The following bill was introduced in the House by Representative Hayes, Sept 25th, and read the first time Sept 27th. The bill is a meritorious one and should pass by all means. Cottage Grove Items.

[FROM OUR SPECIAL CORRESPONDENT.] COTTAGE GROVE, Oct. 4, 1882. Mr Jack Nolton is happy. It's a girl! Frow and ice here on the 27th and 28th: Squire Vaughn will have his mill running within a week. Dr H Wright has a fine hound: We learn it cost him \$30. Mr Darwin Bristow, of Eugene was in town this week. Mr Hugh Whipple, of San Francisco, is here visiting his brothers. The sidewalks here are in a very bad condition and need repairing badly. Married, Sept 24th, 1882, by Rev H C Walker, Mr Charles Sears to Miss Amanda Cape. Two shows this week: Morrill's Thursday and the Mattie Taylor Co Saturday evening. Mr O P Adams had a valuable horse killed here this week, by having its leg broken while harrowing. The public hall here needs more seats badly. As it is, many are compelled to stand during shows, etc. Some fears are entertained that the warehouse floor will give away. About 16,000 bushels of grain is stored therein. Messrs John Morse, R W Veatch and W H Medley went out hunting last Friday. They returned the following day, the two former having killed one deer, and the latter four. The river has risen considerably since the rain, which will facilitate the running of the railroad ties, that are on the way down from the mills. AFEX. Junction City Items. Junction City, Oct. 5, 1882. Last Friday night's dance is pronounced quite enjoyable and successful. There were forty-two regular tickets sold. As usual some one had to pay dear for the dance. This time it fell upon Mr John Lawrence. Upon his arrival home in the morning, he found his barn and contents in ashes; the principal loss being the hay and grain, as the header and thrasher housed in the barn were insured with the barn in the Lion Insurance Co for about \$800. Origin of the fire unknown. Last Monday a certain lawyer in company with other citizens of this place, started in a hack for Eugene. On their way the lawyer reached into his pocket, saying: "This is too heavy," pulled out a sack of coin and threw it under the seat in which he was sitting. When the party reached their destination, each one went about his business, forgetting the money in the hack bottom. Time to go home came and some of the party drove the hack home, arriving about dark. About that time Mr lawyer, who remained at Eugene, bethought himself and telegraphed an agent to go to the lively stable and look for the money. Mr agent accordingly went to the stable, ordered the hack searched and found a sack containing forty-two twenties. What ability a lawyer's gold has of looking out for self, regardless of exposure and bad hack-beds! Some of this party never thought of the sack till the next morning when told of the same. Mr Harry Cornise was recently made the happy father of a little daughter. Look out for a dancer. Aa. Arm Amputated. A S Patterson, who went to consult physicians in Portland last week, was advised by the medical fraternity to have his arm amputated, and he arrived home last Saturday with that intention. Tuesday morning Dr Sharples, assisted by Drs Whiteaker and Patterson, proceeded to amputate the limb at the shoulder joint. They also found the disease located in the gland below the arm, which necessitated its removal for a length of about five inches. We understand that the operation was a success in every particular, and the patient is doing as well as could be expected. We hope the physicians have been able to remove all the diseased parts, and that a permanent cure may be effected. Mr Patterson has the sympathy of the entire community, in this, his very sad affliction. The County Fair. The first annual fair met at the grounds near Gosben Thursday and Friday. The attendance was not so large as was expected on account of prevalent rains. If the weather had remained fair a large assemblage would have been present, and a splendid time had. We are informed that the exhibit of horses, cattle, sheep and swine is large, while the grain exhibits cannot be beat in the world, Mr George Belshaw having his exhibit on the grounds; the fruits, vegetables, etc, are far above the average. We will try and publish the entire premium list in the next issue of the GUARD. TOES SHOT OFF.—Mr John Belshaw while fooling with a loaded shotgun, which, he of course thought was unloaded, had the bad luck to discharge the contents into his left foot, while standing near Goldsmith's store. Dr Osburn was called and had to amputate the fragments of two toes. John is likely to be more careful with unloaded shotguns in the future. CHRISTIAN CHURCH.—The State meeting of the Christian Church, in Oregon, will be held in Eugene this year. The meeting will commence on the 18th of October. If the weather is pleasant it is expected they will have a large attendance. LARGE CONTRACT.—Mr Max Friendly, of Corvallis, has contracted for 2,000,000 feet of saw logs from Hiram Smith, of Harrisburg. The logs will be cut on the upper McKenzie river, and delivered at Corvallis. We did not learn the price agreed upon. THE TAYLOR TROUPE.—This excellent little company gave two entertainments at Lane's Hall this week to moderate sized audiences. We bespeak for them a cordial reception wherever they may show. TO LEASE.—Chas Baker wishes to lease the dining room of the St Charles Hotel for six months from date. This is a good chance for some one wanting employment for the winter. Give him a call immediately.

STATE UNIVERSITY.

