Six pounds of coffee for \$1 at Goldsmith's.
Job work a specialty at the GUARD office.
Good furniture and low prices, is Ream's motto.
The highest cash price paid for wheat by F B Dunn.
Cherry & Day keeps the best stock of undertaker's goods.
Largest stock of furniture in Eugene at Cherry & Day's.
Cherry & Day sell furniture cheaper than any house in Eugene.
Bettman will pay more for chickens in Cash than any one in town.
Goods delivered to any part of the city from Goldsmith's.
Fresh citrate of magnesia made daily at Hays and Luckey's.
We notice the familiar face of Jason Owen again upon our streets.
The only place where you can always sell your chickens is at Bettman's.
The Recorder fined four different persons last Thursday for misdemeanors.
Immense stock of crockery and glassware at greatly reduced prices at Goldsmith's.
Who is doing the undertaking business? Ream. Who is selling the furniture? Ream.
If you want to get the highest price for your HOPS call at BETTMAN's before selling.
White paper, just the thing for writing upon with pencil, for sale at the GUARD office.
Ream don't advertise anything he can't back when he says his stock of undertaking goods is the best.
Many of our citizens went to the State Fair at Salem and the Mechanics Fair at Portland, this week.
Rev J C Baker will occupy the pulpit at the Baptist Church to-morrow evening. Preaching by the pastor in the morning.
Mr Laird, of Springfield, has just opened a first-class drug store in that town. We wish him success in his new calling.
You can get 3 cans of tomatoes for 50 cents, 1 can fresh peaches for 25 cents, and the best tea in town at F B Dunn's.
133 acres of good farm land well improved, near Eugene City, for sale.
Geo. M. MILLER.

Mr S H Friendly will pay the highest cash market price for wheat. Give him a call before selling your grain elsewhere.
Rev J C Baker, of Salem, will speak on Temperance at the M E Church, on Monday evening at 7 o'clock. A cordial invitation is extended to the public.
Hon D P Thompson has presented the State a life size portrait of Gen Joseph Lane, valued at \$750, as a grateful token of his regard for the departed warrior and statesman.
Hon Geo F Craw, Wells Fargo & Co's agent, received from Portland, one day this week, a thoroughbred English bull terrier pup. It is a fine specimen of that breed of dogs.
We clip the following from the Jacksonville Times of Sept 17th: "Frank Huffer, who has been out with Turner's surveying party, returned very sick Wednesday, but is now improving."
All our farmers should make arrangements to attend the County Fair, to be held five miles east of Goshen, October 5th and 6th. A reporter of the GUARD will be present to chronicle the events of the occasion.
Ream, the undertaker and furniture dealer, will receive in a few days a splendid assortment of rawhide furniture, which he will sell way under any prices ever offered in Eugene. Don't buy until you see his stock.

Foley Springs.

These healthful and medicinal hot springs have been purchased by Mr Peter Runney late of Astoria. Mr Runney will thoroughly refit and renovate the buildings on the premises, and will be prepared to accommodate those in quest of health or pleasure. Fish and game are plentiful in that vicinity, the scenery is magnificent, and those wishing a summer tour could go to no better place.

Hops.—The hop crop in this county has turned out better than was expected before picking. We are informed by several growers that their crops are larger than they were last year.

Crowds on Oct.—Much valuable reading matter is crowded out of this issue on account of a rash of advertisements.

Hops.—S H Friendly will pay the highest cash market price for hops. See his advertisement in another column.

Boss.—In Eugene City, Sept 21, 1882, to the wife of Chas Baker, a daughter.

The Amended City Charter.

Senator T G Hendricks introduced a bill in the Legislature last week to amend the city charter. We notice that it was the first bill to pass the Senate, and now only remains for it to pass the House, when it will become a law.
The first important change in the charter is that prohibiting any indebtedness being deducted from the city assessment. The instrument gives the Council the power to regulate within city limits the speed of railroads and fast driving; to borrow or loan money; to oblige prisoners to work on streets; to regulate the building of stables or barns on streets and alleys; to regulate weights and measures; to provide for a survey of blocks and streets and correction of existing surveys; to regulate markets and to prohibit slaughter houses; to build gutters and sewers and to keep the same in repair; to empower the Mayor to appoint a Recorder pro tem in case of the Recorder's illness or temporary absence; to provide for a board of equalization; to regulate the keeping of animals for breeding purposes to prohibit the erection of wooden buildings within fixed limits; to provide for and determine the number and size of entrance from all halls, churches and all other buildings used for public gathering; to regulate and restrain laundries; to prevent or restrain any noise or disorderly assemblage in any street, house or place within the city, and to prevent city officers from buying city warrants for less than their face value.
The city limits was also amended so as to include half of five blocks in the western part of the city and four hundred feet on the south line of the city.

