# In Memoriam.

Junction correspondence, Feb. 2d: Sad was our little town yesterday, Feb. 1st, as the last rites and respect was shown by our people to the memory of Kittie and Ethel Mulholland. Two fairer or more lovely children were not to be found. Kittle was aged 10 years, 5 months, and 12 days, intelligent and accomplished. She stood always among the first of her classes at school; she excelled in music, to which art she had devoted much time and study. Her modest manner and pleasant disposition will long be remembered by many of us. Ethel was aged 2 years and 7 days. Both died on the 31st ult. of that dread disease, diphtheria.

The afflicted parents have the tender sympa this of many friends. Kittie will no longer

#### Yaquina Bay Harbor.

Pursuant to announcement the citizens of Eugene held a mass meeting at the Court House on Saturday evening, Jan 28, for the purpose of asking Congress for increased aid \$5616. for the improvement of Yaquina Bay barbor. On motion Hon, R. B. Cochran was chosen Chairman, and F. W. Osburn, Socretary.

The Chairman stated in full the object of the meeting, and laid great stress on the need of such increased appropriation. The following preamble and resolutions were then offered by Hon T G Hendricks and after speeches had been made by Judge J J Walton and others, were unanimously adopted:

WHEREAS, The Legislature of Oregon at the Session of 1880 unanimously resolved to petition Congress for an appropriation of \$200,000 for improvement of the entrance to Yaquina Bay. And

WHEREAS, Subsequent events and especially the building of the Oregon Pacific Railroad with its terminus at Yaquina Bay have still further demonstrated the urgent necessity of such appropriation. Now be it

RESOLVED, That this meeting cannot recognize the proposed appropriation of \$60,-000 mentioned in the bill introduced by Hon M C George as adequate to provide for the early completion of the improvement.

That the Senators and Representative from Oregon be respectfully but earnestly invited to use their best endeavors in Congress to procure the insertion of the sum of \$200,000 and no less in the appropriation bill in ques-

That a copy of these Resolutions be sent to the Senators and Representative, and that the Hon M C George be specially requested to exert all the influence vested in him as a member of the Committee on Commerce to secure an end to which he has pledged himself, both publicly and privately on his canvass, and which formed one of the chief grounds for the confidence in him felt by the Willamette Valley and proved by his

Upon motion it was ordered that a committee be appointed to procure aignatures to petition memoralizing Congress to carry into effect the wishes of this meeting. The ture at Portland in the Unitarian Church on following persons were appointed as such committee: Judge J J Walton, T G Headricks, F W Osburn and R B Cochran.

Upon motion it was ordered that the Secretary be instructed to furnish the city papers with a copy of these proceedings. On motion adjourned.

## Dry Dock at Portland.

Says the Standard: The O R & N Co have contracted with Wm Bates, of Chicago, for the construction of a dry dock, which is intended to be large enough to accommodate any ship visiting our port. The dock will be situated about three-fourths of a mile below Albina, on the east side of the Willamette. An excavation will be made from the river into the bank about 450 feet. Piles will be driven to sustain a frame work in the cavity of the ground, and the frame thus secured will be planked over and calked to keep out the mud and water. The rear end of the dock next the river, when a vessel is to be docked, will be closed by a caisson or floating gate eighty feet long, which, on being brought up against the abutments, prevents the water from flowing in from the river while the water in the dock is being pumped out. The dimensions will be as follows: Length in the clear on top, 400 feet; breadth in the clear on top, 115; breadth on the bottom, 45; depth at the aft kennel block, 50 feet; draft of water at low stage, 18 feet; draft of water at high stage, 46 feet. Two 18-inch centrifugal pumps manufactured by Clark & Van Wie, of Syracuse, N Y, will be driven by a compound engine of ample power to empty the dock of water in about four hours. It is presumed the engines and boilers will be built in Portland, where there are ample facilities for all
