

CITY AND COUNTY.

BRIEF MENTION.

For good dustistry go to Davis. Go to Goldsmith's for groceries. Goldsmith keeps the best cigars. Bring your chickens to Bettman's. Warner's Safe Kidney and Liver Cure. Job work a specialty at the GUARD office. New styles ladies visiting cards at the GUARD office. Bettman will pay more for chickens in Cash than any one in town. Goldsmith keeps the best line of groceries, and sells them cheap. F. B. Dunn will pay the highest market cash price for wheat. The only place where you can always sell your chickens is at Bettman's. Geo Kincaid is able to be on the street after a couple of weeks sickness. The GUARD would prove an acceptable present to some friend in the East. Cash paid for CHICKENS, HIDES, TALLOW and BEES-WAX at A Goldsmith's. D. Hyman will pay the highest market price in cash for hides, furs, tallow and bees-wax. Mr S H Friendly will pay the highest cash market price for wheat. Give him a call before selling your grain elsewhere. The most noted men of modern times have publicly attested to the value of Ayer's Cherry Pectoral as a cure for coughs and colds. Prof Warren, connected with the U S Educational Bureau, was here this week collecting statistics relating to the State University. Mr. John Kelly went to Portland Wednesday. He represented Lane county at the meeting of the Republican State Central Committee. Geo Millican shipped a car load of stall fed cattle, numbering twenty, on Tuesday. He purchased them of Mr Matthews of Pleasant Hill. As a mild but effectual laxative, as a safe but sure tonic, blood purifier and general strengthener, use King of the Blood. See advertisement. By a card from Mr B C Van Houten we learn that he is located at Cheney, W T. He writes that the winter is bad, but he is well satisfied with the country. During service at the Presbyterian Church last Sunday morning, the ceiling where the stove pipe went through was discovered to be on fire. The exercises of the morning were discontinued and the fire extinguished. Hon John Burnett and Judge McFadden of Corvallis, Hon R P Farhart of Salem, and Ol Tompkins of Harrisburg came up Saturday to attend the funeral of Hon J M Thompson. They returned by Monday's train. The GUARD office has just received a new stock of letter and bill heads. There is no use of writing your letters and bills on plain paper when you can get a neat business like head printed for but little more than the paper costs. Call and examine our samples. FOLEY'S SPRINGS SOLD.—The Foley Springs were sold at public sale by the administrator G B Dorris, Tuesday, to Mr Ransy of Astoria, for \$825. This is one-half what the improvements cost the late proprietor, Dr Foley, and in all probability the sale will not be confirmed by the County Court. At the same time a house and lot belonging to the same estate, situated on Willamette street between Tenth and Eleventh streets, was sold to Mr W P Coshire for \$430. A CHANGE.—The railroad company gives notice that they will carry no freight or stock cars on passenger trains north of Junction after March 1st. This will work a hardship on stock drivers as they will have to drive to Junction or else unload and keep their stock at that point over night. The reason for this order is that freight cars interfere with the patent air brakes with which the passenger trains are now supplied. The railroad company should justly run their freight trains as far as Eugene. SCHOOL MEETING.—A meeting of school district No 4, which comprises Eugene, is called to meet at the Court House, Monday March 6, 1882, for the purpose of electing one director to serve three years, a clerk for one year, and for the transaction of such other business as may come before the meeting. Hon R B Cochran is the retiring director. GOING EAST.—Mr. Geo Cooper will start next week for the East in the hope of procuring medical aid that may relieve him of the cancer from which he is now suffering. In common with his many friends we hope he may be benefited by the trip. INDICTED.—John W Peck has been indicted by the district court of the District of Columbia for perjury in relation to the mail route from Eugene City to Bridge creek. LOCKED OUT.—Mrs Abigail Scott Dunaway was "locked out" of the Salem Court House recently. She experienced a rebuff of the same kind here once, and justly too. DIED.—Martin Bonnett, a young man aged about 23 years, died at the residence of his parents across the river, Wednesday, of consumption. WANTED.—10,000 bushels of oats delivered at our warehouse at the depot, for which the highest market price will be paid. G. BETTMAN. WOOD SCARC.—The wood supply in town has about given out, and those who are in need of that article have to take green fir or pine. A GIRL.—P C Noland of Creswell jubilantly writes to friends in this city that it is a girl, weight 9 pounds, dated Feb 22d.

Obituary.

