

An Englishman was bragging of the speed on English railroad to a Yankee traveler seated at his side in one of the cars of a "fast train" in England. The engine bell was rung as the train neared a station. It suggested to the Yankee an opportunity of "taking down his companion a peg or two." "What's that noise?" innocently inquired the wily Yankee. "We are approaching a town," said the Englishman; "they have to commence ringing about ten miles before they get to a station, or else the train would run by it before the bell could be heard! Wonderful isn't it? I suppose they haven't invented bells in America yet?" "Why, yes," replied the Yankee, "we've got bells, but can't use them on our railroads. We run so 'arnal fast that the train always keeps ahead of the sound. No use whatever—the sound never reaches the village till after the train gets by." "Indeed!" exclaimed the Englishman. "Fact" said the Yankee; "had to give up bells."

Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, and all malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only precursors of a severe and protracted illness, which terminate in the ague psychosis, succeeded by high fever and protracted prostration.

It is a startling fact, that quinine, arsenic and other poisonous minerals, form the basis of most of the "Fever and Ague Preparations," "Specifics," "Syrups," and "Tonics," in the market. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the malarial and their own drug poison in the system, producing quinsin, dizziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. AYER'S AGUE CURE thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, AYER'S AGUE CURE, by direct action on the liver and biliary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition.

We warrant it when taken according to directions.
