

CITY AND COUNTY.

BRIEF MENTION.

The county jail is empty. Cherry & Day, undertakers. Tobacco sold cheap at Bristow's. For good dentistry go to Clark. Goldsmith keeps the best cigars. Bring your chickens to Bettman's. Chickens wanted at Goldsmith's. Strawberries are a thing of the past. Warner's Safe Kidney and Liver Care. Six pounds of coffee for \$1 at Goldsmith's. Job work a specialty at the GUARD office. We have it rumored that a marriage is on the tapis. Nelson's restaurant will be sold at auction to-day. Nine pounds of good sugar for \$1 at Goldsmith's. Mr A Hunt has had the front of his shop repaired. New styles ladies visiting cards at the GUARD office. Seven cans of tomatoes for \$1 at Goldsmith's. You can get an imported or domestic cigar at Bristow's. A large lot of grain sacks just received at S H Friendly's. The health of this city for the past year has been splendid. Go see those nebbly bedroom suites at Cherry & Day's. Bettman will pay more for chickens in Cash than any one in town. Goods delivered to any part of the city from Goldsmith's. All kinds of cigarettes, cigars and tobacco at Bristow's. A fresh stock of groceries, cigars and tobacco at Ellison's. Eugene was unrepresented at the firemen's dedication at Albany. Prof Collier has carpenters at work remodeling his dwelling. The Kinsey planing mill machinery has all been shipped to Portland. You can buy a pound of very good tea for 37 cents at A. Goldsmith's. Gus Mickelthaler is building a small shop one door south of the GUARD office. The only place where you can always get your chickens is at Bettman's. The finest assortment of tobacco, cigars and cigarettes at Goldsmith's. Sheriff Campbell has had the county jail thoroughly cleaned and white washed. John W. Johnson of Junction, has sold his saloon to a party by the name of Major. Cash paid for CHICKENS, HILDS, TALL and BEEHIVE at Goldsmith's. Immense stock of crickets and glassware at greatly reduced prices at Goldsmith's. The mill company have had men at work at the head of their race sinking crib this week. D. Hyman will pay the highest market price in cash for hides, furs, tallow and beeswax. Cherry & Day will sell you a full size bedstead for \$2.50. Every thing else in proportion. Good timothy hay is selling at 88 per hundred. The flax crop is a little short this year. Better furniture, and more of it, and at lower prices than anywhere south of Portland, at Ream's. Prof John Straub was the recipient of a prize at the monthly drawing of Meliss Bros, Portland. We are under obligations to our old friend J J Walton Sr, for a fine lot of Royal Anu cherries. Master Charles Underwood fell on an ax, one day this week, cutting his leg near the knee badly. Seneoy Hill's cancer was caused by alcohol, which got into a blister on his tongue while he was smoking. A street crossing has been built across Wilamette street from Ream's shop to Jas McClaren's residence. We have just received several founts of new job type. For neat and tasty work, the GUARD job office cannot be beat. The turn table on the narrow gauge has been moved from Brownsville to Colburg and is now in running order. Mr. A. Goldsmith has just received one of the finest assortments of tea ever brought to Eugene City. Give him a call. Regular trains arrive at Colburg every Monday, Wednesday and Friday and leave said place on the intermediate days. You can get 3 cans of tomatoes for 50 cents, 1 can fresh peaches for 25 cents, and the best tea in town at F B Dunav. Mr S H Friendly will pay the highest cash market price for wheat. Give him a call before selling your grain elsewhere. All should remember who are in want of furniture to go to Cherry & Day's, as they sell cheaper than any other house outside of Portland. And still they go to Ream's for furniture. He is actually selling solid bend-back chairs at 81 each, so don't buy the old, rawhide chairs, but call and look at his stock. The Fenwick is the best washing machine ever invented. Every machine is warranted to give satisfaction, or money will be refunded. For sale by Robinson & Church, Eugene City Oga. Sherman's circus passed through this city, on the cars last Wednesday on their way to Portland, where they are playing to crowded houses. It will pay this city a visit in the time. A man who committed suicide in Portland recently is reported as having been "unmarried and eccentric." The eccentrics are chiefly bachelors. Nothing like marriage for knocking the eccentricity out of a man. A freight train will be run from Junction to Roseburg, leaving the former place Tuesday, Thursday and Saturday, and returning on intermediate days. We will still have to experience the delay in freight, it having to be run at Junction over night.