The subject of this sketch, John M Thompson, was born in Cooper county, Missouri, May 9, 1838. There he passed his boyhood years until his parents decided to remove to Oregon, locating in Linn county near the line between Lane and Linn. He attended Columbia College, which stood on the elevation about one mile south of Eugene, but never graduated, as the school was destroyed by political dissensions. At school he was studious and painstaking, and was regarded as a young man of bright intellect and full of promise. After the breaking up of the college he studied law for several years, and was admitted to the bar, since which time he resided almost continuously in Eugene practicing his profession. As a lawyer and man he was noted for his strict integrity and regard for right. In politics he was Democratic, but conservative, and was not afraid to denounce wrong when committed by leaders of his own party. He was twice elected County Judge of Lane county, and while filling that position thoroughly defended the interests of the county by compelling strict economy. In 1878 he was elected to the State Legislature, and was a member of the famous investigating committee; while his actions in these premises lost him some party friends it increased his popularity, and in 1880 he was again elected to the Lower House. He was the senior member of the law firm of Thompson & Bean, and enjoyed a lucrative practice. He was a Regent of the State University, in which institution he took great interest. His death occurred at Prineville Feb 11th, 1882, he being at the time nearly 44 years of age. In the prime of life, with an honorable and useful career before him, and with ability to fill any public station to which he might have been called, the tender thread of life was broken. The mind was great, but the physical nature weak. He has paid the last tribute that mortality owes to nature and now sleeps the last sleep in the grave.

More Arrests.

Dolly Adams, the inmate of Carrie Bradley's house, who electrified Portland a few days since by her revelations in regard to the murder of James N Brown, in that notorious place, appears likely to play the heroine in another, and not so agreeable role. Chief Lappens yesterday filed a complaint with the district attorney, charging her with being a principal in that horrible affair. She, with her friend, Mollie Flippens, have for several days been in the county jail, where she is now more certain than ever to remain until wanted. A "lover" of hers by the name of Williams, a bartender at the Elite theatre, has also been arrested as the officers have evidence sufficient to implicate him in the horrible murder. Constable Simmons, who went to San Francisco to bring back Bradley, Sullivan and Mahone, sailed for Portland on the 23d inst., with his prisoners. The trial will doubtless prove an exciting one.

Bar Meeting.

Pursuant to call the Bar of Eugene City met at the Court House for the purpose of showing respect to the memory of Hon J M Thompson, deceased. Present, D M Risdon, R S Boss, G B Dorris, C W Fitch and Geo M Miller. By motion D M Risdon was chosen President, and Geo M Miller Secretary. A motion prevailed that the President appoint a committee whose duty it should be to draft appropriate resolutions and present the same to the Circuit Court and bar at its next regular term. The President appointed R S Boss, C W Fitch and G B Dorris such committee. On motion it was resolved that the bar attend the funeral in a body. D. M. RISDON, President. GEO. M. MILLER, Secretary. Eugene City, Feb 18th, 1882.

Temperance Meeting.

The meeting of the Blue Ribbon Club will be held at the Baptist Church, Wednesday evening, March 1st. The following programme will be rendered: Music—Choir. Prayer. Music—Song and Chorus. Address—Rev. E. P. Henderson. Solo—"The Old Man Dreams," Mrs. B. S. McLafferty. Essay—Mr. George Hill. Music—Song and Chorus. Recitation—Miss Rubina Spiller. Music—Choir. Ample time will be given for general, brief remarks, including reports from attendants at the State Temperance Alliance. Opportunity of joining the Club will also be given to those desirous of becoming members.

IMPLEMENTS IN THE FIELD.—One in riding through the country is surprised at the manner in which farmers leave their valuable farm machinery in the field without any protection from the rain and the sun. A shed of rough boards costs but little, and will pay a large interest on the investment, if used to shelter these machines. Because we do not see the slow decay, we are apt to forget that it is going on, until remedied by some costly machine which goes to pieces just at the moment when most needed. This treatment of machines is excellent for the manufacturers, but it is one of the prominent reasons why "farming don't pay."

TEACHERS INSTITUTE.—A Teachers Institute will be held at the district school house in Eugene, commencing on the evening of March 7th, and continuing three days. Prof Powell, State Superintendent of Public Instruction, will be in attendance. A full attendance of teachers is desired. The programme will be published in due time.

FIRE ALARM.—An alarm of fire, caused by the burning of some straw in a barn near the public school building, aroused our citizens Wednesday evening. The flames were extinguished without any damage to the property.

About Wheat.

