Junction City Items.

JUNCTION, July 20, 1882.

The city council has ordered all thistles within the limits of the city cut down. James A. Bushnell and R. V. Howard will soon be prepared to receive on storage the coming crop.

It will take 100,000 shingles to cover R. V. Howard's new warehouse, which he has let to contractor at \$1.00 per thousand. Johnnie Williams has sold his saloon to John W. Majors, and expects to go to eastern Oregon or Washington Territory.

The camping ground at Smithfield was a success so far as numbers was concerned, but on account of the near approach of harvest closed on Monday. Our well-known hotel keeper, J. H. Berry, who was burned out some time ago, now intends to erect another on the same site just as soon as he can get building material.

Bureau of Immigration.

PORTLAND, July 20, 1882.

To the Producers of Oregon, Washington and Idaho: This Bureau desires to make a full collection of Agricultural Products from the harvest of the Pacific Northwest for 1882. For this purpose, the request is made, that specimens of grain in the sheaf and in the berry, native and cultivated grasses, and all sorts of fruits and vegetables, be delivered at any railroad or steamboat station throughout all this region, addressed to the 'Bureau of Immigration, Portland, Oregon,' and they will be promptly forwarded by the agents of the railroad.

Receipts of specimens will be duly acknowledged. Each article should be labeled with its name, yield per acre, name and postoffice address of the sender, so that due credit can be given. Hoping for a general response that will make it possible to prepare an exhibit that will do justice to the agricultural resources of this grand region.

I am, very truly yours, PAUL SCHULZE.

A MYSTERIOUS AFFAIR—Nothing has been seen or heard, says the Jacksonville Times of the body of W. C. Hendricks, who is reported to have been drowned in Rogue river recently. The impression is gradually growing stronger that the whole is a grand hoax to secure the insurance upon Hendricks's life, which is said to amount to \$10,000 in all.

SOLD OUT—We take the following from the Cheney, W. T. Sentinel, of July 6th, in regard to our former fellow townsman, Frank Harrington: 'W. H. Thompson, late of Hal-sey, Oregon, has purchased the interest of Frank Harrington in the firm of Davenport & Harrington and will at once assume the duties of manager of the new firm of Davenport, Thompson & Co. Mr. Harrington will remain in the house for some time, at least, and expresses his intention of permanently remaining in Cheney. He has been one of the most indefatigable of our business men, always at work enthusiastically for the interests of the town and people, and is entitled to a high position among the best men of the county.'

UNSTAMPED LETTERS.—The postmaster-general has issued an order that after July 1st, all letters without stamps, or with insufficient postage, shall, instead of being sent to the dead letter office, be held by the postmaster, and the persons to whom they are addressed be notified that the letter will be forwarded on receipt of the proper amount of postage. This will work a hardship on many, whose letters will be delayed for a three-cent stamp, when they would gladly pay much more to assure prompt service. Better kick over the decision.

NEARLY BURNED.—The house on Perry Hyde's place above James Barger's, occupied by Wash Vaughn, was discovered to be on fire last Monday. Mrs. Vaughn was alone when she first discovered the fire then under pretty good headway in the roof, and she went to work to subdue it, and Mr. Vaughn soon arriving by their united efforts they succeeded in putting out the fire, but not until after it had consumed nearly one-half of the roof. A lucky escape but pluckily fought for.—Disseminator of July 15th.

HOPE.—We understood that hop buyers are now offering 31 cents per bushel. Dr. A. W. Patterson informs us that hops look a great deal better than they did last year, therefore we are assured a large yield.

PURCHASED.—Messrs Chas Johnson and Chas Nelson have purchased the truck and delivery business belonging to Mr. John Stewart. The new firm takes possession the 1st of August.

DWELLINGS.—Mr W. T. Campbell will soon commence the erection of two small dwellings, which he intends to rent. We hope some of our other carpenters will do likewise.

Cottage Grove Items.

[FROM OUR SPECIAL CORRESPONDENT.] COTTAGE GROVE, July 27, 1882.

Harvesting in full blast. Business lively this week. Next Sunday will be the last Sunday that the stores of this place will be opened. Mr O T Knox is building a residence near the depot which adds to the looks of the place. The telegraph office in this place was closed Wednesday of this week. Operators here look rather blue.

Mr Johnson has purchased the butcher shop and lot belonging to L. B. Wharton, for the sum of \$210. Mr C E Byers, of this place, has bought the property belonging to Mr. Grigsby, for the sum of \$450. Mr. Grigsby will locate at Springfield. Dr. Bean, of this place, was somewhat surprised one morning this week to find the front door of his office tied tight and fast, so that he was unable to get out only by crawling through the window. In consequence of this fact he was unable to get his breakfast before noon.

