Hon. J. B. Underwood Dead.

Mr. J. Benson Underwood, of this city, died at his residence, on Thursday evening, August 3, 1882, at 6:30 P. M., of dropsy, after an illness of several months, but only six weeks confinement to his bed. Mr. Underwood was born in Canandaigua Co., N. Y., September 18, 1838, his age at the time of his death being 43 years, 10 months and 15 days. He came to Oregon in 1850, and settled with his mother's family in Douglas county. Desiring to study law he came to Eugene City in 1861, and he and the late J. M. Thompson both engaged at the same time in reading law with the late Hon. Stukely Ellsworth. In 1863, Mr. Underwood was admitted to practice law, at once formed a partnership with Mr. Ellsworth, which continued until 1865. In 1866, he formed a partnership with Hon. G. B. Dorris, which continued until 1868. Mr. Underwood held many important positions of trust during his lifetime, and was never satisfied at being idle. He was elected school superintendent of Lane county in 1863, was elected to the legislature in 1865, was a partner in the Springfield Milling Co. for many years and also engaged in merchandising with the late Judge Stratton at one time, and Mr. S. H. Friendly at another time. He then became a partner in the Eugene Milling Co., and also engaged in merchandising with Messrs J. G. Gray and T. W. Osburn. Upon the election of Grant to the Presidency the first term he was appointed Postal Agent for the Oregon Division, which position he held for two years. He was twice elected President of the Common Council of Eugene, and several times a member of the Council. He was one of our most enterprising, public spirited and liberal hearted citizens, and took a lively interest in every proposition to advance the welfare of our city, which fact will make his death a great loss. He leaves a wife, three daughters and one son to mourn his death. The deceased was a Mason of 20 years standing, and was buried by that order at 3 P. M. yesterday, the business houses remaining closed during the funeral.

Cottage Grove Items.

[FROM OUR SPECIAL CORRESPONDENT.] COTTAGE GROVE, August 27, 1882. Harvest in full blast. Messrs Curran Osburn, Aaron Lurch and A. H. Spare took a pleasure trip to the mountains this week. Our old friend Joseph Moore paid us a flying visit this week, and met with many old friends. Come again Joe. Next Sunday will be a poor day to come to town for goods, as all the business houses will be closed under any and all circumstances. Martin Brox has sold the hotel in this place to J. V. Thornton, of Creswell. Mr. Thornton took possession Wednesday of this week. Success to him. Mr. R. H. Hazleton fell from his harvester one day this week, by his team running away, cutting his head severely; and is now lying dangerously ill. It is thought, however, he will recover with careful treatment. Dur.

Smith, W. V. T.; Annie Midgely Secretary; Sarah Bushnell, F. Sec.; Hattie Bushnell, Treas.; Mrs. Norris, Chaplain; Bertha Cook, Marshal; Lizzie Hammond, I. G.; Frank Rankin, O. G.; Geo. Smith, P. W. C. T.

SUMMER RESORTS.—During this season when everybody has himself to some cool and shady spot, the poor printer is forcibly reminded of the burdens of existence. While others are basking in the shade of some friendly tree, or sporting with the trout who has attached himself to a "fly," he is securely imprisoned inside his office, and counts with anxious thought the click of the type, for fear at the next moment some typo with no fear of the hereafter would raise the cry of "copy." Thus day follows day, with no hope of release, but we are assured that in the "sweet bye and bye" the wicked will cease from troubling editors, and this persecuted class shall be at rest. So mote it be. Netah:

BARN BURNED.—A barn belonging to Mr. Albert Hendrick, on Pleasant Hill, burned Friday night, July 28th. It is not known how it caught, as no one had been near the building for several days, but it must have been the work of an incendiary. In the barn was stored about 15 tons of hay, a seed drill, etc.; his entire loss being about \$1500, with no insurance. Luckily Mr. Hendrick had just moved his thrasher and reaper to another barn.

A GOOD SUGGESTION.—It is proposed by several that the city purchase or rent the old Humphrey livery stable on Willamette street for an engine house, council chamber, and hope the council will take kindly to the proposition, as it is the most centrally located building that can be secured.

