CASH BASIS,

Which means that

Low Prices are Established

Goods delivered without charge to Buyer

ALL KINDS OF PRODUCE WANTED

For which we will pay the highest market price.

LYNCH & PAGE.

An Extraordinary Family.

Moretown (Vt) Letter.

James Herriman, whose wife presented to him four children at one birth received notice to-day from his attorneys at Montpelier that the Government (by way of encouraging his efforts to replenish the army) had granted him a pension with arrears of \$420. He says the pension was granted on the day of the children's birth, and he congratulated himself on a good days work, which he figures as follows:
Three boys, \$1,000 each.....\$3,000
One girl, \$500..... 500
Pension with back pay..... 420
Total.....\$3,920

Mr. Herriman is a poor man, dependent upon his labor, which is impaired on account of a wound he received at the battle of the Wilderness, for which he has now received a pension. His home is thronged by hundreds who go to see the babies, of which there are four ten days old and two sixteen months old. He has received already \$100 in presents and a cow from the neighbors and visitors. Mrs. Herriman is about thirty years of age. Her mother and grandmother are living near her. Her mother has also a large family. The private family affair of Mr. Herriman has created great excitement in this community, and persons come many miles to view the "litter" of children.

The Rush for Clerkships.

The rush for government clerkships is something unprecedented. By recent legislation nearly one thousand clerkships have been created, chiefly on account of the payment of pensions. Some eight hundred of these places are in the interior department alone, and that department is naturally besieged with applicants. It is said by Secretary Teller that he would not have a moment of time for public business if he should devote a minute or two to every individual who came particularly recommended to him. The only way is to shut them all out and let them file their applications. It is estimated that about 4,000 applications are on file already and more are coming daily. From Teller they flock to the pension office. Colonel Dudley has certain views on civil service reform, and one of those views is the apportionment of the places among members of congress pro rata as near as possible. When a large number of appointments were made in the pension office last year a great outcry was raised against Secretary Kirkwood because he appointed new men instead of promoting old clerks. The reason of it was that it was not considered that length of service carried with it the necessary qualifications, and the new men were appointed to positions where ability was required. The same rule will be observed this year to a large extent.

ALBANY FIRE.—A fire broke out on Friday evening in an unoccupied Chinese shop, Albany, near the corner of First and Washington streets, burning that and a saloon adjoining on the west and Dunning's furniture store on the east side. In spite of all efforts, the fire crossed at Washington street and burned the upper story of the St. Charles hotel, and ruining the entire building. The losses are as follows: Failing & Heies, \$2,000; Dunning on furniture, \$2000; St. Charles hotel, \$2500; Chinese shop and saloon, \$1,000. No insurance. The fire was the work of an incendiary. By the greatest effort the town was saved. Ten buildings caught on fire, which was put out with nominal damage.

The machine type-setter in the London Times office is a comparative failure. It does its work but breaks more than it saves. The manager, however, is very unwilling to acknowledge a failure, and sticks steadily to the use of the machine.

We notice that since a Pendleton paper publishes an account of Frank James being in Oregon, that all the papers have either copied it or said he had been in their town. What news this would be to Frank, and what a fool he'd would be to give himself away.

THE IMPENDING FATE.

An Interesting Chapter from the Life of a Prominent Bostonian.

Boston Globe.

The readers of this paper were more or less amazed at a most remarkable statement which appeared in yesterday's issue. So unusual were the circumstances connected with it, and so much comment did it occasion on the street and in social circles, that a representative of this paper was commissioned to investigate its details and verify its facts. The article referred to was a statement made by Mr. B. F. Larrabee, of the New York and Boston Dispatch Express company, whose office is on Arch street. Mr. Larrabee was found by the newspaper man in his private office, and on being questioned said:

"Well, sir, logically I have been dead, but really I am as you can see me. A little over a year ago I was taken sick. My trouble was not severe at first and I thought it was the result of a slight cold. Somehow I felt unaccountably tired at times although I took abundance of sleep. Then, again I had dull and strange pains in various parts of my body. My appetite was good one day and I had none whatever the next and my head pained me more or less much of the time. A while afterward I noticed much that was peculiar about the fluids I was passing, and that a sediment, scum and a strange accumulation appears in it. Still I did not realize that these things meant anything serious and I allowed the illness to run along until on the 28th day of October I fell prostrate while walking along Tremont street. I was carried home and did not get out of the house until the middle of December. I then went down town and attempted to attend to my business until the 13th of last January, when I was taken with a very severe relapse. My symptoms were terrible. I was fearfully bloated; I suffered severe pains in all parts of my body and it was almost impossible to get my breath. For six days I never laid down and never slept. I was constantly attended by my regular physician, Doctor Johnson, and Doctor Bowditch also came to see me nearly every day. There was no doubt that I was suffering from Bright's disease of the kidneys in its worst form and last stages, accompanied by other troubles in my liver and heart. In spite, however, of the skill of the physicians, I kept growing worse and finally they tapped my side in the vicinity of the heart, taking away forty-six ounces of water. This relieved me for the time, but I soon became as bad as before. Then the doctor gave me up entirely, declared I could not live more than twenty-four hours and my daughter, who was residing in Paris, was telegraphed. Still I lingered along for several weeks more dead than alive, but never giving up hope. One night—it was on the 20th of April, I very well remember—my attendant, attendant, who was reading the paper to me, began an article which described my disease and sufferings exactly. It told how some severe cases of Bright's disease had been cured, and so clearly and sensibly did it state the case that I determined to try the means of curing which it described. So I sent my man to the drug store, procured a bottle of the medicine, unknown to my physicians and took the first dose at 10 o'clock. At that time I was suffering intensely. I could not sleep; I had the short breaths and could hardly get any air into my lungs. I was terribly bloated from head to foot, and the motion of my heart was irregular and painful. The next morning I was able to breathe freely; the bloating decreased. I continued to take the medicine, and, to-day, sir, I am as well as ever I was in my life, and wholly owing to the wonderful almost miraculous power of Warner's Safe Kidney and Liver Cure. I do not know what this medicine is made of, or anything else about it, but I know it saved my life when I was given up by the doctors and had really been dead for weeks; that it has kept me in perfect health ever since and has cured many of my friends to whom I have recommended it. There are a number of very remarkable cases in Lynn and Salem, as well as in this city, that it has cured. My recovery is so remarkable that it has excited much attention, and physicians as well as others have investigated it thoroughly. I am glad they have, for I feel that the results of such a wonderful cure should be known to the thousands in all parts of the land who are suffering from kidneys, liver or heart, in some of their many dangerous forms."

