The lectures by Prof. A. L. Johnson, at Lane's Hall, commencing next Monday evening, will be illustrated by a series of fine panoramic views. The lectures and panorama are highly spoken of by those who have attended his exhibition. A young man while visiting up stairs in one of the bricks the other evening, left a violin at the foot of the stairs. A couple of jokers captured the instrument, and began an impromptu serenade. The owner hearing the music, or representation of such, hastily essayed to get down stairs, but found the door locked. If that young man calls on any friends again he will not take any fiddle with him.

A Strange Law.

The editor of a Holt county, Missouri, paper who gets off the following, must have a strong imagination, and the item will be news in Oregon. We will inform him that our laws are not near so stringent and that any man or woman may get beastly drunk without license, let or hindrance, but the vice is not popular or creditable. The paper remarks thus: "Now that the temperance question is agitating the people of Holt county, it may not be amiss to call attention to the fact that the people of the State of Oregon have hit upon a new expedient to keep their citizens sober. Every man who drinks is required to take out a license costing five dollars a year. Unless armed with this document he cannot get his litters at any hotel or saloon, for it is a penal offence for the proprietors of these establishments to sell to any person without a license. Every six months the names of the persons who take out these licenses are to be published in the local papers, so that the public may know who are and who are not authorized to drink."

Blue Ribbon Club.

There will be a meeting of the Blue Ribbon Club on next Wednesday evening, March 9th, at which time the following programme will be rendered: Song by Choir. Prayer. Quartette, by four gentlemen. Five minute speeches. Good-night song. Don't tell your neighbor about it, and be sure and come yourself.

DISGRACEFUL CONDUCT.—On Thursday evening, about 10 o'clock, a couple of young men disgraced themselves by going into one of the Chinese wash houses of this city and raising a disturbance, during which one of them struck a Chinaman over the head with a revolver, inflicting a painful, but not dangerous wound. Warrants were issued, by Justice Alexander, for the participants, John Roberts and John Belshaw, and the Sheriff was searching for them at the hour of our going to press.

From the statements of these officers we learn that the following fees have been collected: Jan 19th to Feb 1st, Clerk fees.....\$19 85 " " Sheriff's fees..... 2 00 February, Sheriff's fees..... 5 05 February, Clerk's fees..... 70 85 Total.....\$97 86 The law took effect Jan. 19th.

FROZEN.—Mr. Chf. Cleaver, of Medical Lake, Spokane county, W T, formerly of this city, had the misfortune about the middle of January to badly freeze his feet. Both feet were frozen to the instep, but by good care he only lost four toes of the right foot. He had been to the post office, and started home in the evening, but gave out when within about a mile of his destination. He dug a hole in the snow, and remained there until about 9 o'clock the next morning when he was rescued from his perilous position. The thermometer was four degrees below zero and it is almost miraculous that he escaped freezing to death. The Cleaver family will return in the Spring as early as the snow permits. They are thoroughly disgusted with that country.

FRUITS OF LABOR.—About three years ago a little Norwegian, by the name of Hansen, arrived at this place from Minnesota. He straightway commenced laboring at anything that was offered, his attention being principally directed to wood sawing, of which business at the time he commenced, the Chinese had a monopoly. By his strict attention to his work he drove out the almond-eyed Mongolians, and had the field to himself. He at length concluded to return to his home and family in Minnesota and accordingly started last Saturday, taking with him \$1,000. During his residence here he had sent about the same amount home.

FINE BEEF.—Stall feeding beef it would seem pays in Lane county. On Tuesday last Mr A Matthews, an enterprising farmer of Pleasant Hill precinct, delivered at this place, to John Moores, 19 head of stall fed beef, for which he received \$955 16. The cattle averaged 1,433 pounds gross, the largest weighing 1,800 pounds, and the smallest 1,210. Three and one-half cents per pound gross was paid for the cattle.

C. Felch, calling him from labor to refreshment. RESOLVED, That we deeply sympathize with the afflicted relatives of our deceased brother, called so suddenly from our midst, and tender to them our fraternal commiseration and heartfelt sorrow in their sad bereavement. RESOLVED, That these resolutions be entered on the records of the lodge, and a copy of the same transmitted to his bereaved parents; and a copy furnished the newspapers of this city for publication. F. W. OSBURN, JAS. F. ROBINSON, F. B. DUNN, Committee.

Supreme Court Decision.