State Penitentiary.

We take the following statistics from the Salem Statesman, concerning the Oregon State Penitentiary. 'In the first place there are 183 convicts in the penitentiary. Of this number Baker county has sent 3 Clatsop 11, Coos 2, Columbia 5, Clackamas 5, Douglas 9, Grant 3, Jackson 3, Josephine 1, Linn 6, Lane 5, Lake 3, Multnomah 73, Marion 19, Polk 5, Umatilla 10, Union 4, U S District Court 7, Wasco 7, Washington 1 and Yamhill 4. There is one confined under conviction of murder in the first degree, 14 murder in the second degree, 7 for manslaughter, 2 for assault with a dangerous weapon, 6 for rape and attempted, 11 for robbery, burglary 12, larceny and burglary 3, larceny 103, arson 1, forgery 5, counterfeiting 2, incest 1, violating section 2,139 R S., obtaining money under false pretenses 1, opening and taking letter from postoffice 1—and this makes up the total of 183. Fourteen are sentenced for life, 1 for two years, 2 for 20 years, 4 for 15 years, 1 for 12, 8 for 10, 2 for 9, 3 for 8, 7 for 7, 11 for 6, 39 for 5, 6 for 4, 21 for 3, 37 for 2, 1 for 18 months and 23 for 1 year.

The Correct Thing.

The blue glass craze has lately reached this city. It is worn on the eyes and affects both sexes similarly. Blue glass is said to have a tendency to make whatever is placed under it attain an astonishing size. It also greatly increases the imaginative faculties; so much so indeed that those who wear them at once rise in their own estimation, and they speedily imagine themselves to be several inches taller than they really are, while strange to say, it has exactly the opposite effect on the observer. Of course, weak or defective eyes are the only cause for using these disgusting optics, although some ill-natured and envious people do not fail to hint that they are worn simply for style, or because they are 'toxy,' when it is a well known fact that eminent physicians and oculists everywhere recommend them to be worn, particularly when the weather is cloudy or rainy, so as to modify the dazzling effect of the sun's rays.

Card of Thanks.

Cresswell July 20, 1882. EDITOR EUGENE GUARD.—Please allow me space in your paper to say to the citizens of Cresswell and vicinity that they have my sincere and lasting gratitude for their indefatigable exertions in saving my property from destruction by the fire which so devastated our village yesterday, leaving only my store and warehouse of the business part of our town.

BAD SIDEWALKS.—It would not be amiss if the city council would instruct the proper officials at its next meeting to see that property holders improve their sidewalks, which in many places are a shame and disgrace to our city, besides endangering life and limb of pedestrians. We heard of an old lady one day this week being thrown down by stepping into a hole in the sidewalk on Eleventh Street, and fainting from the effect of the fall, had to be carried home. This is a matter in which every one is interested and the Council should at once order the proper repairs to be made.

COLFAX TO BE RESULT.—Some one having suggested that the result of the Colfax fire will be to remove the town to some other place. The Palouse Gazette, published at Colfax says: 'Not a single man who was engaged in business in Colfax will go to 'Ealihoot or a more slightly location,' but all have decided to rebuild and houses are going up in all directions. The day after the fire property on Main street was held at higher figure than at any previous time, and although enormous prices have been offered, only three lots have changed hands. Think we'll give up the ship, do ye? Well, ye don't know us.'

ACCIDENT AT GOSHES.—Last Sunday three young ladies were riding out, when the saddle on which Miss Dora Dickinson, aged 15 years, was riding turned, her foot being fast in the stirrup strap. The sudden fall broke both bones of her left leg just above the ankle. Dr. T W Shelton of this city, was summoned soon as possible and carefully and skillfully set the leg and left the young lady in as comfortable a condition as possible. Mrs. Dickinson, with her family recently arrived from Surprise valley, Cal.

ELOCUTIONIST.—Miss Monroe, who was billed to appear at Lane's Hall last Tuesday evening, failed to give a performance, on account of the smallness of the audience. She gave a private reading at the St Charles Hotel in the evening, which was said to have been splendid. She was not advertised properly else she would have been favored by a fair audience.

PURCHASED.—Mr J F Walker of Cottage Grove precinct, purchased the Mose Saxon dwelling property on Seventh street, one day this week. The price paid was \$800. To MILLEN.—Old type for rabbit meta for sale at this office.

Squibs.

Young grouse are reported to be plentiful. King Henderson's surveying party is in the neighborhood of Camp McDermott, Nev. Prof Johnson has had teams at work this week hauling gravel to fill up his property on Sixth street. It is rumored that Humphrey & Hovey will build a brick building on the lot where the old restaurant stands. The State University commences this year September 11th. A larger attendance is promised than ever before. H. C. Humphrey, one of the few graceful riders in this place, fell off a horse one day this week, but luckily escaped injury.