The conclusions from the statements above made which comes to the newspaper man as well as the general public, must be two-fold. First that a modern miracle of healing has been performed in our midst, and that, too, by the simplest means and one which is in the reach of everyone. It should be remembered that Bright's disease is not usually a sudden complaint. Its beginnings are slight and its growth slow. The symptoms by which it may be detected are different with different persons, no two persons usually having the same. This fact was manifest in the case of Mr. Larrabee, and he had no idea of the terrible complaint which had attacked him until it became fixed upon him. Secondly, testimonials of such high character and so outspoken in tone, conclusively prove the value of the remedy and its superior nature to the proprietary articles with which the public have been flooded. "The greater includes the less," and the remedy which has been proven proven so valuable and has saved a life after it has been brought down to death's door, must unquestionably be certain in all minor troubles which are so disastrous unless taken in time.

The people of Prineville have been without mail since the 1st of July. They do not take kindly to the new arrangement.

Wm. G. Hill, of Roseburg, who ran in front of a horse on the race track and got run over, is recovering and will soon be about again.

bee's sickness and recovery. The scribe replied that he was, whereupon the gentleman said:

"And so am I, and I have come all the way from Chicago for that very purpose. Kidney troubles seem to be alarmingly increasing all over the country, and I have a very near relative who is afflicted much as Mr. Larrabee was. I have been to see the physicians of whom Mr. Larrabee speaks, and I tell you, sir, it is simply wonderful."

"What did they say?" asked the man of news.

"Say! why, sir, they fully confirm everything Mr. Larrabee has stated. I went to see Dr. D. A. Johnson at 20 Worcester street. He was absent when I called so I stepped into the Commonwealth hotel, where Mr. Larrabee was living at the time of his sickness. Messrs. Brugh and Carter are the proprietors, and I asked them about Mr. Larrabee. No one around the hotel ever dreamed that he would recover and when the doctors would come they would shake their heads and say there was no hope. The arrangements for the funeral were made and his recovery was simply a miracle."

I then called on Dr. Johnson who said that Mr. Larrabee's case was a very remarkable one. He was his family physician and expected his death every hour for a number of weeks and never called to see him during that time, but he was prepared for it. The doctor said the recovery was due to Warner's Safe Kidney and Liver Cure, and if he had friends, male or female, troubled with albumen or any kidney trouble he should certainly advise them to use this remedy. Dr. Johnson said kidney difficulties are more common than most people think and that many symptoms which are supposed to be other diseases arise from the kidneys. He said that ladies after gestation are specially subject to albuminous troubles which require prompt attention.

Well, I then came down and then called on Dr. H. Ingersoll Bowditch on Boylston street. The old doctor was inclined to be reticent but fully confirmed all I had previously learned. He had attended Mr. Larrabee, and supposed him beyond all hope, and he was restored, as he said, by Warner's Safe Kidney and Liver Cure.

I next went to see Dr. Melville F. Webb, at the Hotel Cluny, for you see I was determined to be thorough in the matter. I found Dr. Webb a most clear headed and well informed gentleman, and he said:

"I know of Mr. Larrabee's case from having thoroughly investigated it as a medical director of a Life Insurance company, and it is one of the most remarkable I have ever met. Mr. Larrabee had all the manifestations of a complication of diseases, and in their worst forms. He had albumen and casts in the urine, and a terribly diseased liver and spleen. Indeed, he was so bad that threw himself on the floor, and with his head upon a hassock struggled for breath. It was on the night when he was so bad and when all his medical advisers had long given him up that he began using Warner's Safe Kidney and Liver Cure. The next morning at 10 o'clock he was able to breathe freely and has been ever since. I subjected him to the most thorough examination possible, and after his recovery, and 'I can't find out about him.' His kidneys, liver, lungs and heart are perfectly well and sound. I can only add that, from what I have seen, I would unhesitatingly recommend this remedy."

The people of Prineville have been without mail since the 1st of July. They do not take kindly to the new arrangement.

Wm. G. Hill, of Roseburg, who ran in front of a horse on the race track and got run over, is recovering and will soon be about again.