MOVED.—A general move was indulged in by several of our citizens this week. Mr. Bilyen moved into the office in Underwood's brick formerly occupied by Geo. M. Miller. Mr. Taylor, dentist, secured the office vacated by Mr. Bilyen, and Mr. Miller moved into Mr. Taylor's old office.

LAKIN'S STABLE.—Mr. D. R. Lakin has purchased the Titus stable and is thoroughly refitting the buggies and restocking the stable. If you want a good turnout give him a call. See advertisement in another column.

NEW BRICK BUILDING.—Mr. H. C. Humphrey will build a brick building this summer on the ground where the old restaurant building stands. Messrs Lynch and Page have rented the building and will move into it as soon as completed.

From Florence.

(Corvallis Gazette.)

Thinking that you would like to hear from this, at present rather isolated place, I will say for the benefit of those seeking homes, that notwithstanding quite a rush here of late, there is room for more settlers on government land. The lands along Tidewater are mostly taken, but up the streams which put into the Siuslaw river there are good bottom lands usually covered with alder and salmon brush easily cleared. The bottoms along the streams will average about 1/2 mile wide, the hills adjoining are susceptible of being put into grass, which affords good pasture. The Siuslaw river is navigable for about 25 miles and the north fork about 8 miles. A cannery is now in course of construction with the intention of canning salmon this season. The fishing season commences here about the middle of August. A large steam saw mill is also talked of and will probably be built soon. A vast amount of good timber grows on the upper Siuslaw at Lake creek which can be easily run to any point down the river. A. R. BUTTOLPH, Florence, Lane County, Oregon.

Lost.—Between Hixon's on the McKenzie and Eugene City, 1 gold locket with two photographs in it, 1 revolving breast pin containing two photographs; 1 gold pen and holder, all belonging to the undersigned. Finders will please call at the GUARD office. MRS. M. J. HAYES.

ESCAPED.—Young Boggs, who recently was sent to the penitentiary for one year escaped from that institution one day this week. One hundred dollars reward is offered by the prison authorities for his return.

BORN.—To the wife of A. W. Stowell, July 28, 1882, a daughter. The father is doing as well as could be expected under the circumstances.

RECENT APPOINTMENT.—Governor Thayer on Monday reappointed Judge J. J. Walton, of this city, a Regent of the State University. A good appointment.

State University.

We take the following from the annual report of the President of the Board of Regents Judge Deady:

RECEIPTS AND DISBURSEMENTS. The receipts and disbursements for the year, as appears from the report of the secretary and treasurer, were as follows:

RECEIPTS. Interest on university fund..... \$5,582 00 Appropriation by the state..... 1,875 00 Tuition..... 3,883 50 Incidental fees..... 1,158 50 Diplomas, sale of..... 160 00 Villard donation for Professorship..... 440 00

Balance on hand June 30, 1881..... \$13,099 00 Total balance of receipts..... \$13,514 76 Salaries in col dept..... \$7,000 00 Interest paid on same..... 32 99

Balance on hand June 30, 1882..... 8,243 12 WARRANTS. The amounts for which warrants were drawn by the secretary during the same period, is \$10,134 68.

SPECIAL FUNDS. In addition to the foregoing receipts there was deposited by Mr. Henry Villard on November 1, 1881, in the First National Bank, at Portland, to the credit of the treasurer of the regents as follows:

Apparatus, for the purchase of..... \$1,000 00 Prizes for the scholars..... 250 00

Total..... \$1,250 00 The treasurer reports upon these donations as follows: Expended for apparatus..... \$43 12 Distributed as prizes to scholars..... 250 00

Total..... \$293 12 Balance on hand June 30, 1882..... 936 88 \$1,250 00

SALARIES.

At the last annual meeting of the regents the annual salaries of the teachers were revised and fixed as follows: The president, \$2200; four professors in the collegiate department and the principal of the preparatory department \$1700 each making in all \$11000. But it is distinctly provided that the payment of the salaries depends each year upon the income of the school, so that if it proves insufficient to meet the current expenses and pay these salaries they must be reduced in proportion. Each year must pay its own way. In addition to this Prof Condon was allowed \$260 a year for the use his large and valuable paleontological collection. This "Shelby Library," as it may well be called, has been of much service in the school and attracted favorable attention to it from far and near, and it was time that some compensation was made to its owner for its use.

UNIVERSITY FUND.

