Last Saturday evening, per previous an nouncement, Hon John M Gearin, of Portland, addressed the citizens of Lane county and vicinity, on the political issues of the day. Every available seat was filled and we say, without fear of contradiction, that it was the largest audience yet in attendance in the Court House, this campaign. Everybody was highly pleased, and many complimentary remarks have been made of the speaker, since the delivery of the able and drawing a comparison of the records of the candidates for the Presidency He showed that in General Hancock the Democracy has tarnish his name. This he proved most conclusively from Republican testimony alone. He proved bim to be opposed to the relief of the people of this coast from the competition of Chinese coolie labor from the records of Congress. He next compared the record of the two parties for the last decade. How when Radicalism was at its height, the people's money had been squandered and stolen and not one of the thieves had been punished. If any had ever been convicted they were at once pardoned for the offence committed.