CRESSWELL BURNED.

Ten Buildings Destroyed—Loss About \$15,000; Insurance \$2,350.

This beautiful little village was burned to the ground last Wednesday morning. The only business house left standing in the town is the store of Mr N A W Howe, which was saved by hard work. The fire it is said caught from a defective flue, in the ceiling of the hotel building. The fire alarm was given by a lady in the hotel at about 10:30 o'clock Wednesday morning, when everyone rushed to the fire, but seeing it was impossible to save the hotel, or the block, they commenced removing goods from the doomed buildings; but only a small portion of the goods were saved on account of the scarcity of help, and the fire spreading and consuming the buildings so quickly. The amount of insurance is very small compared with the amount lost. Mr J T Gilfry had had an insurance for \$3,000 on his store, but it ran out the previous day at noon—only 22 hours prior to the fire. We heartily sympathize with the losers, and wish them better fortune in the future. The following are the names of losers and the amounts: J T Gilfry, store, residence and stock, also about \$200 worth of goods burned in the depot building, \$8,000. He saved \$1,500 worth of goods and his household effects. Belshaw & Martin, drugs, etc; loss, about \$300. No insurance. Mr Hunt, shoemaker; loss in stock and tools, \$50. James Bony, loss on building occupied as drug store and shoe shop, \$400. Spray & Thurston, hotel and grocery store; loss on building, \$600, furniture, etc, \$400, groceries, \$1200. Total, \$2,200. Insured in Firemen's Fund Insurance Co, for \$1,650. Farmer's warehouse, one-half owned by farmers and the other half by J T Gilfry, loss \$1,200. Mr Jas R Sellers loses 600 bushels of oats just stored in the warehouse and Messrs P C Noland and J T Gilfry, 150 bushels of wheat each. No insurance. Mr Robinett, stove shop; loss \$300. J P Gilfry, library stored in J T Gilfry's residence; loss about \$300. P C Noland, two small buildings; loss, \$300. Mr Dan Stanton's bar, about 400 yards distant from the town caught from the falling chimneys and was burned to the ground. It contained 40 tons of hay, a seed drill, hack, plows, etc. Loss, \$1,200. Insured in Firemen's Fund Ins Co for \$775. D B Trimble hay and horse burned in about 1000; loss, \$350. Mr Howe's stock of merchandise was damaged several hundred dollars by removal, and a small lot of clothing being burned by embers. O & C R R, depot building; loss, \$500. C M Reed had a fine telephone burned in the depot; loss, \$150. Henry Bristow, miscellaneous articles; loss, \$60. Mr James Thurston cut his face against a window glass during the fire, which was the only accident.

We understand that Mr J L Gilfry will rebuild at once. He has the hearty sympathy of every one who knows him, and will, in a short time, by his business sagacity and honesty, win his way back to his former position. NARROW GAUGE.—Last week the extension of the east side narrow gauge road from Brownsville south to Colburg on the McKenzie, was opened to traffic. It runs through the finest agricultural section of this county. The grade was nearly finished by the old Scotch company, and the road put in running order by the O R & N Co. A convenient and handsome depot has been built at Colburg and side tracks have been put in where necessary between Brownsville and Colburg. The train will leave the latter point at 7 A M and arrive at 4:50 P M.

CINNABAR MINE.—We take the following from an exchange, which will be of interest to many of the old stockholders of the mine: "The Oregon Cinnabar and Silver Mining Company have had their works, north of Oakland, Douglas county, in operation for the last three or four weeks, and on Friday of last week cleaned up operation of the condensers and obtained a yield of 500 pounds of quicksilver. This is considered a good yield, considering the furnace and retort were new and would have to be coated before any of the metal would go into the condensers."

