

THE EUGENE CITY GUARD.

SATURDAY MARCH 25, 1882

Democratic County Convention.

At a meeting of the Democratic County Central Committee, held at Eugene City, March 24, 1882, it was ordered that the Democratic County Convention be held at Eugene City on Friday, the 25th day of March, 1882, for the purpose of selecting 25 delegates to the State Convention to be held at Portland April 3d; also to nominate a candidate for State Senator, 4 candidates for Representatives, 2 candidates for County Commissioners, 1 candidate each for Sheriff, Clerk, Treasurer, Assessor, School Superintendent, Surveyor and Coroner, and for the transaction of such other business as may come before the convention. It is recommended that the previous convention be held Saturday, March 25th, 1882.

The Convention will

The County Convention.

Before our next issue, the Democracy of Lane county will have placed their standard bearers, so far as the county is concerned, in the field. It is to be hoped that the convention will act wisely, and put forward men for the different positions, whose reputations for honesty and qualifications for the positions to which they may be called by the voice of the people are unquestioned. The legislative portion of the ticket, especially, should be filled by men with broad views and with some business experience. Besides the election of a United States Senator, which is political, they will be called upon to pass on measures which will materially affect our future prosperity both in county and State. It is not only essential to have men who if elected, will vote right on those questions which so materially affect our interests, but their capabilities for personally promoting and influencing legislation should be considered.

In the selection of men for county office fitness should be specially considered. The affairs of the county should be honestly and economically administered, and to obtain this result, in which all, irrespective of party are interested, the candidates for county commissioners particularly should be men of firmness, capable, and willing to conduct the business of the county as carefully and cautiously as they would their own.

The sectional issue which is so often used to influence delegates by designing and intriguing men should have no weight with the convention. Often times a weak man, who is certain to be defeated, will be nominated because by accident he happens to live in a certain locality, while a candidate who could be elected is passed by and discarded for the same reason.

The absence of strife and bickering between the candidates is a favorable omen. No personal feeling is observable, and we believe that when the candidates are nominated the defeated, aspirants will stand up firm and true to the nomination. The county is nearly evenly divided, and to insure success harmony must prevail.

While the State Democracy are casting about for men to fill the various offices, we would advise them that Lane county has a man, who if nominated, would carry the confidence and support of the party as nearly as any man in the State. He can point to nearly twenty years of service to the State and county in positions of trust and honor, during which time no charge could be made which would affect his honesty and integrity in the least. He has been thoroughly tested, and with his ripe experience in public affairs, and unquestionable character, would fill the position of Governor to the satisfaction of the people of the State. Nothing or danger could control him. We refer to Hon. R. R. Geddes.

Our correspondent X offers some good suggestions to the public. The assessment and tax question is one in which every good citizen is vitally interested, and in the interest of justice and the promotion of morality, no one should be allowed to escape, by perjury or subterfuge, the payment of his just proportion of tax. The people are getting more and more independent every year, and it behoves the two parties to be careful that neither honest, competent men are brought forward to fill the various offices of trust within the gift of the people.

TERMS

EDITOR GRANT—Recently the Anti-Monopoly League of Lane county passed, in Eugene City, a series of ten points, and to every impartial mind, wise and just resolution; but there is one subject to which they seem to have paid no attention and that is of the most vital importance and one to which the rich and moneyed men of the community seem to be perfectly willing that the producing classes should enjoy a monopoly, viz: that of paying taxes; to this they really offer no opposition.

The recent expose in Portland of one of Oregon's oldest and most wealthy citizens, who had his assessment raised

told upon investigation, and the belief that persons of wealth suffice and risk the rendering of a true and real valuation of their property, shows that this question should be agitated. When we see men assessed at five or ten thousand dollars, and living in his personal and family expenses at a rate of one with five thousand, we know that in all reason that there is something wrong both to himself and the assessor. How long ago was it that in an investigation in San Francisco it was proven that the assessor furnished blanks to the banks, letting them fill them out as suit themselves, and was given a gratuity for his compliance? Here in this State a company who has done business for about 15 years, and advertises that it has loaned over \$5,000,000, if the writer recollects rightly pays taxes on only \$80,000. Foreign capitalists come here and leave their money, and by hook and crook avoid paying anything to support the State, leaving all the burdens to be borne by the resident capitalists and the producing classes. Now does not all this need reform? Is there not more ground for demanding a change in this than in any other respect in our State? This is a matter that belongs alike to the Republicans and Democrats in the interest of good government.

Let our county commissioners be men who will see to it that the assessor does his duty, that he assesses every man to his assessment, that no shifting or shifting of property around temporarily is allowed, and that the records of the county be examined by the county clerk to see if they agree with the assessor's assessment, and that when a party swears it is all he has in any way, directly or indirectly, under his control. Let candidates for the Legislature be nominated by both parties pledged to the enactment of a most exacting and accurate assessment law. Let the Anti-Monopoly League and the Grangers throughout the State take this subject up, and then instead of a total assessment of the State of \$90,000,000 we will have nearer \$25,000,000 to be taxed. The farmer, merchant, mechanic, and all others will not then pay more than one-half their present tax. Look again at California where under the new law several wealthy citizens pay now \$300,000 in taxes a year each. Let the people in our approaching conventions take this matter into account; let none but men of high personal character and good business qualifications be nominated for commissioners, and let the assessors be men well known for individuality of purpose, fair education, and good commercial sense, and not be nominated because they happen to live in a certain part of the county, or are good looking, and when a good officer is once found who discharges his duty well to his county, why keep him in his place.

X.—Democrats, if you wish to see a good ticket nominated go to the primary meetings to-day and select competent delegates.

THE Chinese bill passed the House yesterday by a vote of 167 yeas to 63 nays.

Garrison was offered \$1,000 for the suit he won when he shot Garfield, but refused, claiming that they were worth \$1,500. This is demoralizing.

He Knows Whereof He Affirms.

Santa Rosa, Cal., Dec. 4, 1882.
H. H. Warner & Co.: Sir—I have heard your Sale Catalogue and Letter-Card, and find it all you claim for it is fully true. E. T. PARKER,
President Santa Rosa Bank.

STOP THAT COUGH.

If you are suffering with a Cough, Cold, Asthma, Bronchitis, Hay Fever, Consumption, loss of voice, tickling in the throat, or any affection of the throat or lungs, see Dr. King's New Discovery for consumption. This is the great remedy that is saving so much trouble to its wonderful users, curing thousands of hopeless cases. Over a million bottles of Dr. King's New Discovery have been used within the last year, and have given perfect satisfaction in every instance. We can unhesitatingly say that this is the only safe cure for those and lung affections, and can only recommend it to all. Call at 111½ Main Street, or a regular druggist for it. For sale by F. M. Wilkins, the druggist, Eugene City. Manufactured, Junction City, Oregon. Santa Rosa, wholesale agents, Parker, Parker & Co.

RELIEVE

WILL STAND THE SEASON OF 1882
at value. MEDICAL, MINERAL and
DENTAL, PHARMACEUTICAL, Veterinary and Therapeutic;
EUGENE, Physician and Surgeon, Dentist,
Manufacturers April 20th and ends July 1st.

TERMS.
