Governor Thayer has commuted the sentence of Jack Powers to imprisonment for life. The reasons he adduces are substantially those set forth in the petition. This is the time of the season when men come home from the mountains with big fish stories. It is surprising to find such an immense lot of old sea farers among us. No matter how good natured a man may be, he will invariably get mad when he discovers that there is no towel in the room, and is compelled to dry his face on the bed-quilt. "I guess dad wishes he'd die and go to heaven," said a miser's son to his maternal parent. "Why so?" she asked. "O!" said the boy, "cause heaven's such a cheap place to live in!" Webster et al will not can salmon on the Lower Siuslaw this year, having commenced their enterprise too late; but they'll salt and barrel all they catch, and get ready for canning hereafter. The people of the West owe a debt of gratitude to Dr Ayer for the production of Ayer's Agus Cure. Its timely use will save much suffering and much discouragement, and we recommend it with the greatest confidence to do all that is promised for it.

RESOLUTIONS OF RESPECT

Upon the Death of Brother J. Benson Underwood. At a special meeting of Eugene City Lodge No 11, A F & A M, held at Masonic hall, Eugene City, August 4th, 1882, the following resolutions were passed: WHEREAS, It has pleased Almighty God to remove from earth our friend and brother, J. Benson Underwood, who departed this life Thursday evening, August 3d, 1882, at his residence in Eugene City, surrounded by his family and friends, and WHEREAS, Our deceased brother has been an active member of Eugene City Lodge, No 11, A F & A M, for a period of twenty years, therefore be it RESOLVED, That by the death of Brother Underwood, this lodge has lost an active and efficient member, and the city of Eugene an enterprising, energetic, public spirited citizen. RESOLVED, That we tender to the family of our deceased brother our heartfelt sympathy in their painful bereavement of him who must now forever pass away, but not to be forgotten; and we commend them to the watchful care of Him who tempereth the wind to the shorn lamb. RESOLVED, That a copy of these resolutions be sent to the family of our deceased brother, and also be printed in the newspapers of this town, and be spread on the minutes of the Lodge. G B DORRIS, F B DUNN, R B COCHRAN, Committee. Attest: WM EDRIS, W M. F W OSBURN, Sec. Cottage Grove Items. [FROM OUR SPECIAL CORRESPONDENT.] COTTAGE GROVE, August 9, 1882. Business lively. Mr M S Wallis, of Eugene, visited our town one day this week on business. Mr Shultz, of this place brought 27 cents per lb of S V McFarren, for the sum of \$280. Mr G P Garoutte, lately from Iowa, purchased the flouring mill in Cottage Grove this week, of R H Hazleton, paying therefor the sum of \$4,800. Mr R H Hazleton, who was badly hurt some days ago by a team running away while running a self-binder, is fast recovering under the care of Dr Wright. DOR. MARRIED.