BOY FOUND.—One week ago Monday, a blacksmith by the name of L B Jones was last seen in the evening, drunk. He went to sleep on the wharf and the supposition is that he rolled into the river. On Monday last his body was found about half a mile below the place he is supposed to have fallen in. The coroner of Linn county summoned a jury, who investigated the case, and, after hearing the testimony returned a verdict of accidental drowning. He leaves a wife and family living in Illinois.

COLT SHOW.—The colt show given at Stewart's livery stable on July 26th, escaped our memory last week. There was a fine lot of colts entered, and the following persons carried off the prizes: Milt Vaughn, 1st prize, \$15; Jas Heatherly, 2d prize, \$10; Mr Caffee, 3d prize, \$5. Messrs Kitchen, Blanton and Swift acted as judges.

PRESIDENT TENDER.—A Seattle paper says the regents of the University of Washington Territory have tendered the presidency of that institution to Hon L J Powell, superintendent of public instruction in Oregon. Mr Powell has accepted the position.

ACQUITTED.—The man arrested here by Sheriff Hogan, some time since, after a struggle in which he was shot, passed through Eugene's last Wednesday. He was tried at Roseburg and acquitted.

KICKED.—Mr James Bates last week was severely kicked by his horse just above one of his eyes, lacerating the flesh open for several inches, and bruising his face badly.

MARRIED.—At the St Charles Hotel, Eugene City, Oregon, July 16, 1882, by J R Ellison, J P, Mr J H Ranoom and Miss Jennie Davison; all of Lane county.

Colfax Burned.

At 1 A M, Friday morning, July 7th, a fire broke out in Osborne & Co's agricultural warehouse, and by 4 A M, the entire business portion of Colfax and a large part of the residences were in ashes. Fifty-eight business stands were consumed, including every store, two hotels, three banks, the Democrat office, owned by Geo J Buys, formerly proprietor of the GUARD, and two livery stables with seven horses. The Gazette office was saved. Twenty-three dwellings were destroyed and Colfax is virtually in ruins. The fire is the work of an incendiary. Few, if any goods were saved from the buildings or dwellings. The fire swept the city like a tornado, taking brick and frames alike. The U S land office was burned with all the records. Those in the safe are thought to be saved. The money and papers of the bank were saved. The latest reports give the loss at about \$250,000 and the insurance at \$150,000. Many of the losers are disheartened and say they will not build, while others already have commenced to put the city on its feet again. The reports received from the unfortunate place are hard to get, and the only authentic one will not be received for several days yet.

The Lower Siuslaw.

Mr A S Patterson and E J McClanahan returned from lower Siuslaw Monday. Mr Patterson informs us that the Hayes party have constructed a good mountain wagon road for 18 miles, and that they are still working on the remaining 17 miles, which would bring the road to tide water. He says that the accounts of the country have not been overdrawn, and he was really surprised to see such a beautiful stream of water and harbor. If the \$2000 all ready appropriated by the county will not construct the road to tide water, we believe the county court should increase its appropriation to such an amount as will complete the road to that point, providing the amount shall not be over \$2,000. The county has over \$9,000 in the treasury and could well afford to appropriate \$2000 more to open up and develop that section of the county.

MAIL CONTRACTOR.—Mr Jas P Sloan, the new mail contractor from this place to Wilamette, Vanduy, Goburg, (all one and the same place), was up last week and put Wm Roach on the route. Mr Sloan is at present engaged in the R R hotel in Albany. He informed us that he will make an effort to have the route extended to Eugene City and increased to tri-weekly.—Disseminator. We hope Mr Sloan will be successful in his effort to increase the service and to have the route extended to this place.

RETURNED.—Messrs Edward and Wm Geary returned from the East this week. Ed has been at Philadelphia for the past year attending the American Medical College at Philadelphia, from which he graduated with high honors. We understand that he will locate at some point in the northwest to practice his profession. Woodson has been attending the West Point Military Academy, where he graduated about a month ago. After graduation he obtained a furlough for four months, and at its expiration, he will report for duty.

A FALLURE.—Well's comet has been a popular disappointment, first because it has not increased in brightness so rapidly as was predicted, and next because its most brilliant days will be spent so near the sun that the comet will be practically invisible. Some interesting observations have, however been made of its nucleus at the Dudley Observatory where the comet was bright enough to be detected in broad daylight. But as an exhibition comet the new visitor is a failure.

