**Results of Bad Temper.**  
A terrible instance of the madness and folly of an ungovernable temper, has been brought to light near Hillsboro. We mentioned the case of a man supposed to be insane, who shot his daughter, at Reedville, in Washington county and then fled to the woods in the direction of this city. A constable in pursuit, first supposed he came to Portland, but becoming convinced he was not here, returned and made search in the vicinity of Reedville, and yesterday the lifeless body of the man, whose name was Algesheim, was found in the woods not far from his farm. It seems the man was not insane as at first reported, but in a fit of bad temper, as was usual with him on such occasions he allowed his passion to lead himself beyond control and in a moment of phrensy of anger at his daughter over some matter he seized the pistol and shot her. Fortunately the ball only took effect in the arm and the wound produced was not a serious one. Algesheim, supposing he had killed his daughter, and realizing in a moment the awful consequences of a hasty temper, with terror and remorse, seized his double barreled shot-gun, a bottle of strychnine and a bottle of laudanum and fled to the woods where he killed himself.—Telegram.

**CURRENCY FOR MAILING.**—The difficulty of sending a small amount of money by mail has been felt by almost everybody. To remedy this and save the trouble of sending postage stamps it is proposed to issue a new species of postal money order, whereby small amounts may be sent by mail. This is to be effected by means of a slip similar to tickets used on railroad, the sum to be indicated by punching out proper figures from numbers on the side. This will be a God-send to our merchants who have trouble in getting small sums from their customers for want of means of sending it, as silver coin is too heavy to mail.

**FISHING AND FISH, ETC.**—The season's fishing on the Columbia has not been quite so good as that of last year, as it is estimated that the pack will fall short by nearly 50,000 cases of that of last year. The total amount paid by cannerymen for fish last year amounted to \$800,000. The demand at present is strong, and the ruling price along the river for one pound cans is \$1 28. The Astorian says: Two hundred and sixty fishermen left by the steamer State for San Francisco on Monday. They probably took away with them an average of three hundred dollars each making an aggregate of \$78,000.

**PRECATORIAL.**—Another lot of fishermen arrived from Astoria yesterday. There are now some six or seven hundred in the city. Some of them have made fair catches, but many of them complain of poor luck. The high boat of this season only took 3,300 fish, while many did not get over 1,000. The price paid was 60 cents. Five years ago when the price was 25 cents, the highest catch made by one boat was 10,000. Those who ventured farthest out at the mouth of the river were not so successful as those who fished a few miles up the river.—Standard.

**A JUVENILE TOURIST.**—Andrew McLung, aged 11 years, arrived from Texas last week, having traveled the entire distance barefooted and alone. At Ashland his money gave out and he was compelled to walk to this place, where he was kindly taken care of by G. Karwaki, R. M. Garrett also gave him a free ride to Slate creek, Josephine county, where his father resides. The boy's experience was severe, but he had the nerve to make the trip, and he gave an interesting account of it.—Jacksonville Times.

**BRISBINE'S SALOON** at North Yamhill was burned to the ground last Monday night. Nothing was saved from the building except the proprietor's books. The fire was discovered at about 1 o'clock A. M., and was under such headway that nothing could be done to subdue it. Mr. Brisbane is strong in the belief that it was the work of an incendiary. Loss, \$1500, no insurance.

**HOSTETTER'S CELEBRATED STOMACH BITTERS**  
MALARIA IS AN UNSEEN VAPOROUS Poison, spreading disease and death in many localities, for which quinine is no genuine antidote, but for the effects of which Hostetter's Stomach Bitters is not only a thorough remedy but a reliable preventive. To this fact there is an overwhelming array of testimony, extending over a period of thirty years. All disorders of the liver, stomach and bowels are also conquered by the Bitters.  
For sale by all druggists and Dealers generally.  
**THE BEST SHOES EVER BROUGHT** to this market, at the lowest prices.  
T. G. HENDRICKS

**STATE NEWS.**  
Linn county taxes have been closely collected this year, only about \$2000 being reported delinquent.  
Sol Abraham has signified his willingness to subscribe \$10,000 toward the erection of a woolen mill at Roseburg.  
Parties are investigating the burr rock mountain above Lebanon with an idea of ascertaining its practical value, and if found as good as it is supposed to be, it will probably be worked at once.  
Geo Helm, of San Francisco, formerly superintendent of the Pioneer woolen mills of that city has been in Albany several days looking over the prospects for establishing a woolen mill there.  
Walter McGhee, who was so severely wounded by Switzer, in Greasewood precinct, Umatilla county, a few weeks since, has recovered from his wounds, and last week was married to the young lady on whose account he received them.  
James A. Jenkins of Benton county died at the residence of his brother-in-law, Farlow Mulkey, last Sabbath evening. Mr. J. was about 30 years of age and had been born and raised in Linn county. He leaves a wife and child.

**Why is it?**  
One day this summer we rode fifty miles in a railway car, seated behind four men, who were playing with those awful playthings of the devil—cards. They played euchre until tired of it. They played a little seven up, pedro and occasionally a trifle of poker. We never heard a dispute. Their bursts of merriment occasionally at some unexpected play repeatedly drew our eyes from our book. They never quarreled and never called names once. After we got at our station we sat at the window and watched a party of young men and maidens playing croquet. In fifteen minutes we saw two persons cheat successfully. We heard the one player who did not cheat accused of cheating five times. We heard four distinct bitter quarrels. We heard a beautiful young girl tell two lies and a meek looking young man three, and, finally, we saw the girl throw her mallet against the fence so hard that it frightened a horse; the other young girl pounded her mallet so hard on the ground that it knocked the buds off an apple tree. They both banged into the house at different doors, and the young men looked sheepish and went off after a drink. Now, why is this?

**EFFECT OF OIL ON TROUBLED WATERS.**—William Porter, who was wrecked early this year in the steamship Diamond of Dundee, bears testimony, in a letter published in Chambers' Journal, to the extraordinary efficacy of oil in calming waves: "I first heard of its good effects in the case of a whaler in the South Sea. She was on the point of foundering. The men were unable, owing to heavy seas, to remain at the pumps, \* \* \* when some of the oil casks broke adrift in the hold and smashed. The oil was then pumped out with the water, on the sea, though still as high, did not break on board." At the wreck of the Diamond he considers that they owed their lives to the oil thrown out.

**PROTECTIVE TARIFF.**—The duty on the cargo of railroad iron for the narrow gauge, brought here by the Countess of Derby amounted to \$34,470, and that sum was paid into the Custom House yesterday, in gold coin. The farmers along the line of that road can begin to "dig up" as eventually they will have to pay back this tidy little sum to the company, who control the road.—Standard.

On a Coney Island veranda, the other day, three hundred or more Brooklyn gentlemen were promenading with as many Brooklyn ladies, when some wag yelled, "Look out, your wife's coming." Thirteen couples continued their promenade. The others slid around the back way and took the first train home.
