

THE EUGENE CITY GUARD.

SATURDAY, SEPTEMBER 27, 1881.

Tainted Milk.

The authorities of Glasgow, Scotland, recently issued a very sensible order, based on hygienic reasons, that no milk should be sold from any building from which there was communication with a room in which persons slept. The health officers of other cities would do well to take a hint from the Glasgow officials. It is a well ascertained fact that milk allowed to stand in a room, even when well covered, absorbs all the odors of the apartments, and may thus be the means of disseminating contagion. Yet how little attention is paid to this fact by dairymen, and even by housewives! Stringent measures for securing the purity of this most valuable article of food should be adopted in every city, and when adopted should be rigidly enforced.

Fall Elections.

Elections occur this Fall in New York, Ohio, Pennsylvania, Virginia and Mississippi. The only State officer to be elected in Pennsylvania is the Treasurer. In New York a full State ticket is to be elected, except Governor and Lieutenant-Governor, together with members of the Legislature and four members of Congress. Full State tickets and legislators are to be elected in Virginia, Mississippi and Ohio.

RAILROAD NEWS.—The O. & C. R. Co. have built and are building entirely new bridges across the Umpqua, Pudding river and Molalla, the former being, says the Albany Democrat, a large five span bridge. They are also rebuilding many bridges of small size, as well as putting in a great deal of new trestle work. The trestle work at the crossing at Oak creek, the Santiam, Lake Labish, is being entirely rebuilt, the timber used being furnished by the Albany mill. This begins to look as if fast time was going to be made soon. We understand the ground between Cottage Grove and Roseburg is literally covered with ties lying along the side of the railroad, ready for shipment to the point where they will be needed.

OREGON AND WASHINGTON AGAIN AHEAD.—From nearly all of the European countries, as well as from most of the Atlantic States, reports come that there is a large falling off in the breadstiff yield. California even will not come up to her last year's yield by at least 200,000 tons; while Oregon and Washington again come forward with not only their usual never-failing crop, but with at least 40,000 tons in excess of the last year's crop. This is no small thing when we calculate its value; 1,333,333 bushels, or about \$1,200,000, calculating wheat at 90 cents per bushel.

BETTER ADVOCATE FREE TRADE.—We understand that M. C. George, our present member of Congress, intends to ask that body, says the Corvallis Gazette, and insist upon their making an appropriation for this purpose of an amount which will be equal to the sum which the present Oregon Pacific Railroad Company will have to pay as duty upon their steel rails already shipped and on the way from England, to be used in the construction of their road, which is about 6,000 tons. The duty upon this amount will aggregate about \$129,000.

The Republicans of Mississippi have fallen into line with their brethren of Virginia who support the repudiation by indorsing the nominees of the Greenback ticket. "Honest money, and the honest payment of honest debt," will scarcely be the battle-cry of the Republican party this Fall. If the Stalwarts and Halfbreeds of Oregon see anything to admire in the conduct of their party in New York, Ohio, California, Virginia, North Carolina, Oregon and Mississippi, we should like to be informed upon what particular their admiration is based.

The wealthiest Georgia negro, Henry Todd, gained his start toward fortune by owning slaves. He was once a slave himself and his freedom was given to him by his master; but he quickly overcame any scruples, which he may have entertained, and at the outbreak of the war, owned twenty slaves.

YALE'S UNDOING.—The complete list of the losses by fire which swept unfortunate Yale on the 18th inst., foots up \$190,300. Upon this there was an insurance of but \$7,700. The ruin of the town and its business interests was most complete.

He knew if he was editing a newspaper he would give the public the ins and outs of the goings on of public men. He would open the eyes of the people till they cried long and loud for reform. He tried it three days. Result: Five libel suits; two arrests for defamation of character; seven times called liar by a contemporary; challenged to a duel once; horsewhipped three times; a daily reception of sore-heads with murder in their hearts, fire in their eyes and mouths reeking with profanity; and the last we saw of that man he was trying to trade a puff in his paper for a bit of rope long enough to reach from the clothes hook around his neck.

All parties, including Readjusters, Republicans and Democrats, are bidding for the colored vote of Virginia, which really holds the balance of power in that State. This fight over them has completely demoralized the colored laborers, and it is next to impossible for farmers to secure help. A large portion of the hay crop of the State is reported to be lost in consequence of the intense political excitement and the frequent meetings held.

Philadelphia's Democratic Mayor has appointed four colored men to serve as regular policemen, and now certain Republican papers of the State are asking: "How would you like to be arrested by a nigger?" There are 25,000 sons of Ham in the Quaker City, and yet through all the years of Republican rule not one of them has been appointed on the police force. Colored policemen are numerous in the Southern States.