FIRE ENGINE ORDERED.—The special committee appointed by the council to purchase an engine ordered one from Waterford, New York, yesterday. It is of the well known Binton make, size No 2, and costs at the factory \$1,200, not including hose cart or hose. The committee expect its arrival in about six weeks. At last we have the prospect of being, in a measure, protected from the fiery element.

FISHERY.—Arrangements are being made by Messrs J K Woodmansee, G Webster and W A Cox to engage in the fishing business the coming season on the Siuslaw in Lane county. If time will permit arrangements will be made to can the fish, otherwise they will be salted. The fishery will be located at Mr Cox's place, about three miles above Florence.—Coos Bay News.

DISAPPEARED.—Quite a flutter of excitement has been occasioned in Harrisburg, by the disappearance of Mr B R Holt of that place about three months ago. It is rumored that a woman is at the bottom of the mischief. The Harrisburg paper need not be alarmed about his having been murdered, for he is alive and kicking in another clime.

ADMITTED TO PARTNERSHIP.—Mr Geo S Kincaid, who has had the Journal leased from Mr H R Kincaid for the past two years, has been admitted as a full partner, and the firm will hereafter be known as Kincaid Bros. We wish the new firm success, as both the proprietors are affable and courteous gentlemen.

HARVEST.—Self-binders are running this week in different parts of Lane county. Headers will not be able to get to work much before the 1st of August. A good yield is now assured, and if prices are good for grain, they will be better than for years before.

Personal.

Mr G W Crawl paid Portland a short visit this week. Mr McFarland, of Albany, has been visiting in our city this week. Mrs E L Bristow of Portland, is visiting friends and relatives in this city. Mr T J Cheshire and family have gone to Yaquina Bay on a pleasure trip. We learn that Mr J E Fenton will soon locate here for the practice of law. Miss Kaufman, of Portland, is visiting at the residence of Mr A Goldsmith. W H Alexander, who has been in Wasco county during the past winter, is in town. Miss Mary Test has gone to Europe for the purpose of continuing her studies in music. Jason Owens leaves for east of the mountains next week, where he will spend the coming Summer.

Mr Charles Laner and family left Wednesday for Clatsop Beach, Clatsop county, where they will spend several weeks. Messrs A Van Dusen and Geo M Rowe, of Astoria, were in town this week, but have now gone to the McKenzie Springs. Hon F I B Ping, U S swamp land agent, and Dr Chas Whiteaker, State agent, left this city Thursday for Coos Bay, where they have several months work. Ex-Sheriff Shelley left for the Dallas one day this week to visit his father, who met with a serious accident by being run over by a sprinkler wagon, some time ago.

Geo B Dorris and family, Samuel Swift and family, Miss Linn, Miss Ella Kenyon, Mr Isaac Yukum and Geo Scott, left last Monday for a short trip to the beautiful McKenzie. Mr Geo Hoyt, of Portland, who graduated at the last commencement, is in town. Since he went home last month he has been constantly sick and he comes here to see if it will benefit his health. He says that he already feels some better.

Messrs Robert Hayes, Dave Rice and Dr Johnson, of Junction, left last Wednesday for east of the mountains on a general hunting tour. When they return we may expect some huge stories from that aged man, Dave Rice. We regret to hear that Mr J B Endwood is still confined to his room and bed, by a severe illness, with no marked change for the better. He has been confined to his bed some six weeks. Ben has a host of friends who sympathize with him in his misfortune.

Dexter Items. [The following items were sent by some of the "railway men" employees to Empire City Coos county, hence the unavoidable delay in their publication.] DEXTER, July 10, 1882. H Tilton is our mail carrier. Blackberries are plentiful and large size. A large porcupine was killed near here recently. Mr J A Pringer and family are here from Chewaucan.

A great many persons intend going to Kitson's springs. Mr John Drury came very near being drowned in trying to ford the river. He reached the shore but lost his horses. Mr E B Hunaker and Mr Robt Linder have returned from Spokane Falls. Mr H has sold out his interests at Spokane and will return here soon.