—We take the following from the Cheney Sentinel of August 4th, which explains itself. Both of the contracting parties are well and favorably known in this locality, and the GUARD force presents its compliments to the newly wedded pair: "It becomes the duty and pleasure of the Sentinel to chronicle the marriage of Mr B C Van Houten, one of the best young men of Cheney, and Miss Anna D. Smith, of Portland. The ceremony was performed by Rev. Ellis, at Sprague, on Sunday evening last, the bridal couple arriving in Cheney on Monday's passenger train. On Monday night a reception was given in the parlors of the Commercial house, where a host of the best people of Cheney gathered and extended those congratulations and compliments so acceptable from friends. Many choice and valuable gifts found their way to the center table, and an elegant banquet was served in the dining room of the hotel. The evening was one of the most pleasant in the social annals of Cheney, and will long be remembered by guests and the happy bride and groom alike." TOO MANY CHINESE.—It is probably fortunate for the Chinese here that no more succeeded in getting in before the restriction bill came in force. There appears to be more here now than there is any need of. The N. P. R. R. Co. have all they want on their lines in course of construction, and will employ no more. The Oregon Construction Company, who have also been hiring large numbers, have now all they need. From good authority it is learned that there are now 5,000 Chinese in and around the city who want employment. Many of these have come up from the fisheries, and the prospect is that the number will keep increasing. The wages of wood sawyers will probably soon take a tumble, and in a short time all the street work will fall in the hands of the Chinese. It is reported that Chinese will also be employed as drivers on the street cars, which is not unlikely to happen.—Portland Standard. FIREMEN'S MEETING.—At the meeting of E H and L Co last Monday evening, Messrs Geo Noland and Jerry Horn were elected members; J R Campbell was granted an exempt certificate, and Mr Clem Hodcs elected Treasurer, vice Jasper Stevens, resigned. A committee consisting of H C Humphrey, J R Campbell and C Marx, were appointed to incorporate the company, under the laws of the State. THE FIRST WHEAT.—Mr A L Vaughn, of Coburg, on Tuesday, August 1st, brought in the first load of wheat of the season, 60 bushels, and stored it at Ramps & Schooling's warehouse. Mr Vaughn has threshed 2940 bushels, part of it yielding 32 1/2 bushels to the acre, and averaging about 32 bushels—a large yield for this season, and indicating very successful farming.—Harrisburg Disseminator. AT HOME AT LAST.—Dr W H Itabell returned on Wednesday from a trip to California, accompanied by his son William, who was lately discharged from the British army in India. The young lad who left here a few years since returns a bronzed and bearded man, with more experience of the world than it is the lot of many Oregonians to acquire.—Dallas Itemizer. MARKET REPORT.—Our market reports given in another column we publish for the convenience of our readers, who may rely upon their being as nearly correct as it is possible to obtain them. They will be revised every week just before going to press so that they will be as late as is needed for reliability.

