Messrs. Preston & Chapman, of Corvallis, lost a fine dray horse this week, by drowning.

Thomas Weir, a 14 year old boy, fell from a coal car in Coos county and had his left leg broken last Sunday.

Joe McDonald, the driver, had his nose and shoulder broken by the upsetting of the stage in the vicinity of Burnt river last week.

Alkali, which two years ago had but a single house, now has seven stores, two hotels, two livery stables, two restaurants and a blacksmith shop.

Willamette Farmer: Colfax is growing very fast, and in a few months the burnt part will all be built up. At Colfax is the United States Government Land office.

The Wasco Sun says there is much surprise expressed that in the list of appropriations asked for, Mr. George only applies for \$50,000 for the Cascades.

The business of the postoffice at Seattle has more than doubled in twenty months. The sales of Uncle Sam's wares for December, 1882, amounted \$2,527.

During the year 1882 there were about 750 real estate sales in Linn county, the total consideration for which amounted to between \$700,000 and \$800,000.

The Yaquina Post complains of the bad mail service between Corvallis and the bay. It is barely probable the bad condition of the road has something to do with this matter.

A syndicate composed of Messrs D. O. Mills, J. Dunsuir, Welch, Rithet & Co., and J. Spratt, has been formed at Victoria to carry on the iron business on a large scale.

There were harvested in Yakima county last fall 336 bales of hops, all of which were grown in the vicinity of Yakima City. One yard yielded on an average 1800 pounds to the acre.

Dr. M. W. Johnson, agent U. S. treasury and national bank note detector, is at Baker City, and has taught several of the prominent business men infallible methods of detecting counterfeit bills.

Between May and December 31, 1882, according to the News, there were but thirty-nine arrests in Tacoma. That is both a good record for the city, and a tough one for the officers if they are paid a fee.

Albany Democrat: The Sound country was written up by Sam Bowles of the Springfield Republican while riding through that country in the night time, and the people in that section of the Northwest are considerably put out about it.

Herald, Sprague: The sale of railroad lands in Sprague district, since the location of the local office here, have averaged over \$2,000 daily. This land is all tributary to our city, and Sprague merchants will control the trade of the entire section.

Following is the money order business done at Canyon City for 1882: Number domestic money orders issued, 2305; amount received for orders issued, \$63,030 51; amount paid for orders presented, \$14,036 19. Total money order business, \$77,066 77.

The citizens of Prineville are urging the establishment of a mail route from Prineville to Lakeview, as the way it is now, mail going to Lakeview must be carried to The Dalles, thence to Southern Oregon, and thence across through Klamath and Lake counties.

Itemizer, Dallas, Jan. 13: On yesterday about noon the case of the State against Tom Gilbert, the Indian, whose trial for murder had been in progress for the past four days, was submitted to the jury. In about half an hour the jury brought in a verdict of guilty as charged in the indictment, which charge was murder in the first degree. This is the first conviction for a capital offense in Polk county since Moss was executed in 1860 or 1861 for the murder of Harper, committed on the Lackiamute, and if Gilbert should be hanged, as will probably be his fate, his will be the fourth execution in the county.

Our readers have had accounts of the murder of the man Mulberrin in Umatilla county several months since. The murder was directly traced to some Indians, who were arrested and placed in the Umatilla county jail. It appears from all we can gather in relation to the affair that the arrests were made by a U. S. Marshal on authority of warrants issued by United States Commissioner, Fred Page Tustin, of Umatilla county; and taken before this Commissioner and by him committed to the county jail. While in the custody of the U. S. the grand jury of the State circuit court took up the case and found indictments against the prisoners for murder. Under that action by the grand jury, the State court claims the authority to hold and try the murderers. By instruction of Judge Ballery, of the sixth judicial district of this State, the sheriff of Umatilla county refuses to give up the prisoners on the demand of the U. S. court. The consequence was that U. S. Marshal E. S. Kearney, a few days since, started for Umatilla county armed with authority to arrest the sheriff and bring him before Judge Deady to answer for contempt of U. S. authority in refusing to give up these prisoners. A letter from Marshal Kearney states that the marshal has not arrested Sheriff Martini, as he was absent in the county collecting taxes. Mr. Kearney will return tomorrow without the sheriff. It appears that Judge Ballery has been quite defiant of the U. S. authority and expressed himself in unmeasured terms when he heard that Marshal Kearney was there. He declared that if Kearney attempted to take the Indians he would stop him. The chances are that Judge Ballery himself will be arrested and brought before Judge Deady for the part he is taking in the affair. It is not definitely known why Marshal Kearney did not bring down the prisoners, but it is said there were loud threats of a popular demonstration if he attempted to take the Indians, and it begins to look as if the case would yet assume a very serious aspect. What the next movement will be is not known, but a course will doubtless be decided upon when Marshal Kearney returns.

It appears under the law that in cases where Indians are involved the U. S. and State courts have concurrent jurisdiction, and whichever begins the case has the right to carry it to the final disposition. The conflict arises out of difference of opinion as to which court commenced proceedings in this case. There is some talk in Umatilla county of cutting the Gordon knot by a judicial authority whose presiding genius is Judge Lynch, and settling the affair by stringing the murders up to the nearest tree.—Telegram.

From the Tacoma News we get the following facts relating to the operations in that city for 1882: Ninety thousand dollars worth of wheat sent from there in three vessels. December shipments amounted to \$89,767. Coal shipments for 1882, 53,300 tons. One million pounds of hops shipped from that port. Building valued at \$450,000. Expended on street work, \$1,844 75. But two alarms of fire during the year. Rates of insurance 1/2 to 1 1/2 per cent. on residence property; 2 1/2 to 10 per cent. on business buildings.

The pay-roll of the iron works foot up \$34,000 per annum. Number of city arrests for the year, thirty-nine. Eighteen thousand arrivals at the two leading hotels. The merchandise trade for the year, \$600,000.

Failing to be re-elected to Congress Robeson is reported to have set his heart upon the Spanish mission, now enjoyed by the aged and lanky Hannibal Hamlin. We are not anxious to keep Robeson among us; but would it be quite fair to inflict him upon any other nation? Come to think, is it not probable that this Spanish mission might open a need for the gun boats he commenced while Secretary of the Navy and is now trying to finish.
