

A Triumph of Journalism.

On a recent Sunday morning the New York Herald appeared in sextuple form of twenty-four pages or 144 closely printed columns, of which 105 were advertisements. This is said to be the largest edition of any daily ever issued. To accomplish this work in any printing office seems almost impossible. With a computed circulation of 130,000 copies, it requires 40,500 pounds or 20 1/2 tons of paper; 356 metal casts of Herald pages, weighing eight tons of metal; 3,519,900 pieces of type, or 1,173,300 ems of composition to furnish the bare material. Two large melting furnaces with double stereotyping machinery, and seven perfecting double presses disposed of this material, ninety-six page plates per hour being put forth from the stereotype department, and 2,333 perfect eight page sheets, some of them cut, pasted and folded, being printed every minute by these presses. To take the written copy for this paper, and set it up, print it and deliver it to the mails and to buyers, required the labor of 150 compositors, proof readers and copy-holders, twenty-five typesetters, sixty-five pressmen, engineers, firemen, mechanics and paper wetters, and thirty distributors, folders and wrappers.

M. Guizot, while on a visit to Lord Aberdeen, in Scotland, was talking to him in the park one day about the English system of elections, when his host stopped before a modest cottage. "This little house," he said, "recalls to me a shameful deed in my political life." "What, an act of violence?" "You shall hear. I had as tenant here an independent fellow who annoyed me horribly. In every election he strenuously opposed me. I made up my mind to be rid of him." "How you turned him out?" "No, I reduced his rent by a guinea, and destroyed his qualification. A mean trick and I've always been ashamed of it."

From the Hub.

There is perhaps no tonic offered the people that possesses as much real intrinsic value as the Hop Bitters. Just at this season of the year, when the stomach needs an appetizer, or the blood needs purifying, the cheapest and best remedy is Hop Bitters. An ounce of prevention is worth a pound of cure, don't wait until you are prostrated by a disease that may take months for you to recover in.—Boston Globe.

Advertising Cheats.

It has become so common to write the beginning of an elegant, interesting article and then run it into some advertisement that we avoid all such cheats and simply call attention to the merits of Hop Bitters in as plain honest terms as possible, to induce people to give them one trial, as no one who knows their value will ever use anything else.

Ayer's Hair Vigor,
FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brassy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair,
The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

Ayer's
Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, and all malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptoms which terminate in the ague paroxysm, succeeded by high fever and profuse perspiration.

It is a startling fact, that quinine, arsenic, and other poisonous minerals form the basis of most of the "Fever and Ague Preparations," "Specifics," "Syrups," and "Tonics," in the market. The preparations made from these mineral poisons, although they not cure, but leave the malarial and their own drug poison in the system, producing quinsin, dizziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. AYER'S AGUE CURE thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its certainty of cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, AYER'S AGUE CURE, by direct action on the liver and biliary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition.

We warrant it when taken according to directions.

GLENN'S SULPHUR SOAP.

ERADICATES ALL LOCAL SKIN DISEASES; PERMANENTLY BEAUTIFIES THE COMPLEXION, PREVENTS AND REMEDIES RHEUMATISM AND GOUT; HEALS SORES AND INJURIES OF THE CUTICLE, AND IS A RELIABLE DISINFECTANT.

This popular and inexpensive remedy accomplishes the same results as COSTLY SULPHUR BATHS, since it PERMANENTLY REMOVES ERUPTIONS AND IRRITATIONS OF THE SKIN.

COMPLEXIONAL BLEMISHES are always obliterated by its use, and it renders the cuticle wonderfully fair and smooth. SORES, SPRAINS, BRUISES, SCALDS, BURNS, and CUTS are SPEEDILY HEALED by it, and it prevents and remedies Gout and Rheumatism.

IT REMOVES DANDRUFF, strengthens the roots of the Hair, and preserves its youthful color. As a DISINFECTANT of Clothing and Linen used in the sick room, and as a PROTECTION against CONTAGIOUS DISEASES it is unequalled. Physicians emphatically endorse it.