Mr J L Gilfray and also Belshaw & Martin have commenced the rebuilding of their stores burned in the late fire at Cresswell. Preaching every Sunday, at the usual hour, at the Christian Church. Eld Whitney will occupy the pulpit till further notice. Sherman's circus has been playing in Portland during the past ten days to crowded houses. It will be here in about one month. The county court has decided to have the Court House re-arranged. Contractors should read the notice in another column.

Mr McGhee, who lives on the old Lemley place across the river, while mowing this week had his horse to run away, breaking up his mower badly. A crowd of young men one night this week 'amused' themselves by misplacing signs, breaking windows, and other devilment too numerous to mention.

Articles of incorporation for a new newspaper to be published at Salem, have been filed with the Secretary of State. Mr Roscoe Knox, of this county, is one of the incorporators. Several parties have rented houses this week a mile and a half from town, on account of being unable to procure any in town. Who of our enterprising citizens will build some small tenement houses?

A gentleman from the front of the N P R R states that the work of construction is being pushed with great vigor. The company have 6,000 men employed at present, and 1,500 horses. A dispatch from Cabinet Landing, W. T. says Jack Smith was blown to atoms on the morning of July 22 at Camp Thirty-One by an explosion of giant powder, and James Hogan had his right leg crushed.

We have just received and placed on sale a large lot of Dr Price's Cream Baking Powders. These yeast or baking powders are not inferior to the best in the market. Give them a trial. T. G. HENDRICKS.

The citizens of Cheney have formed a corporation with a capital of \$2,000,000 to build a railroad from Farmington through Cheney and Medical Lake to the Big Bend country. Mr H F Stratton, formerly of this city, is one of the incorporators. A petrified horn, measuring 3 feet 2 inches in length, and 10 inches in circumference, was unearthed at the Wimer hydraulic mines in Josephine county last week. It is probably an elephant's tusk. It will be sent to Prof Condon of the State University.—Jacksonville Exchange.

The salmon run in the Columbia has been very light this season, while the run in the Frazer has been enormous, several canneries having to take off a portion of their boats being unable to handle all the catch. The six canneries in the vicinity of New Westminster received not less than 45,000 salmon in one day. Medical Lake Salt is made from the pure water of Medical Lake, W. T. This salt is a cure for catarrh, rheumatism, piles, dyspepsia or any skin disease, and is free from pain or soreness. One box will cure any case of piles in from 10 to 20 days; catarrh in from 10 to 30 days; Skin diseases in from 5 to 20 days; Dyspepsia inside of six months; sick Headache in 5 minutes; Rheumatism in from 5 to 30 days. For sale by H B Middaugh, General Agent, who will be in town for several days.

The railroad hands on the O & C extension took possession of a gin mill at Cow creek, appointed two of their number bar-keepers and then treated each other until the slate was filled, and all the liquor consumed. The bona fide barkeeper who tried to assert his position was fired out in good order, and to keep him in good humor was robbed of a gold watch and eighty dollars in coin. No amount of argument can convince him that railroads are a benefit to the country.

The Calvary Presbyterian church at Independence will be dedicated Sunday the 30th inst, Rev Dr Geary, of Eugene City, preaching the dedicating sermon. The building is 30x45 feet very tastefully furnished and decorated. Rev Anthony Simpson, the pastor, was formerly pastor of Calvary church, Philadelphia, and in acknowledgement of former pleasant relations the latter church has presented the Independence church a handsome silver communion service.—Dallas Itemizer.

DESTRUCTIVE TO CHERRY TREES.—An insect known as the cherry slug is inflicting great damage on the cherry orchards in Clackamas county. It is a short, dark colored worm about a quarter of an inch in length. It attacks the foliage of the trees in great numbers and by eating the succulent parts causes them to turn yellow and wither, giving the trees the appearance of having been scorched by a fire. The orchards of Mr Seth Loelling and B Smith, near Milwaukie, have scarcely a green leaf left. The trees, says the Vindicator, do not seem to die but their growth is so retarded that it takes them a year or two to regain their vigor. There seems to be no cure for the pest, and there is danger of the orchards thus affected becoming entirely unprofitable, as the fruit upon such trees is almost worthless.

MARRIED.—In this city, Tuesday July 25, 1882, Mr E F Powers and Miss Vera Bowley. The happy couple left for Portland Monday.

Robert J and James Slater, sons of Senator Slater propose engaging in real estate business at Union. They are both excellent and enterprising young men and in every way worthy of public confidence. The Dorris, Swift et al mountain party returned to town. All the party look well except the handsome, single young man, who, judging from the appearance of one of his ears, must have been bally treated by the young ladies.