The condition of the university fund on June 30, 1882, as appears by a statement furnished by the state treasurer was as follows: Cash unloaned and on hand, \$23,732 12; loaned on 31 notes and mortgages, \$38,342 13; total, \$62,074 25, interest due loans, \$3,967 96. From one to three years interest is due on some of these notes; and there is a year's interest, within a few dollars, due on the whole amount loaned, while the law under which the loans are made requires the interest to be paid semi-annually. For instance a loan of \$800 made on April 14, 1871, has \$242 22 interest due on it—more than three years.

On June 30, 1880, the interest due and unpaid upon the sum loaned was \$1,813 77, less than one half of what it was at the same period in 1882.

It is also apparent that the rate of interest must be reduced, if this fund is to be kept loaned. On June 30, 1881, the amount unloaned was \$12,159 56, something more than a fifth of the whole amount; while on June 30, 1882, the amount lying idle was \$23,722, or more than one third of the fund. I therefore renew my suggestion of last year, that the rate of interest be reduced to 8 or 9 per centum, and that overdue interest bears interest at the same rate as the principal.

UNIVERSITY LANDS.

The grant of 72 sections, or 46,080 acres of land, for "the use and support" of the university, was made by congress in the act of February 14, 1850, (11 Stat 338) admitting the state into the Union.

From a statement furnished me by the clerk of the board of land commissioners, it appears that the whole amount of land has been selected and 45,046.92 acres listed to the state or approved by the department of the interior, leaving 1,033.08 acres not yet so listed or approved.

From the imperfect condition of the records of the earlier sales of these lands, the clerk was unable, in the time allowed, to furnish the exact report of the number of acres sold, but gives the statement approximately as follows: Sold acres (about)..... 29,000 00 Unsold, acres..... 17,086 92

These unsold lands he estimates to be worth \$1 50 an acre or about \$22,000.

Several tracts of land constituting the security taken in the case of some of the improvident loans above mentioned, have been bid in by the board at judicial sales, and are now held by them for sale. The clerk estimates their value at about \$7000.

The possible value of the university fund from these facts is as follows: Cash in the treasury..... \$23,732 00 Cash loaned..... 39,342 00 Land, unsold (estimated)..... 25,000 00 Lands taken on loan's (estimated)..... 7,000 00 Total..... \$94,774 12

Personal.

Mr. J. H. McClung and family left for Yaquna Bay last Monday. Jas. L. Page made a flying visit to Oregon's metropolis the first of the week.

Judge H. C. Humphrey and Saint H. C. Owens are in Portland this week. Judge R. S. Bean family are sojourning at the Grimes House, Clatsop Beach.

Mr. Joseph Moore and wife, of Washington Territory, are visiting in this city. Mrs. M. P. Spiller returned Monday from Salem, where she had been visiting.

The last heard of Wes Cherry and Geo. Kincaid they were at Sodusville Linn county. Aaron Lynch has returned from the McKenzie and things seem natural on Willamette street.

Assessor McPherson was in town one day this week. He informs us that he will not finish the assessment before the 1st of September.

Postmaster Patterson has been confined to his room several days by a breaking out on one of his arms, but at present is able to be at his station of duty.

We notice by the Prineville News that Mr. S. M. Titus and wife passed through that city recently on their way to Beaver Creek. That paper says Mr. T. is thinking of locating in Prineville.

Miss Annie Benner, of Jacksonville, who one time attended the State University, the Jacksonville Times says, has developed talents as an artist, and left for San Francisco this week to enter an art school.

Ex-Sheriff Shelley returned from the Dalles last Monday, where he went to visit his father, who was recently hurt in that city. The old gentleman is getting along as well as could be expected, considering his age.

Notice.

An examination of applicants to fill one free scholarship for Lane county in the State University, will be held at the Court House in Eugene City, Monday, September 7, 1882. The names of applicants should be submitted in writing. A. W. PATTERSON, County Superintendent.

Strayed.

The following described filly strayed from my premises about the 15th of July, 1882: A dark iron gray, with white nose, and about 3 years old. Anyone knowing of its whereabouts will confer a favor by dropping me a card in the Eugene post office, or informing me at my residence, 7 miles southwest of Eugene. EMILY F. BAILEY.