And now they claim that Uncle Tilden is setting up things for 1884. It is evident that Mr. Kelly still holds the old gentleman in a wholesome fear when he starts this cry at this early day. If the sage would only flatten out Mr. Kelly the country would be glad to see him set up things for 1884. It would do the Democracy of New York an immense amount of good if it would discipline Boss Kelly as the Republicans have Boss Conkling.

The size of France's African engagements can be judged from the fact that she now has 90,000 troops along the coast of Tunis and Algeria, and is arranging to send 50,000 more Frenchmen to take their chances in that precarious struggle for glory. Africa is a sponge which has absorbed a great deal of French valor. The struggle to conquer Algeria lasted from 1830 to 1850, and cost millions of francs.

The last report of the National Board of Health shows remarkably high death rates for nearly all eastern cities for the year ending July 31st: Matamoras 78, Rock Island 67, Memphis 59, Cincinnati 56, Selma 55, Pittsburgh 52, Richmond, Va., 50, New York 49 and Portsmouth 46 per 1,000. The hot wave has much to do with it.

The Washington Post thinks it very strange to find the Republican party, which has long boasted of all the cardinal virtues, and which has charged all the vices on the Democracy, going in for repudiation in Virginia and free run in North Carolina.

It has just been computed that there are 6,100,000 Jews in the world. Of this number 5,000,000 live in Europe, 180,000 in Asia, 400,000 in Africa, 300,000 in America and 200,000 in Australia. In Roumania 7.50 per cent of the population are Jews, whilst in Norway there are only 34 individuals of that race.

Six barbers got into a dispute at a picnic given by their fraternity at Shell Mound park, last week. They pounded each other on the head to such an extent that none of them can speak a word since. Their shops will therefore, be crowded for some time to come. —S. F. Post.

The Cincinnati Gazette suggests that the United States Supreme Bench "ought to be filled up and toned up." That's it, exactly. This great tribunal has come to be a very monotonous humdrum concern. It needs an infusion of fresh Democratic blood.

The census department will soon have ready its report on the wealth of this country. It will probably show the valuation of the United States to be \$60,000,000,000 as against about \$31,000,000,000 in 1870.

"Tis true, 'tis pity," George Alfred Townsend says, "The Republican party is an idea and a scheme." That's a fact. The idea is to get possession of all the offices, and the scheme is to work them for all they are worth.

The Stalwart St. Louis Globe-Democrat wishes it to be recorded, for the use of future generations, that seventy-five of the employees in the New York Custom House were appointed upon the solicitation of the high priest of civil service reform, George William Curtis; while barely three were appointed at the instance of Mr. Conkling.

The Peruvian Syrup has cured thousands who were suffering from Dyspepsia, Debility, Liver Complaint, Bile, Humors, Female Complaints, etc. Pamphlets free to any address. Seth W. Fowle and Sons, Boston.

Holloway Pills—What is Life Insurance? Apoplexy, &c.—Many people insure their lives to benefit their families by death—how paradoxical is this. To prolong life by preserving the health would be a far more rational manner of insuring it. Apoplexy is swift and insidious in its attacks, striking its victim without a moment's warning! Happily a preventive has been discovered—Holloway Pills—the only safe and certain antidote for this disease, they cool the blood and equalize its circulation through the system. To preserve the stomach in a sound condition and the blood pure is the true secret of health—Holloway's Pills will do this most effectually, and thousands owe their actual existence to them at the present day.

IMPORTANT NOTICE.—None are genuine unless the signature of J. HATDOCK surrounds each box of Pills and Ointment. Boxes at 25 cents, 50 cents and \$1 each.

King of the Blood

It is not a "cure-all," it is a blood-purifier and tonic. Impurity of blood poisons the system, deranges the circulation, and thus induces many disorders, known by different names to distinguish them according to effects, but being really branches or phases of that great generic disorder, **Impurity of Blood.** Such are Dyspepsia, Biliousness, Liver Complaint, Constipation, General Weakness, Heart Disease, Dropsy, Skin Diseases, Pimples, Ulcers, Scalding, &c., &c. **King of the Blood** prevents and cures these by attacking the cause, impurity of the blood. Chronic and physicians agree in calling it "the most genuine and efficient preparation for the purpose." Sold by Druggists, \$1 per bottle. Treatise on Diseases of the Blood, wrapped around each bottle. D. HANSON, SON & CO., Props., Buffalo, N. Y.