Junction City Items.

JUNCTION, Sept. 23, 1882.
The new corner saloon building is nearing completion rapidly.
Mr Mulholland is having a kitchen built on the back part of his house.
The State Fair seems to be the chief object of interest at present. Many express a desire to attend the fair. Eighteen or twenty have not only made the wish to attend, but actually boarded the cars for the "scene of action."
The warehouses are still receiving about 4,000 bushels of grain each daily, and on account of not being able to procure cars enough, have to store all available space in same, which makes plenty of hard work and sights of sack.
School did not open until Sept 18th on account of hop picking and grain hauling. Forty-five scholars have been enrolled to date, and two-thirds as many more are expected as soon as it is generally known that school has commenced and the hurry of work is over.

A Liberal Proposition.

Mr Henry Villard, President of the O R & N Co, N P R R, and O C R R, has submitted a proposition to the Legislature to endow the State University. He offers to endow the University with \$30,000, if the State of Oregon will increase its annual legislative allowance from \$2,500 to \$5,000. Hon S B Eakin, Jr, member of the House, has submitted the proposition to the Legislature, and a committee has been appointed to make any recommendation it may think necessary. We hope the Legislature will accept this liberal offer immediately, and vote the liberal donor a vote of thanks. Mr Villard helped this worthy institution once before when it was in trouble, and now he steps forward to put it on a solid financial basis, and the people of the State of Oregon, and more especially of Lane county, should show their appreciation of his liberality in some manner.

Held Without Bail.

The Indian, Jim Kirk, who was arrested last week for the killing of another Indian by the name of Jack Kerns, was given a preliminary examination before Justice G W Kinsey, last Monday evening. After examination of the witnesses and hearing the pleadings of the attorneys in the case, the Justice held the Indian to await the action of the grand jury for the crime of murder in the first degree. Messrs. Bilyeu and Miller conducted the prosecution and Geo S Washburne appeared for the defense.
After the above trial the white man, Jas Bernard, also accused of the same crime, appeared before the Justice, plead not guilty, and waived an examination, and was committed to the county jail to await the action of the grand jury.

CAPTURED.—Deputy Sheriff Wallis captured the man Bernani, who left immediately after the murder of the Indian last week, about 15 miles east of Brownsville, last Saturday evening, and brought him here the following day. He had shaved all the whiskers from his face, and was armed with a pistol and bowie knife.

TO TEACHERS.—A public examination of teachers wishing to obtain certificates, for this county, will commence at the office of the Superintendent, in Eugene City, next Wednesday (Sept 27) at 9 o'clock in the morning.

INSANE.—Mr W H Hubbard, of Siuslaw precinct, was examined before Judge Fitch Tuesday, and declared insane. Sheriff Campbell took the patient to the Insane Asylum at East Portland, Wednesday.

HUNTERS.—Messrs A Lynch and Robt Campbell returned from a short hunt near Blue river, where they stayed three days and killed fourteen deer. Who can beat this.

MARRIED.—In Eugene City, Sept. 18th, by Rev E P Henderson, Mr Solomon Zambalt and Mrs Julia Carpenter, both of Lane county, Oregon.

WILD GESE.—Mr E J McClasahan killed two wild geese in the mill pond near his residence in this city one day last week. Too lucky.

PURCHASED.—Prof J W Johnson purchased of Mr John Anderson his farm across the river, one day this week. The price paid was \$35 per acre.

The Hop Fields of Oregon and Washington.

(Willamette Farmer.)

