STATE NEWS.

Cricket are quite a pest in some parts of Lake county.
Harvest is in full force in Douglas county, and the grain yield is good.
The Cove cheese factory has about 15,000 pounds of that article in the drying room.
A hook and ladder company was organized in Union on the 9th inst., with a membership of 15.
The present liabilities of Clackamas county over available funds, as shown by the annual exhibit are \$1342 07.
G. W. Houck of Monroe, recently sheared from one of his three-year old merino rams an eleven months fleece that weighed seventeen pounds.
Messrs. Wortman & Sons are closing out their business in Monroe, and hereafter they expect to devote their whole capital and energy to their business in Junction City.
Gold has been discovered recently by Andy Wyland, John Officier and others on the Molalla. The supposition is that the bars will be worked during the coming summer. They are estimated to pay from four to five dollars per man per day.
Pythian hall, soon to be built at Astoria, will be 98x48 in size, three stories high. The first story will be 16 feet in the clear; the second 14 feet; and the third, 18 feet. The first floor will be for stores, second floor for offices, third floor for hall.

Rice is declining in price in Astoria owing to the large amounts received of late. Within a short time 250,000 mats have been landed from various ships from Hongkong. Thursday the price dropped five cents per sack, with a prospect of further decline.
Mrs. W. H. Sloper died at her house in old Independence, on Saturday morning of apoplexy. The death was sudden, the lady falling dead while cleaning the floor. She was buried at the Monmouth cemetery on Sunday. She leaves a family of small children and her husband.
Last week, Delazon Trullinger, Clackamas county, son of G. J. Trullinger of Union Mills, while removing a piece of bark from close proximity to the large circular saw, had his hand jerked against the teeth, and in a twinkling lost the first joint of the first finger of his right hand.
Mrs. Magruder of Jacksonville has just completed a quilt upon which she has been steadily employed for eight months. The needle work is done with such precision that Mrs. M. prides herself on the fact that among the tens of thousands of stitches in this quilt there is not a single one misplaced. The lady is 71 years of age.
Thomas Reeves, of Alsea Bay, claims that the lower Alsea valley is one of the most fertile sections on the Pacific Coast, and much of the land is being rapidly brought into cultivation, while the more broken country back from the bay is covered with inexhaustible forests of the very finest timber.
At a special school meeting held recently at Milton, the taxpayers voted a tax amounting to nearly \$1000. Out of this about \$345 will be appropriated to cancelling the debt resting on the magnificent school building. The balance is to aid in running a nine months school, beginning in September. There were only two dissenting votes.
Jacksonville Sentinel: S. Booth brought to our office recently three clusters of wheat stalks, each grown up apparently from a single grain. The first cluster contained 52, the second 79, and the third 117 stalks, with each a full developed ear on it. Think of it—248 stalks and ears from three grains of wheat. We counted the grains in one of the ears and found 67 full full grains and several shriveled ones. If all the ears averaged as this one does we have a grand total of 16,516 grains as the result of this seasons yield—the outcome of three grains.

We should never lose sight of the fact—Conkling, Beecher, Platt & Co's eccentric ideas to the contrary notwithstanding—that the Republican party is the all-the-morality party!

Badly Crushed.
Mr. J. J. Morgan, railroad agent at Hillsboro, met with an accident at that place on Thursday afternoon, July 14, which it is feared will prove fatal. He was engaged in coupling two cars, loaded with lumber, which projected beyond the ends of the cars, and not thinking of this, while busy watching the coupling link he was caught between the lumber and his head and chest so terribly crushed that it is deemed impossible for him to survive.
LATER.
We learn from Mr. S. Conser, conductor on the West Side train, last night, that J. J. Morgan, of Hillsboro, who was yesterday reported as fatally injured by being crushed between two cars, was not so badly injured as at first supposed, and it is now thought likely he will recover.—Standard.

Beginning to Take Shape.
From the Oregon Colonist we learn that the Oregon Pacific railroad project is beginning to take shape, and that the work of construction will actually commence on the line between Corvallis and Yaquina Bay; ties have been advertised for and engineers sent out to locate the line to be followed immediately by graders. This is really good news, and we are glad that the cherished hopes of our Benton county friends are likely to be realized at an early day.

SAID TO HAVE ABSCONDED.—It is asserted that Carlton Price, of the firm of Price & Brophy, sub contractors under Thompson, David & Smith, for clearing the O. R. & N. Co's roadway of timber between Portland and the Dalles, has absconded. It is further stated that Price has taken quite a sum of money with him leaving his partner in the lurch, as well as a large number of men who have been in the employ of the sub-contractors. Some 75 or 100 men claim to have been victimized, and are naturally very indignant. Price has disappeared and cannot be found. He is thought to have gone to California.—Oregonian.

CHEAP TRAVEL.—The opposition line of steamboats to the Dalles has been liberally patronized of late and the O. R. & N. Co, have evidently come to the determination to make things warm for them, as we are informed that a runner for that company last Saturday was offering passages to parties intending to go by the Fleetwood for 50 cents, and that a number were brought down from the Dalles for the same price.—Standard.

DROPPED DEAD.—Christian Erickson, a fisherman employed by Booth & Co., dropped dead in his boat where he was fishing Thursday evening. He had been out fishing and had made one haul; says the Astorian, and after pulling the net in sat down, apparently to rest, and died. He leaves a family at upper town. Heart disease is supposed to be cause of his death.

WHEAT WORM.—An insect of some kind has been destroying wheat in Yamhill county at a fearful rate, cutting the stalk off at the surfaces of the ground. Some of the farmers have lost very heavily on account of it. Jos. Watt, Esq., of Amity, loses about 200 acres of wheat, and other farmers lose quite largely.

When John Adams was a school teacher at Worcester he penned these lines: "But I have no books, no time, no friends. I must, therefore, be contented to live and die an obscure fellow." He was afterward President of the United States. A young man with "sand" in him need never be discouraged.
