Aploplexy, &c.—Many people insure their lives to benefit their families by death—how paradorical is this. To prolong life by preserving the health would be a far more rational manner of assuring it. Apoplexy is swift and insidious in its attacks, striking its victim without a moment's warning! Happily a preventitive has been discovered—Holloway Pills—the only safe and certain antidote for this disease, they cool the blood and equalize its circulation through the system. To preserve the stomach in a sound condition and the blood pure is the true secret of health—Holloway's Pills will do this most effectually, and thousands owe their actual existence to them at the present day.