Since the subject of hops has been a leading one, we have taken pains to gather all the information possible on this topic, and through the courtesy of Herren Bros, Tacoma Ledger and others we are enabled to furnish our readers with the following figures. The table is made out to include localities by counties:

Localities.	Acres.
Puwallup, W. T.	685
Lane Co., Oregon.	260
Marion Co., "	120
Linn Co., "	32
Polk Co., "	68
Yamhill Co.	14
Other Co's	6
Total.	1,185

Taking an average yield as 1,000 pounds to the acre, then we will have a total probable yield in Oregon and Washington the amount of 1,185,000 pounds. This at 40c per pound will bring into the country the immense sum of \$474,000, or nearly half a million dollars. This being the case it would be an interesting matter to figure and see how much profit there is in this small acreage compared with wheat. The result we append:

In hops, 1,200 acres.	\$480,000
In wheat, 1,200 acres.	30,000
In favor of hops	\$450,000

We have figured in the above that the cost of harvesting was equal; also, we put the yield of wheat at 25 bushels per acre, and at \$1 per bushel. These figures are hardly fair, as the price of hops is unusually high, so the estimate can be made on the same basis placing hops at ten cents per pound. The line and advantage of mixed husbandry is here clearly drawn. There is less profit in wheat than in anything else.

Cottage Grove Items.

[FROM OUR SPECIAL CORRESPONDENT.]

COTTAGE GROVE, Sept. 18, 1882.
The Baptist organized a church near here on last Sunday.
Talk about happy people—Dr Wright is in ecstasies. His is a four pound boy.
Mr Hamilton Veatch is now the mail carrier across the Calapooia to Oakland.
Mr Thomas Elder has sold his wagon shop here to a gentleman from Drain's Station.
The contract for the timber of the new bridge here was let last week. The span is to be 78 feet in length.
We have had considerable rain during the past few days. Friday evening it rained quite hard and farmers are thinking of commencing plowing.

Win Hubbard killed another cougar near here recently. Some children of Mr H's happened to see it crouching behind some bushes near them, when they called him and he killed it.

The following is a list of the business houses in this place: 4 dry goods stores, 2 wagon shops, 2 shoe maker shops, 2 butcher shops, 1 harness shop, 1 millinery store, 1 flouring mill, 2 blacksmith shops, 1 large warehouse for storing grain, 1 drugstore, 1 saloon, 1 hotel and three physicians. Who can say that the Grove is not a lively place?

APEX.

Anna M. L. Potts, M. D.

The celebrated lecturer whose name heads this notice, will begin a series of lectures next Monday night at Lane's Hall in this city, on Physiology, health and disease. Mrs Potts has been lecturing for two years in California, and is pronounced by the press the finest lecturer on the Pacific Coast. She treats of topics interesting to all and handles her subjects in a masterly manner. She is a natural orator, and at times her flights of eloquence are really sublime. She understands her subjects thoroughly and presents her ideas in a clear, forcible manner, that strikes right home. Her lectures are illustrated by a large number of anatomical specimens and life size oil paintings. She intersperses her lectures with enough wit to prevent them being called "dry." The lecture Monday evening will be free, and a crowded house may be predicted. The lady is accompanied in her travels by Dr Geo E Harrison, of Chicago, the eminent specialist, who will be happy to hold consultations free of charge, with gentlemen who may have any of the ills that flesh is heir to."

Just Received.

Mr T G Hendricks has just received at his store in this city the largest lot of ladies and gentlemen's shoes ever brought to this city. He ordered them direct from the factory at Cincinnati, Ohio, and therefore he got the best of stock, and at prices that defy competition in that line of goods. We would specially advise the ladies of this vicinity to stop in the store and see the finest made shoe ever sold in Eugene.

Mr Hendricks has also just received a large stock of rubber boots and coats, direct from the manufactory at Chicago, which he will sell at prices that will astonish all in want of these needed articles.

FOR THE STATE UNIVERSITY.—Master Horace McClure, who has worked in this office for the past year, left on Tuesday morning Sept 7th, for Eugene City, where he proposes following a course of study at the University. Horace is a young man of steady, industrious habits, and we have no doubt will well acquire himself in his new role. —Times-Mountaineer.

MARRIED.—At the residence of the bride's parents, by Eld G W Whitney, Sunday, Sept 17th, 1882, Mr Chas Nelson and Miss Ida Johnson, all of this city. We congratulate the young couple and wish them many years of unalloyed happiness.

BADGER KILLED.—A badger was killed by Mr Win Blanton, at his farm, about five miles from this city, one day last week. This is the first one of these animals we have heard of being seen in the valley.

"OUR JEFF."—We find the following in Tuesday's Oregonian: T J Smith and forty-seven others went up yesterday to swell Mitchell's forces at Salem.

STATE UNIVERSITY.

A column devoted to the interests of the Laurens and Eutawian Literary Societies, and the State University.