A column devoted to the interests of the Lausanne and Eutaxian Literary Societies, and the State University. ELMA LOCKWOOD, EDITOR. Editorial. With this issue of the column we assume our editorial duties. We shall endeavor to follow in the well-beaten path of our predecessors, guarding the welfare and interests of the University and Society. With what success we meet the future will show. Odds and Ends. Keep to the "right" girls. S W Condon of the class of '82 is a candidate for the office of State Librarian. Three new regents are to be appointed by Gov Moody during the session of the Legislature. Has our new marshal forgotten the fate that befalls all woman kind who can't build a good fire? If the State accepts the proposition of Villard, the University will have about eight thousand dollars more per year for its use. Two members of the astronomy class are so deeply interested in the "starry firmament," that they are seen taking observations nightly. The solstitial point was very graphically described by a member of the astronomy class, as the place where the sun stops long enough to turn around. The word Psychology was misprinted Physiology, in the last column. We would not have anyone labor under the impression the seniors were studying Physiology; they finished that years ago. The truth of the following was realized by a company of students a few nights since. 'Mid apples and melons, Though you may roam, At the sight of a dog There's no place like home. John McCormack and W H McGee, who have been on a surveying trip since last spring, reached home just in time for the social. Notwithstanding their "elderly" appearance, they were recognized and heartily welcomed by their many friends. Ed Bailey, of the class of '82, is now at the medical school in Chicago. He has been spending the summer in the employ of the Burlington, Quincy & Rock Island R.R. He will return to Oregon in '85, when he expects to bear the title of M D. The regulation made lately, that the young ladies going up and down stairs should limit themselves to the south side of the University building, and the gentlemen to the north, is perplexing some of the Eutaxians of philosophic mind. The trouble is, they don't know how to get up and down the front steps. They don't know whether to petition the Legislature for an appropriation to build an extra flight some place on the south side or put up a partition on the front steps, or whether they might not take the less expensive way of sliding down the south banister and let the gentlemen take the north. Elections. The Eutaxians elected the following officers, Sept 22: D E Cogswell, President; J Spencer, Vice President; I Patterson, Secretary; J McClure, Treasurer; E Lockwood, Editor; M Dorris, Marshal. On the evening of the same day the Laureates also elected their officers. Their names are as follows: Benjamin Breakheart Beckman, President; William Canary Taylor, Vice President; George Washington Hill, Secretary; Darwin Wellington Bristow, Assistant Secretary; Ewing Robert Walker, Treasurer; Royal Freeman Reasoner, Editor; Joseph Randolph Whitney, Editor; James Kirk Whiteaker, Sergeant-at-arms. Students Reunion. Saturday evening, Sept 23d, the students of the University assembled in the chapel for the first time this school year. There were about one hundred and fifty present. The old students looked much improved by their summer's vacation and the new ones proved quite an acquisition to our school society. They vary greatly in "magnitude" and "brilliance." "I here was stumpy Fresh and seedy Fresh, And Freshies short and tall. The Fresh who gets his lesson, And the Fresh who don't at all. The most conspicuous in the assembly were the Seniors. Judging from appearance the professors will have difficulty in keeping pace with them this year. The string band furnished excellent music for promenading, which was always in order. Professors Johnson, Collier and Bailey were present, and showed by their friendly greeting to the old students and warm welcome to the new ones, that they take great interest in the welfare of all under their care, and many a new comer who felt that he was "far, far frae home, found kind friends in his professors and schoolmates. At eleven o'clock the sociable broke up and all went home by the "light of the moon." Inaugural Address of President Cogswell. LADIES.—Members of the Eutaxian Society:—I acknowledge, and since it is proper, I thank you for the honorable position to which you have elected me. In accepting this chair I am fully aware of the great responsibility attached thereto. It is needful I suppose, to now assure you, that I shall endeavor to discharge the duties and obligations incumbent on me as President of this, our Eutaxian Sisterhood, to the very best of my ability. "And what can man do more," or woman either. There is one thing especially I wish to mention and that is our lack of knowledge concerning Parliamentary Laws, wherein the Eutaxian's are deficient; wherein we are unworthy of our Founders, our Charter Members. Shall we rest content to stand where they left us? This is mere existence—we owe more than existence; we owe life and prosperity to this Society; an obligation which we discharge just in proportion to the interest and determination with which each member does her part. We all feel the need of a clearer knowledge and a closer observance of the rules and regulations to which we are subservient. There is not one true Eutaxian who will say, for us remain where we stood last year; we did well enough then; what is the use of this exertion? There is one who will acknowledge that we have not the ability to advance and keep pace with this age of improvement. Therefore, since there is no excuse for it, I beg you cease this halting and holding back, it were. And to you who are just entering our ranks, I would say, you also are included in these remarks, for upon you in a great measure depends the future progress and success of the Eutaxian Society. I could say much more; but let this suffice. Again I thank you."

Among the members of this class we notice the familiar names of Messrs Geo Noland Geo A Dorris, Joel Peary, Geo Thurston and J E Fenton. We understand that the entire class passed the examination creditably. The Salem Statesman says: "There was a large number of the most able lawyers in the State, together with many others, present to witness the examination. The general verdict of all who heard the same, was that the present class is far above the average. As historians announced by the Supreme Court, the examination was more rigid than usual." After the examination, a banquet was given to a large number of invited guests. The following were some of the toasts: "To Our Instructors," was proposed by J N Peary, and responded to by Geo S Noland, who in fitting language thanked them for their assistance, and said that their labors in behalf of this class would live in the memory of their students forever. "The State of Oregon," was proposed by Geo A Dorris, and ably responded to by J Nat Hudson. "To Our Clients," was proposed by Geo H Thurlston, and responded to by Capt N B Humphrey, whose first expression was "God pity them!" Lochl Market Report. Friday, Oct 6, 1882.