THE COOLIE TRADE.

Number of Chinese Arriving in Oregon and California Since January Last. [Portland Standard.] Of Chinese young and Chinese old, Of Chinese timid and Chinese bold, Of Chinese tender and Chinese tough, The Lord be praised, we've got enough. The restriction bill, preventing the immigration of Chinese to this country, is now in force, the ninety days' grace allowed after the passage of the bill expired Aug. 4th. The influx of Chinese has been greatly increased on account of the passage of the bill. Since the 1st of January last thirteen ships have landed cargoes of coolies at this port, and a large number have also arrived by the steamers of the O R & N Co, from San Francisco and some by way of the Sound from Victoria. TABULATED STATEMENT. From the records of the collector of the port the following list of ships arriving from Hong Kong and the number of passengers is compiled: April 19—Br s Meath..... 854 May 10—Br s a Glenelg..... 616 May 14—Am sh Reporter..... 385 May 15—Br s a Bothwell Castle..... 1196 June 2—Am bk Alden Besse..... 338 June 2—Am bk Coloma..... 350 June 2—Am bk Wakefield..... 398 June 4—Am bk Edwin Reed..... 397 June 6—Br s a Annerly..... 612 June 10—Am bk H W Dudley..... 371 June 19—Ger bk Fritz..... 706 July 8—Br s a Devonshire..... 846 Aug. 3—Br s a Triumph..... 390 Overland from Victoria..... 400 By steamship from San Francisco..... 1532 Total.....9419 THE SAN FRANCISCO LIST. From January last up to July 28th there arrived at San Francisco thirty steamers from Hong Kong, bringing the enormous number of 26,056 Chinese passengers, and enough more were expected to arrive before the restriction bill came in force to increase the number to 30,756. Those arriving here from San Francisco were included in that number. The total number arriving in Oregon and California between January 1st and August 6th is 38,623. Quite a number have also landed at Victoria, most of whom, sooner or later, will probably find their way to Oregon. WHAT BECOMES OF THEM. The greater number arriving here have been sent forward at once to work on the various lines of railroads now in course of construction, and we shall not fully realize the situation until the railroads have been completed and these thousands have swarmed back here to overrun the city and crowd their way into every avenue of labor. In San Francisco it is quite different, as will be seen by the following from the Examiner: "Of the twenty-six thousand who came here but few have left for the interior, the majority preferring to tarry in the city, to engage in trades even now overworked by Mongolians, to the exclusion of white girls. Beside the great evil wrought by this competition, the influences of the heathen are otherwise felt." Junction City Items. Junction, Aug 6, 1882. The first load of the new crop of wheat was hauled into town August 1st, and delivered in the warehouse of J A Bushnell. The wheat is of fall sowing, plump and of good quality and was raised by Peter Harpole. Gilmore's new hotel is being rapidly built, the outside work being nearly done. Mr Charles Love, the boss plasterer, has the contract for putting the finishing touches on the inside. THE I O G T of this place installed the following officers Aug 1st: W M Pitney, W C T. Miner, Starr, W R H S; Jennie Dushnell, W L H S; Laura A Folsom, W V T; Mrs Mary Starr, W T; Mary Harrison, W F S; Minnie Driskill, W M; Charley Star, W D M; Eureka Butler, W C; Walter Beebe, W I G; W M Houston, W O G, the secretary and assistant not being present, were not installed. All passed off harmoniously. WHEAT FOR TACOMA.—Three ships are now awaiting cargoes of wheat at New Tacoma. They will carry away about 6000 tons, and the first wheat arriving here will probably be purchased and sent to Tacoma. A lot of the new crop from Yamhill has already been purchased at a figure somewhere between \$1 55 and \$1 60. There will be about a dozen more large ships arrive at Tacoma this season with railroad material, which will probably load with wheat sent over from Portland.—Standard. DIVISION OF WASCOS.—An attempt will soon be made to divide Wasco county. The distance of many of its most populous localities from the county seat is given as the reason. A sample of the inconvenience and expense attendant upon this is cited in the fact that it costs \$40 for a Prineville school teacher to get a certificate, and further that the ends of justice are often neglected on this account. APPLICANTS.—Thirteen candidates for superintendent and twenty for warden of the penitentiary are said to have reported to Gov. Moody ready for duty. He can only employ one for each place, and probably the legislature will relieve him from the responsibility altogether. JUDGE McARTHUR RESIGNS.—Judge L L McArthur of the Fifth Judicial Circuit has sent to Governor Thayer his resignation. The citizens of The Dalles to some extent have signed a petition for the appointment of Mr Bennett to fill the vacancy. AGRICULTURAL COLLEGE AT CORVALLIS.—Any two young men in Lane county, over 16 years of age, who desire to attend this College, may obtain free scholarships for four years by applying to State Senator Geo B Dorris. ILLUSTRATED TELEGRAM.—Last Saturday the Portland Telegram issued an illustrated number, descriptive of Umattilla county. It is handsomely gotten up and reflects much credit on the publishers of that paper. WOOD WANTED.—All those who have promised this office word on subscription account, are requested to hand the same as soon as convenient.