MARY DOBBS, EDITOR.

Personal.

Geo Noland of the class of '80, will be admitted to the bar next month.

A L Frazier who graduated last year, is principal of the public school at Amity.

Miss Rubie Spiller, who is attending college at Wellesley, writes home glowing reports of the school.

We notice among the new students the familiar face of David Rosenthal, who attended the University several years ago.

The friends of Mr George Hoyt will be glad to learn that he has improved in health very much since leaving here this summer.

A C Woodcock, who was to have graduated with the class of '82, will enter the present senior class before the end of the year. Their loss is our gain.

Miss Charlotte Roberts, of The Dalles, will not be able to attend the University this year on account of ill health. She would have graduated in the class of '83.

Odds and Ends.

Songs of the students—"A pledge to keep we have."

A number of new members are being added to both societies.

A number of students will finish the normal course this year.

The total weight of the earth is computed to be six sextillions of tons.

Some of the old student have not yet returned from surveying trips.

One pound of learning requires ten pounds of common sense to apply it.

Medical advice to students—eat plenty, sleep enough and don't get homesick.

The Seniors at present number fourteen. Several more will enter the class soon.

Prof Bain's Mental Philosophy will be used this year, instead of Upham's, as heretofore.

The Junior class is unique in this one particular, that it is composed entirely of gentlemen.

The Societies opened last Friday with a fair attendance. Officers for the ensuing term were nominated.

It would be well if the books taken from the Society Library during vacation could be returned as soon as possible. Quite a number are out and the Librarian knows nothing of their whereabouts.

A new name will stand at the head of this column the next time it is issued. We cannot say which one of the sister Eutawians the Editor will be, but we are sure that she will fill the office better than we have. Good bye.

The decorations are still hanging in the auditorium. They stand as monuments to the Junior taste. Since they have not been taken down, we infer that the Junior could not bear to demolish such a work of artistic beauty.

The Eutawians did not sit on the floor during their last session as we are told. The Laurens's supposed they did. Marshal McCown carried the benches back where she found them—that is the reason there were none in the Society Hall in the evening.

The Senior class will be obliged to wait two or three weeks before taking up the study of Physiology, as the text books have not yet arrived. In the meantime they have begun International Law, which study coming at the end of the Senior year, has heretofore been too much hurried.

Between the hours of nine and ten, there may be heard issuing from Prof Spiller's room, wails and groans of a most distressing character. However, there is no cause for alarm, it is only the Senior Elocution class testing their strength of their lungs on the vowel sounds.

The picture of the class of '80, presented to the Societies by Mr Abell, is quite an ornament to the hall. The frame measures about 33 by 4 feet, and contains the pictures of the twenty members of the class, grouped around that of the University building in the center. The photographs are a credit to Abell.

Never give up when you are right. A frown is a muscular contraction and cannot last long. A laugh of derision is but the modified bark of a cur. If you can be laughed out of good, or let the good be laugh out of you, you are weaker in intellect than the fool whose argument is a guffaw and whose logic is a sneer.

Hon Henry Villard, whom the friends of the University have good reason to remember, has made a proposition the State Legislature to this effect: That he will make an endowment of \$50,000 to the University, provided the State will agree to give a certain named amount annually. The matter is now pending before the Legislature.

Personal.

Gov Whiteaker was in town one day this week.

Judge H S Bean has gone to Coos county to hold a regular term of the Circuit Court.

Joe Lane and family have returned to Eugene, and will make this their future home.

Mr L G Adair has been at Salem during the past week, acting as telegraph agent at fair grounds.

Mr M Wilkins, of this county, has been elected Vice President of the State Agricultural Society.

Hon "Saint" Owen has been elected President of the "Third House" at Salem. His committees could not be beaten.

We acknowledge a pleasant call from Mr Alex P Waugh, formerly editor of the Chico Record, but at present acting as business manager for Dr A M L Potts.

Mr O K Bean and Dock Johnson, of Junction, left for the upper McKenzie, on a hunting expedition last Monday. We learn they killed nine the first day they hunted.

Melanson Day, who has been bracing on the railroad returned home one day this week. We understand that he has been quite ill at Portland for several weeks.

Mr Chas Belshaw, of Canyon City, a brother of Messrs Geo and Thomas Belshaw of this county, is here visiting. He formerly lived in this county, and says the appearance of the town and country has changed greatly since he left here in 1853.