EDITOR GUARD.—In the GUARD of Feb 11th, our worthy fellow citizen, Mr. George Belshaw, has a clear and practical letter on the subject of raising wheat and seems to intimate that my letter in the GUARD of January 7th is in the same vein. So far as choice of varieties are concerned, I have no inclination to dictate or recommend, but that letter was written to call the attention of the people to the facts that good white flour could be made from red wheat, and that red wheat was merchantable and in demand everywhere—except in Oregon, and perhaps California. Whether a man prefers red wheat or white is nothing to me; but if I cannot raise white wheat and can raise red wheat, then I would like to know why our red wheat produced in Oregon cannot be sold as readily in the markets of the world as the red wheats raised in Minnesota, Dakota, Iowa, Wisconsin, Michigan, England, France and Russia.

There is but one point in Mr B's communication that deserves notice in this connection, and that is where he puts his foot down emphatically and says: "I have also forty or more varieties of red but I do not grow them extensively as they are not merchantable for storing or shipping, so that must end the matter at once so far as red wheats are concerned." And why not merchantable for shipping and storing? Again he says: "I have all the varieties the gentleman of Minnesota mentions and recommends and I find them inferior to the white, and none will bear shipping from Oregon." And why will none bear shipping from Oregon? That is the question I want answered, and to try to find a reason and an answer I wrote to Minneapolis and the answer came back that the Scotch Fife wheat stood highest in that market and in other markets. Now if the shriveled half-made red wheats of Minnesota make good white flour and are salable in all the markets of the world, why is not the splendid red wheats of Oregon, weighing sixty-five pounds to the measured bushel, fit for storing or shipping here or anywhere on God's green foot-stool. This is the question I sought to have answered, and which has not—and probably cannot be sensibly, impartially and rationally answered.

That red wheat is rejected, or has been by our warehousemen, I well know; but why? What reason is given for such action when red wheats are bought and sold and pass current everywhere except upon this coast.

To leave the question with the merchants, millers, shippers and warehousemen is to leave it with a jury that has already given a verdict. My motion is to have this verdict set aside and a new hearing ordered. The idea of condemning Joe Bower's baby because its head was red, or denouncing the late Eph Day because he had a pocket in his after rigging, are not such reasons as ought to effect a jury of cool-headed men. Such a practice might do injury to red-headed men as well as red wheat. If our red wheats are rejected by warehousemen, buyers and shippers because they are simply red it is about time we were importing a few wheat dealers without prejudice and with reason enough to give a reason for this preference.

This question will bear a good deal of explanation when such men as Allen & Lewis of Portland advertise and sell seed wheat—red wheat—at three dollars per bushel to farmers and then refuse to take or ship red wheat sent to them by other buyers. There are localities, as I stated in my letter of Jan 7th, in Oregon, in this valley, in this country, where no known and tried varieties of white wheat will succeed, and where at least one variety of red wheat has stood the test for twenty years without rust, blight or bluish. In behalf of those that cannot raise white wheat, and who can make a living by raising red wheat, and that all may have a fair show in the agricultural race, these lines are penned and these questions submitted. Respectfully yours, H. C. HUSTON.

Resolutions of Respect.

At a special meeting of Eugene Lodge No 11, A F & A M, held at Masonic Hall Eugene City, February 18th, 1882, the following preamble and resolutions were adopted: WHEREAS, On Feb 11th, 1882, our highly esteemed friend and brother, Judge J. M. Thompson departed this life at Prineville Wasco county, Oregon; and WHEREAS, The deceased was for many years a prominent and exemplary member of the Masonic Fraternity, and by his faithfulness and kindness as a friend greatly endeared himself to his brethren in and out of the Lodge; and WHEREAS, It being proper that some action be taken looking to public recognition of his many virtues, and to leave some testimony to his memory expressing the sentiments of this Lodge in appropriate resolutions; therefore be it

RESOLVED, That we humbly bow to the rulings of an Allwise Creator whose ways though seemingly dark are always just. RESOLVED, That in the death of Brother J. M. Thompson this Lodge laments the loss of a brother who was ever ready to proffer the hand of aid and the voice of sympathy to the needy and distressed of the Fraternity; an active member of this society, whose utmost endeavors were exerted for its welfare and prosperity; a friend and companion who was dear to us all; a citizen whose upright and noble life was a standard of emulation to his fellows. RESOLVED, That while we mourn his death we cannot but think that our loss is his eternal gain. A man who was ready for duty though that duty was death; one whose pure life should serve as a criterion to those he left behind, and one whose memory will ever be cherished as a gem of precious value.

RESOLVED, That to his family we tender our sincere sympathy in their sore bereavement of one whose place can never be filled, reminding them that the sweetest consolation is drawn from the memory of the principles which permeated his whole life, and taught him to look upon death as only a stepping stone to a higher plane.

RESOLVED, That these resolutions be spread upon the records of the Lodge, and a copy thereof be transmitted to the family of our deceased brother, and to each of our city papers.

