

STATE NEWS.

Two men fishing for James Quinn came in through the surf on the northern beach in front of Mr. L. A. Loomis' place Sunday night, after drifting about on the ocean for fourteen hours. Their boat had capsized in the breakers, but the net hung to it, and they hung to the boat, being towed, tangled as they were in the meshes of the net, a great part of the time. They came to the City on Monday. The boat and net were also saved. It is certainly a miraculous escape from death.—Astorian.

Some statistic has figured up the number of votes cast in the principal cities of the country in proportion to population. The highest percentage was reached in Indianapolis, where the vote was 1 to 3.86. Indiana is where Dorsey and the Departments' money figured so conspicuously in the campaign. The Departments did very well in the Hoosier State.

The governor general of Canada draws \$50,000 annually, the same salary that the president of the United States is entitled to. But the Canadian official has not one-tenth of the population or wealth to draw upon that our president has. And the services of the former are not important. It is the fifth wheel to a very small coach.

Business men should not forget that blank notes, bill-heads, statements, letter-heads, and every description of commercial printing are neatly and promptly executed at the GUARD office.

August Flower.

The immense sale and great popularity of Green's August Flower in all towns and villages in the civilized world has caused many imitators to adopt similar names, expecting to reap a harvest for themselves at the expense of the afflicted.
