The army worm causes great loss, the whisky worm causes greater loss, but the most expensive of all is the navy worm. Water kills, the first and ruins the second, but the navy worm thrives upon it, and in this country seems to get on equally well in ships rotting on the ways, or bumping against other vessels at sea, or at anchor with barnacles inside and out. Robeson is the King of navy worms, as the worming of millions out of the Treasury proyes. Neither whisky nor water apparently overcome him.

Hon. S. S. Cox, in a recent speech on the tariff, said: "I favor, openly and boldly, the entire abolition of the cumbrous, corrupt and spying system of the internal revenue. It is not necessary to say that its officers pursue the voter into his cigar and tobacco shops, and into stills, breweries and factories with threats, and it has its army of 5,000. Worse than the janizary or the marmaduke, it undertakes by its occult machinery to intimidate and defraud. Away with it! Every speck of it on our body politic is a cancer. The Democrats will have the plan adopted by the dominant party to allow no reduction. The surplus is to be piled up year after year and this is the issue we are to meet."