Willamette Forks Items.

COBURG, Feb. 23, 1882.

The freeze has injured the fall sown grain to a large extent in this vicinity. The Albany Herald will progress finely as it has an agent in this precinct.

There has been considerable lumber hauled away from the Coburg saw mill for fear of trouble. A. L. Vaughn delivered a very interesting lecture on last Friday, at the Union Hall, on Education.

The road has been cleared out once more from Coburg to Brownsville as the school at the Union Hall in the Hollering District has been closed. Mrs. Trinner of Dayton, W. T. will soon take charge of the school there.

It has been reported that the Hall known as the Charity Grange Hall will be sold to the school district in Willamette Precinct; the lower part for a school room, and the upper part for an Odd Fellows hall.

There is a wedding anticipated near Coburg soon, the parties being a Sunday School teacher and a teacher of mathematics. Hurry up Tommy, you are getting old. Vox No. 1.

CONVICTED.—Ike Lougstreet, a gambler well known in Oregon, was convicted of manslaughter at Nevada City recently, for the killing of one McClelland. He was sentenced to ten years imprisonment in the penitentiary.

LEG BROKEN.—Dave Winters of Prineville had his leg badly broken and his thigh fractured on the 2d inst. The injuries were very painful.

STATE UNIVERSITY.

A column devoted to the interests of the Laurean and Eutaxian Literary Societies, and the State University.

JENNIE SPENCER, EDITOR.

Presidents Address.

On taking his seat as President of the Laurean Society recently Mr Woodcock made the following address:

GENTLEMEN OF THE LAUREAN SOCIETY:—In accepting this, the highest office that can be given at your hands, I fully realize, I think, the responsibility of the position. When this Society honors one of its members with a gift like this, it has confidence of course in his ability to discharge the required duties. I shall endeavor, with that small ability I possess, to maintain it not to strengthen that confidence.

While the success of this Society depends in part on the manner in which its officers perform their duties, the greatest forces, gentlemen that can accelerate the progress of our Society are in your possession. And especially would I impress this upon the minds of the new members: do not wait for the veteran members to derive all the benefits that are to be gained by seizing the opportunities that are equally before you all, but step boldly forward and take an active part in all of the transactions of the Society with that zeal which characterizes a brilliant career of an assembly like this.

In respect to order, I only ask you to remember that memorable expression that "Liberty is a glorious thing, but it is a solemn thing." In guiding our young ship over the waves, if storms arise and the white-caps reatter their foamy spray over the top-most mast, you may rest assured that one friend, your humble servant, powerful or powerless will be at the helm. Still I hope that during our short voyage we shall have just breeze enough to carry us through the narrow straits, and with sail at full mast waving in the gentle zephyrs of peace, we may anchor our gallant bark in as safe a harbor as that in which we found it.

Laurean Election.

At the last election of the Laureans the following officers were elected: President, A. G. Woodcock; Vice President, Edward Bailey; Secretary, Robert Cullier; Assistant Secretary, Henry McClure; Treasurer, C. W. Sharples; Censor, C. P. Richards; Editor, W. H. McGee; Sergeant-at-Arms, George Hoyt.

Brevities.

We shall give the names of some of the new books of the University library donated by Mr. Willard in our next column.

The Physiology class under Prof. Condon was organized last week. They expect to devote about six months to this study.

Miss Jennie McClure and Miss Augusta Patterson have been elected members of the Eutaxian Society. Miss Helena McCowan is also numbered among us.

The question debated last Friday was, "Resolved, that the reign of Louis XIV has been solved to France." Leader on the affirmative, Miss Elma Lockwood; negative, Miss Emma Courtney.

Mormonism has lately been discussed by the Eutaxians. The debate was a lively one. The decision was that this great source of corruption should be swept from the land.

Last Friday evening several of the Eutaxians assembled at the home of Miss Etta Cogwell, where the evening was very pleasantly spent in eating peanuts, making molasses candy, telling stories, etc.

It may be interesting to those who debated the Canada question to know the exact rates of increase of that country. In 1861 the population was 3,206,238; in 1881 it was 4,390,933.

We learn that Mr. McGee has been elected Laurean Editor. We heartily congratulate him and offer him our warmest welcome to this new field of action. We are deeply grieved to learn that some of the many trials of the editor have fallen to his lot. Already he has had to endure the calls of two Chinese gentlemen, three ladies and has been serenaded. But bear up brother Editor in these thy sad afflictions. Remember the day of reckoning is not far distant when some other Laurean, lured by the desire of glory and renown will fill thy place. Then go thou and do likewise unto him.