Mr G Bettman of this city, will leave for San Francisco next Monday, where he goes to purchase a new stock of goods. Mrs Bettman will accompany him as far as Portland, where she will visit relatives until Mr B returns. INGENIOUS SMUGGLING.—Says the Pierce county News: A few days since, while coming to Tacoma on a Sound steamer from Victoria, which had on board a large number of Chinese, a gentleman was given a cigar by one of those who had the Chinese in charge. The weight of the article aroused suspicion, and when attempting to light it our friend found it to be a solid mass of opium covered with tobacco leaf in imitation of a large and well made cigar. The donor had made a mistake and handed out the wrong article. Hundreds of pounds of opium have doubtless been smuggled in this manner right under the noses of our custom house officials, without a suspicion on their part that there was anything wrong. STATE TEACHERS' INSTITUTE.—We acknowledge the receipt of an invitation to be present at the State Teachers Institute, to be held in Salem, commencing August 21st and closing August 23d. FIRST WHEAT SHIPPED.—Mr S H Friendly shipped two carloads of wheat from Cresswell last Wednesday, it being the first wheat of the crop of 1882 to be shipped from Lane county. Mr Friendly purchased the wheat from Mr P C Noland, paying 78 1/2 per bushel on board of the cars. This would be equivalent to 80 1/2 at this place. EXAMINED.—Joseph Bennett, who was charged with being insane, was brought before Judge Fitch last Wednesday, and examined by Drs Patterson and Osburn, who pronounced him sane. Both the Doctors agreed that a few drinks of whisky, would for a time, produce insanity on Bennett. CONCLUSIVE EVIDENCE.—The old lady came down to her breakfast in a bad humor, and, sharply addressing her son, said: "Charlie, did you leave that whisky bottle on the parlor table?" "No; I guess dad left it." "Why do you guess your father left it?" "Cause it's empty." To MILLERS.—Old type for rabbit nets for sale at this office.

Several loads of lumber passed through Eugene this week en-route to Junction for Mr J H Ferry, who will commence work on his new hotel immediately. The Dalles was treated to a \$25,000 fire last Tuesday. The citizens generally agree that if it had not been for its fire engine, the city would have been almost entirely destroyed. The names of applicants should be submitted in writing. A. W. PATTERSON, County Superintendent. Strayed. The following described filly strayed from my premises about the 15th of July, 1882: A dark iron gray, with white nose, and about 3 years old. Anyone knowing of its whereabouts will confer a favor by dropping me a card in the Eugene post office, or informing me at my residence, 7 miles southwest of Eugene. EMILY F. BAILEY. NORTHERN PACIFIC RAILROAD.—It is stated that the plans for a five hundred thousand bushel wheat elevator to be erected at New Tacoma by the Northern Pacific Railroad company, are now being prepared in New York City by the order of Mr. Villari, are nearly finished, and will soon be ready to put in hand for building. FAILED TO CONNECT.—We take the following from the telegraphic report of the Oregonian under date of August 9th: One notification which failed of confirmation by the senate is that of James H EVANS as register of the land office at Lakeview, Oregon. FALL GRAIN.—Farmers have been busy this week harvesting fall grain. From all reports we have heard, it seems that the grain is turning out much better than anticipated, and even better than last year. All available machinery will be at work Monday. THE FIRE ENGINE.—A letter has been received from the manufactory from which our hand engine was ordered, that it will be about 30 days before it is shipped. We cannot expect its arrival here much before the 1st of November. NATURAL PHILOSOPHY.—"Why does lightning so rarely strike in the same place?" asked a school teacher of the new boy in the class of natural philosophy. "Oh," said the boy, "because it never needs to!" LOST.—A black and white checkered shawl belonging Eugene City and Coburg Bridge, last Sunday. Finder will please leave at this office. CONTRACT LET.—Humphrey & Hovey let the contract for their new brick building last Tuesday to W H Abrams. It is to be 22 1/2 x 30 feet and is to be finished by November 1st.

CRUDED TO DEATH.—By letter from Cowlitz Prairie, Lewis county, W T, we learn that Mr Bennett, who lives on the Cowlitz river about nine miles above Toledo, was killed on the first inst. by a log rolling over him. Mr Bennett had filed a homestead on a quarter section of fine land, and with his family of nine children, most all of whom are girls, was making a home that would furnish him an abiding place in his later days, when he was suddenly crushed to death. He came to that section about two years since from Utah, and had many friends in his new home. FLAVORING THE MELON.—An exchange says that any desired flavor can be imparted to watermelons by following the annexed instructions: "A couple of days before pulling the melon make an incision in the stem, a few inches from the fruit, and insert in it one end of a flannel string and place the other end in a dish containing diluted extract of vanilla, lemon or some other flavoring extract. In a few hours it will absorb the liquid, and then you will have a nicely flavored melon." Foley Springs.