A O U W ELECTION.—The following officers were elected for the ensuing year by the grand lodge of this order at Olympia last week: J A Child, of Portland, Grand Master; C M Bradshaw of Port Townsend, Grand Foreman; W S Wright of Victoria, Grand Overseer; Robert Newcomb of Portland, Grand Recorder; I R Moores of Portland, Grand Receiver; T C Taylor of Walla Walla, Grand Guide; Chas McDermott of Port Madison, Grand Watchman; T C Van Epps of Olympia, W D Hars of Hillaboro, and I W Case, of Astoria, Supreme Representatives.

CONVICTED.—Lewis Boggs, who is well known in this county, and who was in jail here several months for safe keeping, was convicted of stealing a horse by the circuit court held at Roseburg last week, and sentenced to a term of one year in the penitentiary by Judge Bean. Sheriff Furlon, of Douglas county, passed through Eugene Saturday with Boggs en route to the penitentiary.

HOUNDS SCARE.—We have heard of at least twenty persons wanting to rent dwellings during the past week. All during the summer there have not been more than two or three unrented houses in the town, which is certainly a good showing for this place. A number of small cottages would be a profitable investment and would be of much benefit to the town.

The trout liar is the gem of all fishers; He is the saddle rock liar; a moose among antelope; Hyperian to a satyr, he is the long tailed comet among the quiet twinklers. All men cannot be trout liars. The trout liar must be born with a peculiar fitness, for the task, and then he must be educated to it, and devote himself to trout lies as a life work.

FOR THE EAST.—Prof T F Campbell, Prince Campbell, and Miss Mary Stump, of Monmouth, and Miss Reubie Spiller of this city, leave on the 23d for the Eastern States. Prof Campbell goes in the interest of the Christian College, and his son Prince to attend Harvard, while Misses Stump and Spiller go to Wellesley College. Last week he offered \$57.50 to James Luper. The note was dated the 10th of July, 1882. The finder will please return it to the undersigned. J. B. WILLIAMS, Junction Coos.

PERSONAL.—If the period of 1082 the gold chain out of the bureau drawer at Dr. John Nicklin's house, will return it she will not be exposed. Hop buyers are offering at present, 25 cents per lb. A good price.

An Old Man and Pioneer Gone.

Died, July 9, 1882, in Spencer precinct, near Long Tom postoffice, Edward Neeley in the 57th year of his age. The subject of this notice deserves more than an ordinary obituary line, as he had lived under the administration of every president of the United States and was a western man by birth. There are very few western born men, who have lived, as Mr Neeley did, contemporaneously with Presidents Washington and Arthur. He was born in Washington county, Kentucky, October 25, 1795, when the state of Kentucky was but three years old. In 1823 he married Ruth Miller in Simpson county, Kentucky, with whom he lived fifty-nine years, or until his death. In 1826 he removed to Missouri, thence to Illinois where he lived some four years, returning to Missouri, he lived there until 1854 when he crossed the plains to Oregon and settled in this county, where he remained until his death. Mr Neeley was a modest, quiet and intelligent man, conversant with the history of our country and times, a fair scholar, considering that he was born and had lived from his birth on the frontier. He leaves a widow, and eight of eleven children—seven sons and one daughter—living, with thirty-three grand children, all in Oregon, to mourn his loss; to cherish his memory and perpetuate his name!

A Venerable Matron.

Died, in Richardson precinct, Lane county, on July 5, 1882, Mrs Sarah Hinton in the eighty-ninth year of her age. Mrs Hinton was the daughter of Daniel Richardson, and was born near Richmond, Virginia September 15, 1793. Her father with his family removed to Kentucky when she was quite young and shortly afterward to Missouri, returned to Kentucky, and finally to Missouri in 1806, where he continued the remainder of his life. Mrs Hinton was married to Clayton B Hinton, March 22, 1811, in Franklin county, Missouri, where they lived until 1852 when they came to Oregon overland. She has been a widow since August 15, 1856. She was one of a family of nineteen brothers and sisters, eight of whom lived to maturity and reared families. She was the mother of eleven children—five sons and six daughters. Nine of these lived to have families, and at her death she had 64 grandchildren, 43 grand children and seven great grand children—most of them are living in Oregon.