ARRESTED.—Jos. Bennett was arrested last Sunday for disorderly conduct. Recorder Callion sentenced him to five days in the city jail and costs of action. He was committed to jail and Monday night he tore the blankets into small pieces and smashed the tinware so that hereafter it is useless, and spent the remainder of the night in yelling. Tuesday night he reenacted the performance. Wednesday the Marshal moved him into a cell in the county jail, and that evening he set the blankets on fire and came near being smothered. When the fire was discovered the prisoner was found on the floor of the cell in a stupefied condition. Thursday a complaint was made charging him with being insane, and he was given in charge of the Sheriff. Judge Fitch is at the McKenzie Springs, but will return in a few days, when the prisoner will be tried on the above charge.

PATENT DECISION.—In the U. S. court Monday July 31st, Judge Deady rendered a decision in the case of Castleman vs. Jaskala, sustaining the Nelson Green patent on driven wells and the plaintiff's right thereto, and award \$150 to plaintiff and granting a perpetual injunction against infringement by the defendant.

CHAS. HORN and Mr. Drake killed 20 grouse one day this week.

Dexter Items.

DEXTER, Aug. 3, 1882. The drive of saw logs is started. Mrs. C. A. McFarland has sold her farm of 282 acres to S. Handsaker for \$2500.

Will Williams is just as happy as "a big sunflower;" cause—they have got a new girl and it weigh 11 lbs.

A carload of flour—the first—was shipped from the Dexter Mills recently; and our merchant sent several tons of bacon to Portland this week. More to follow.

"Old Moses," a very aged Indian, met a terrible end a few days ago. During the absence of his "dilliums" he fell into the fire, and when found, was burned to death.

Local Market Report.

Friday, August 4th, 1882. Wheat—83 cts., on board of cars. Oats—35 cts., nett. Flour—\$5 per bbl. Eggs—25 cts. per doz. Butter—25 cts. per lb. Sides—15 cts. per lb. Hams—15 cts. Shoulders—10@12 1/2 cts. Lard—15 cts. Hops—30@32 1/2 cts. Wool—23@25 cts.

VALUABLE CARGO.—The Wallacetown, now lying in the stream opposite the city, says the Astorian, will finish loading in a day or so. She has on board 72,000 cases of salmon. She will take on board 200 tons of flour forward to steady her. This salmon and flour aggregate in value nearly \$400,000. This is the most valuable cargo that ever left the Pacific coast. The vessel was chartered by Astorians, loaded at Astoria and of the \$400,000 which her cargo represents, \$388,000 is the direct product of Astoria. This is worthy of comment. The simple fact of a vessel leaving port with the most valuable cargo that ever set sail from any Pacific coast port is in itself an item worthy of chronic. The nearest approach in value, of any of which we are cognizant, was a vessel that left San Francisco about two years ago with a cargo of furs. Her cargo was worth about \$285,000, \$100,000 less than that of the Wallacetown.

CONFERENCE.—Bishop Hurst, who will preside at the Oregon Methodist Conference this year will be accompanied by his family when he comes to this coast. They will remain in San Francisco while he visits the conferences. He has gone from Salt Lake to Bozeman, Montana, where he is now holding the Montana Mission Conference, and from there he will come to Baker City, Oregon to Columbia River Conference, and then to Albany, Or, to the Oregon Conference. The Southern California Conference meets at San Luis Obispo, Sept 7, and from there the bishop will return to Oakland and hold the California conference Sept 20th.

PETITION FOR PARDON.—An effort is being made to secure the pardon of Chas. Sargent, who was sent to the penitentiary for five years for this county in 1860. We hope that the petition will not be granted as this is his second term, and if he should be pardoned again, it is more than likely that it will only have the effect of again compelling this county to incur costs in re-confining him.

HEARD FROM.—Mr. John Foster reports having seen Mr. B. R. Holt in Prineville on Thursday of last week, and that Mr. Holt was then on his way to bring in his horses, and as soon as he could do that—which he estimated would take him five days—he would return home. This settles the mystery in regard to the whereabouts of Mr. Holt and relieves all anxiety in respect to his personal safety.—Disseminator.

POSITION ACCEPTED.—Mr. S. W. Condon, of this place, went to Salem Wednesday where he has accepted a position in the office of Mr. R. P. Earhart, Secretary of State.
