

THE EUGENE CITY GUARD.

SATURDAY, DEC. 16, 1882.

CAUSES OF DEFEAT.

Soon after the recent elections the leaders of the Republican party began to announce to newspaper reporters, and by them through the public press, the causes which led to the defeat of the Republican party throughout the country.

The masses of the people have become convinced that the cry of civil service reform from Republican headquarters was had been a sham and a pretense.

During all this time and for years previous the Democratic party, through its conventions and its platforms, its orators and its party press, had been arraigning the Republican party for its frauds in elections, for its corrupt methods and practices in the civil service department, for its class legislation.

been prepared and sent in more in conformity with the report rendered by the people in the late elections.

All these questions of the tariff, of civil service reform, of the unjust internal revenue system, of the scar route stealing, of political assessments, and of Federal interference with elections, have been kept constantly before the people by and through the Democratic party, and the attention of the country has been so closely and continually directed to these questions that the people of both parties have time and again demanded of the party in power that these abuses of the civil service be corrected, that there be a stop to this taxing for political purposes the office-holders and employees of the Government.

To prove and demonstrate the causes of recent Republican defeat, it is only necessary to refer to the utterances and statements of Republican leaders made since Congress met a few days ago. And as positive proof of the causes which led to the triumph of Democratic principles in the late elections.
