Probable Suicide.

James F. Brown, Justice of the Peace of Dallas Precinct, says the Dallas Itemizer, was found in his bed on Thursday morning in an unconscious condition and died soon after, notwithstanding vigorous efforts were made by Dr J N Smith to resuscitate him. Mr Brown had for many years been a sufferer from asthma and had been in the habit of using chloroform in excessive quantities. He had suffered more than common of late and had used such a great quantity of chloroform that the doctors of this place had refused to prescribe it for him any more. On Saturday last he went to Salem and on Tuesday he obtained a prescription from Dr H R Holmes and had it filled at a Salem drug store. He returned to the drug store soon after and told the druggist he had broken the bottle and wished to have the prescription refilled. He came home on Wednesday and when he was found on Thursday morning the vials obtained in Salem were found by his bed empty. Dr T J Lee, Coroner, was sent for and held an inquest, but the jury were unable to determine whether he had taken the medicine with suicidal intent or not. Brown lived in Eugene a number of years, at first keeping a barber shop, afterwards practicing law and filling the position of Justice of the Peace. He was known as a peculiar but inoffensive German, and was a widower without any known relatives on this coast. He left Eugene for Dallas about four years ago, and at the time of his demise was about 60 years of age.

The Sky.

The astronomers are keeping a close watch on the new comet. It is a total stranger and nobody knows what to expect from it. Every effort to identify it with any previously seen comet has failed. It is now within four days of its perihelion, although it is not yet visible to the naked eye. Venus will be, in the Summer, a beautiful telescopic object, exhibiting the phase of a crescent moon and shining with extraordinary splendor. She is now swinging around on this side of the sun, preparatory to her transit across his disk in December, which is one of the most important of all astronomical events, and for the observation of which various governments have already begun to prepare expeditions. The astronomers have been preparing for it for twenty years, as it will be the last transit of Venus before the year 2004. DEAD.—The Walls Walla Union of the 13th says: "News reached the city last evening of the death at Elmira, New York, of Minnie Myrtle Logan. Mrs Logan was formerly the wife of Joaquin Miller, the poet of the Sierras. She was on a lecturing tour in the Eastern States at the time of her demise. Her death was caused by a severe cold, which settled on her lungs. Mr Logan is at present a resident of Walls Walla, W T." In speaking of her a few days since, a New York correspondent said: "She wrote poetry after he left her (Miller), then lectured, then married Mr Logan, but life has been too severe for her and she has succumbed. Miller still lives with his new wife, (nee Leland) but he never speaks of her to his friends, never acknowledges that he is married, always goes into society without her, and has never been seen with her even on the street."

Coyote Items.

Crops look fine since the rain. We gladly welcome Miss Lou Roah. Amos Ellmaker anticipates building a new house this summer. Mr L James has a new ditching machine. Quite an improvement in this part. Mrs R B Hayes and family have gone below to visit relatives. They will be gone one week. Miss Effie Ogden is teaching in the Ellmaker district and is doing exceedingly well for her first school. The literary society at Central school is a decided success, owing to the great ability of their president, Mr Chas Huffman. The school in the Thompson district bids fair to be the best one ever taught in that district, Miss Millie Thompson.

Live Stock on Farms.

We are in receipt from the census office at Washington, D C, of a bulletin containing a table showing the live stock of the United States on farms June 1, 1880, given by states. The figures of this state are interesting and we give them. The number of horses in Oregon was 124,107. Percentage of increase over 1880, 140. Number of mules and asses 2804, rate of increase 9 per cent. Working oxen 4031, per cent. increase 63. Milch cows 50,549, increase 24 per cent. Other cattle 332,561, increase 403 per cent. Sheep, 1,033,162, increase 230 per cent. Swine 153,122, increase 31 per cent. Rate of increase of population of Oregon for the same period was 92 per cent. As a matter of interest we append the totals in the United States. Horses 10,356,931, increase 45 per cent. Mules and asses, 1,812,941, increase 61 per cent. Working oxen 993,970, increase 25 per cent. Milch cows 12,443,593, increase 39 per cent. Other cattle 22,488,590, increase 66 per cent. Sheep 35,191,656, increase 24 per cent. Swine 47,583,931, increase 20 per cent. Increase of population 30 per cent. The above figures do not include animals kept by persons who do not own farms. MONEY RECOVERED.—In last weeks issue we gave the particulars of Mr Swearingen near Junction, being robbed of \$800 or thereabout by Frank Anderson, who served a term in the county jail here for perjury last year. After committing the robbery Anderson made tracks for Yaquina Bay, whither he was followed and caught by two men who had been employed by Mr Swearingen for that purpose. Anderson confessed his guilt and restored all but about \$30 which he claimed he lost and spent on the way. His captors had no warrant for his arrest and having got the money back, they concluded to release him, which they did. Anderson is a natural born thief and will not rest easy until he gets inside some penitentiary. ARRESTED.—A tramp was arrested Tuesday charged with indecent exposure of his person. He was given a trial before Recorder Callison, pleaded guilty and was sentenced to pay a fine of \$50 or to labor on the streets 25 days. Not having the requisite wherewith to pay his fine a chain and ball were attached to his leg and he commenced working on the street. MINSTRELS COMING.—We have received a note from F W Steehan, Manager of the New Market Theatre at Portland, stating that he would be here on July 12th and 13th with "Callender's Celebrated Original Georgia Minstrels." This combination is conceded by all professional people to be the finest minstrel company in the world. More fun ahead. SILVER WEDDING.—Friday of last week was the 25th anniversary of the wedding of Hon B F Dorris and wife; and a number of friends pleasantly surprised them that evening. They brought several pieces of silver service in remembrance of the occasion. The evening was very socially and pleasantly spent by those present. DELEGATES.—The following are the delegates elected from Butte Lodge, I O G T of this city, who have been in attendance on the Grand Lodge during the past week, at the Dalles: C A Wooly, J E Houston, Misses Hattie and Helen Boshnell. CAMPMEETING.—A campmeeting is in progress at the lower McKenzie bridge, six miles from town. It is likely that every spare mile in town to-morrow will be used to take people to that point. FOR RENT.—The building adjoining Ran in's Bazar. Inquire at this office.
