### THE CONVENTION.

The Democratic County Convention, that meets here to day, is compesed of staunch and sterling Demoocrats, as may be seen by reference to the list in another column. And it is fortunate that the Democracy have sent representative men, men of moderation and wisdom to perform the work entrusted to the convention.

A few remarks on the duty of the delegates, calling attention to important matters connected with the nominations, may not be amiss. Among the mest important offices to be filled are those of Representatives, and it is to be regretted that minor, and mere lucrative offices, generally overshadow them in the consideration of conventions. We need good sensible reliable men, pledged to reform and retrenchment in County, State and National affairs, to frame laws equitable and just. We need men who and who will stand firm and true to secure honest legislation. The convention should not make a speciality tention, which the welfare of the county demands. Let the convention make it a paramount duty to the law making power, and not devote their undivided attention to the "paying offices."

The absence of strife and bickerings between the candidates, is indeed favorable for a successful issue. No personal fights have been made, and when the convention has done its work we do not expect to hear insinaations and recrimmations indulged in gates realize that upon their action, by defeated candidates. We have no doubt that they will stand as square. ly, and use every honorable means for the success of the whole ticket, as if they had attained the coveted and county offices be worth, if they neminations.

Finally, we would impress upon the convention the necessity of nomi nating men with unimpeachable rep utations, who can appear and make a talk of the places we want afterbold, aggressive fight. Remember ment is upon us; the success of the that the independent mass of voters third term idea will smooth the way in our midst is large, and as the coun | for an unlimited number of terms; ty is so close, powerful. ## Office-Seekers.

We thought there was no room for misapprehension when we advocated, last week, the selection of men for our standard bearers in the approachletter from Cottage Grove, which appears in this issue, that we are liable to be misunderstood.

The signs of the times ests are identical with the masses, are ominous of tumult. The suc cess of the third term programme will sound the knell of the United States. Henceforth there will be no Union, there will be consolidation; look after the country's interest, and there will be no States to unite, there will be "a nation" with a "strong government," with a great central head, which will usurp, absorb and exercise unlimited power. State offices, county offices and every position of honor, place and power will be at the mercy of a great central despotism. To prevent the consummation of this scheme is the duty of Democrats, the duty of patriots. And do our aspirants for office, do our deleunselfish and patriotic, depends, in all probability, the success or defeat of all the abominations of a "strong

Let us be sure of the power, of the right, of the privilege to have and hold honors and offices at the hands of the people first; then tronage.