The deaths of two persons within a week in succession, and almost in sight of each other, of such great age, is a circumstance worthy of note. When these old people were born the Mississippi river was the eastern boundary of the United States, and a military chief, after having been named, was unborn, yet he lived a long useful life, filled the measure of time allotted to him, and a long trail of posterity and passed away years ago.

We copy the following from the Dallas Itemizer: "Mr Kratz, of the firm of Kratz, Washburne & Co, of Dixie mills, was in town this week and made us a call: From him we learn that their new warehouse, which has a capacity of about 100,000 bushels, is nearly completed and will be ready for the reception of this season's crop. The survey has been made for a track to connect their warehouse with the railroad, which will greatly facilitate their means for doing business. They expect to purchase wheat and do a general storage business."

By the new criminal code for the State of New York, swearing is punished by a fine of \$1 for each offense and the utterer of a profane oath in hearing of a magistrate may be sent to jail for ten days. If such a law as this were rigidly enforced Oregon our State debt would be paid in a week.

TO MILLMEN.—Oh type for rabbit meat for sale at this office.

FOR RENT.—The building adjoining Rankin's Bazar. Inquire at this office.

Railroad Work.

Work on the extension of the railroad south is being pushed forward with all possible dispatch. There are now employed on the line between Roseburg and Redfield, sixty-five miles south, something above 4000 Chinamen and not a minute is being lost from work on the grade. The grade is finished or very nearly so to the head of Cow Creek Valley, there being nothing left undone between here and there except a small amount of light grading, and the work of completing the bridge across the South Umpqua at Myrtle Creek. When this is done the roadbed will be ready for the ties and rails to a point nearly 40 miles south. All hands except a few that are needed to finish up this side, have been moved up to Cow Creek canyon and are hard at work on the grade, rock cuts, tunnels, etc., and some too, are making a temporary road through the canyon, that will be used by the company for light work during the process of construction. It is not expected that the bridge at Myrtle Creek will be done before the 15th of September, and by that time work in the Canyon beyond which the is very heavy, will have advanced so that the graders will be able to keep out of the way of tracklayers, until Redfield is reached, as we said before, 65 miles south where they will hang up for the winter, in consequence of the tunnel work stopping them. The track is now laid to within a few miles of Myrtle Creek, and will be there in a few days which is 22 miles south of Roseburg. The work of ballasting has begun and by the time the track is ballasted to the bridge on the South Umpqua, that structure will be finished and the work of tracklaying will go on without interruption until Redfield is reached which we are informed will be, as per the company's intention, sometime in October.—Plainsdealer.

How to Build Up a Place.

An exchange has these words of advice: Speak well of the place where you live; if you don't nobody else will. Encourage all public enterprises, and if necessary go down in your pocketbook to help foster them. Use your utmost endeavors to have good schools, but do not expect them to come to you without an effort. Patronize every man who is trying to build up a business in your midst—for it is like bread cast upon the waters. Consider the cost of improving your town in appearance, as a private investment. For in the long run, the benefits of the improvement of thrift, you can count on them as a private investment. Every cent spent in improving a town will come back to you, and you thus build up an enterprise that has the general good at heart. Nothing speaks so well of the prosperity of a place as the healthy appearance of your local paper.

Notice to Citizens of Cottage Grove. The proprietors of the different business houses of Cottage Grove, hereby give notice that hereafter their places of business will be closed on Sundays after August 6th. Persons wanting will please call during the week. Dor.

Foley Springs. These healthful and medicinal hot springs have been purchased by Mr Peter Runey late of Astoria. Mr Runey will thoroughly refit and renovate the buildings on the premises, and will be prepared to accommodate those in quest of health or pleasure. Fish and game are plentiful in that vicinity, the scenery is magnificent, and those wishing a summer tour could go to no better place.

ATTENTION!

NEW FURNITURE & UPHOLSTERY

J. R. REAM, Corner SEVENTH and WILLAMETTE STREETS, Eugene City, Oregon.

JUST RECEIVED FROM THE FACTORY A large assortment of the latest styles of Furniture and Upholstery, consisting of fine
