Syrups," and "Tou-ics," in the market. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the malarial and their not cure, but leave the malarial and their own drug poison in the system, producing quinism, dizziness, ringing in the ears, head-ache, vertigo, and other disorders more formidable than the disease they were intended to cure. Aven's Ague Cure thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, Aven's Acur Cuas, by direct action on the liver and bil-iary apparatus, drives out the poisons which produce these complaints, and stimulates the produce these companies, and sendition.