F B Dunn et al resp. vs The Union University Association et al, appl. appeal from Lane county. Judgment of the Circuit Court affirmed, with costs; opinion by Watson, J. SYLLABUS. The "Board of Directors of the University of Oregon," created by the act of the Legislature of October 19, 1872, entitled "an act to create, organize and locate the University of the State of Oregon" is a corporation. The immunity of a State from being sued applies only to its being made a party to the record. The immunity of the State does not extend to its agents, who hold the title and possession of property, against which a valid claim exists in favor of a third party.

STATE UNIVERSITY.

A column devoted to the interests of the Laurean and Euxasian Literary Societies, and the State University.

EDITOR,.....REUBEN P. SPILLER.

Alas.

Another week has rolled around, and brought other changes to the surface, which finds us "lone and lorn" at the head of the University column. Woe to the land whose king is a child, Woe to the University Column whose Editor is nothing but a—"girl." We feel the deepest sympathy for ourselves and extend a large share to the unfortunate GUARD; but we leave all in the hands of time, the healer of wounds and redresser of wrongs.

Brevities.

The masquerade is now a thing of the past. The Lenten season commenced last Wednesday. Miss Eva Rice returned to her school in Portland last Monday. We understand that Miss Starr has given up her school on account of ill health. Misses Irene Dunn and Nettie McCormack were visiting the school last Thursday. A week from next Friday will be the regular day for public exercises in the chapel. We were pleased to acknowledge a call from Mrs. Anderson and Miss Sharples last week. Miss Mae Underwood has engaged to teach the school at Oak Grove. We wish her deserved success. The Misses Dunn were called home on account of the dangerous illness of their brother. They have have not yet returned. There is some talk of letting the students have the chapel for social parties. We think that would be a very good idea. We shall soon miss Mr C S William's pleasant countenance from the Natural Philosophy. He leaves to teach a term at Junction.

The weather has been oppressively warm for the last few days, so very warm that the dairyman's cows have given sour milk. Oh! dear. Some of the members of the Junior class are very anxious to have their names in print. All sighing for this privilege will please send in their names at the first opportunity. The class in Botany is to recite twice a week. Prof. Condon makes this lesson so very instructive that the class look forward with pleasure, to the time when they will recite every day.

Amusements.

We learn from private correspondence, that the Shakespearean club of Salem are invited to a private mask at Mrs. Waite's this coming week. All of the characters represented will be from Shakespeare.

On Washington's birthday the students of Bishop Scott's Grammar school gave a reunion. There were over 200 present. Dancing was the principal amusement of the evening. After a nice supper they soon retired, having spent a very enjoyable evening.

We notice in one of our exchanges, that at the wedding of Prince William, of Prussia, a quaint quadrille is to be danced. The fifty couple who are take part in it, will be dressed in the costumes worn in the time of Frederick William I. The gentlemen who personate the giant grenadiers of the soldier King will be arranged in lace coat uniforms of the Russian guards, sugar loaf helmets, and cumbersome straps and belts. The smallest person admitted measures 5 feet 11 inches in height. Of the ladies many are said to suit their towering partners admirably in height and size. How much sauer kraut would the University girls have to eat before they would be deemed worthy of such lofty partners.

The Mask Party.

Friday evening the 25th, the young people of Eugene assembled for a masquerade party. The students spent a few odd moments of the week before preparing their suits; but it was well understood that no lesson was to be slighted. The time spent on ours was indeed small. Friday afternoon at 2 o'clock we set to work in earnest, and all were soon ready. The carriages called for the participants at about 7:30 and by 8 o'clock all were assembled in the hall. The band discoursed its sweetest music. Fun and frolic ruled the hour till 10:30 when we unmasked. The stage was well filled with invited guests. We noticed the following ladies on the front seat Mrs B F and George Dorris, Mrs McClung, Haebett, Odell, Mrs Prof. Bailey, Straub and Spiller. We broke up at a seasonable hour; and Mrs. Spiller, Bailey, Haebett and McClung left the hall, following in the wake of the gay revellers. In short, the committee with their usual delicacy spared no pains to make the occasion not only enjoyable, but altogether heightened. This carnival threw the leap year party decidedly in the shade; and the young ladies are fain to acknowledge that on some points the gentleman are more au fait than themselves.

Electrical Experiments.

Last Tuesday evening Prof. Collier exhibited some electrical experiments for the benefit of the class in Natural Philosophy. Several visitors were present. He showed the spiral tube, Franklin plate, and burned iron by electricity. The most beautiful of the experiments was the passage of the electric spark through rarified air. It resembles the Aurora Borealis in form and color; but of course very minutely. After the experiments all who wished were given a shock. In going home we noticed a strange phenomenon: Jupiter cast a shadow. We will probably be fifty years older before we again behold it. Please sign, Evz.
