

THE EUGENE CITY GUARD.

SATURDAY, FEB. 17, 1883.

The Floods East.

We clip the following from Thursday's Oregonian in regard to the high waters in the Mississippi valley:

CINCINNATI, Feb. 14.—A gleam of hope came to-night when the reports showed the river had reached the highest point at 5 P. M., marking 65 feet and one-half inch. Though receding but half an inch in the next few hours, the fact that the worst seemed to be over gave relief.

The tension has been strong in the entire business portion of the city. A slight rain falling to-night leaves a nervous apprehension that more disaster is to come. The situation would require the publication of a greater portion of the directory to name the business men, particularly those in tobacco, produce, grain, commission, whisky, and all kinds of manufacturing interests, whose business is wholly suspended.

Many of these lost goods. Manufacturers also lose heavily in damage to machinery and stock, as for a time more than a thousand business firms and manufacturers are thus prostrated. Some men for two days have poured in contributions to the fund for the relief of suffering among that much greater class—the poor—who are driven from home and deprived of work.

It is estimated that 30,000 to 40,000 workmen are out of employment by the closing of the manufacturing. The dampness in the houses after the flood subsides must bring sickness and suffering.

Telegrams have been received from Chicago and New York offering assistance. The water is deep enough on Park street to allow skiffs to run within a square and a half of the Burnett house, and reaches to the Market house on Pearl and Broadway.

No just estimate of the damage can be made now. When the attempt is made the people only talk of millions.

At Louisville the water has been very high, and the loss of property is great, while several lives are known to have been lost.

The suffering must necessarily be great throughout Indiana, Ohio and Kentucky.

In speaking of the reduction made on jute and bags in the Senate, through the efforts of Senator Slater, the Walla Walla Democrat says: "If the tariff bill passes with the above provision it will save the farmers of Eastern Washington and Oregon more than \$100,000 per annum in the price of grain sacks, which with the reduction of \$1 per ton on freight, makes a bright prospect for the wheat growers in this vicinity."

Senator Slater is entitled to great credit for his efficient work in relieving the people here of an oppressive and unnecessary tax. A few days ago Senator Slater offered an amendment to reduce the duty on vitriol one-half, but his amendment was voted down by a solid Republican vote, every Democratic Senator present voting for the amendment and every Republican Senator present voting against the amendment, thus retaining the tax at the present rate, and the farmer who vitriol his seed wheat must pay the tax for the privilege.

The mint in San Francisco is the largest in the world—twice as large as the one in Philadelphia, and three times the size of any in Europe, having now \$24,000,000 worth of coin and bullion stored away in vaults.

By the time all the bills are paid, including pensions, Mr. Bennett's Arctic expedition will have cost the people of the United States a very large sum of money, and will not have anything to the sum total of human knowledge in relation to the polar regions.

When it can be shown by citations from General Grant's record that he ever wasted time in pursuit of an utterly worthless object, it will do to accuse him of fishing for a third term nomination by his party in 1884.

We do not imagine that Governor Butler really enjoyed the exercise of signing Mr. Hoar's Senatorial credentials, but he put his name thereto in a big round hand in the spirit of a martyr to duty.

Joseph Seards, sent to the penitentiary for life as an accomplice in the O'Shea robbery and the shooting of the Josephs boy, with Johnson and Brown, in Portland, in 1878, died of consumption Tuesday at the prison and was buried by a detachment of trustees in the prison grave-yard.

We will send the GUARD free for one year to anyone who will send us five new subscribers accompanied with the cash at the rate of \$2.50 per annum for each.

Brevities.

Job work executed with dispatch at the GUARD office.

Gov. Moody has appointed A. J. Babb a notary public, to reside at Prineville.

The circulation of the GUARD is rapidly increasing. Advertisers should make a note of this.

In Memoriam.

At the regular meeting of Sinalaw Grange, No. 54, held Feb. 10, 1883, the following preamble and resolutions were unanimously adopted:

WHEREAS, Our Heavenly Father, in his infinite wisdom, has seen fit to remove from our midst our esteemed and worthy sister Jane Simpson, who died on the 17th of Jan., 1883, and

WHEREAS, In view of the loss sustained by the Grange, and of the still heavier loss sustained by those who were nearest and dearest to her, it is but a just tribute to the memory of our deceased sister to say that we mourn the loss of one who was in every way most worthy of our respect and esteem; therefore, be it

RESOLVED, That the sympathies of this Grange are hereby tendered to the bereaved family, who so deeply feel the loss of wife and mother; the Grange a most worthy member; and the community a friend who was dear to all; a person whose upright and noble life was a standard of emulation to others.

RESOLVED, That a copy of these proceedings be spread upon the records of this Grange, and a copy be transmitted to the family of our deceased sister, and to the EUGENE GUARD, the Willamette Farmer, the Harrisburg Disseminator, Oregon State Journal, and the Patrons' Guide, Boyd, Harrison county, Ky, for publication.

JOHN O'BRIEN, WM. INMAN, P. F. DAVIS, Committee.

FROZEN TO DEATH.—Last Monday Louis Peacor and Peter Petee started from their place near Dillard's to attend a party at Tyee mountain. They went by way of Looking Glass and attempted to cross the river at Shambrook's ferry in a small boat, which capsized and they got wet.

They started through the fields, and before arriving at their destination darkness overtook them and they lost their way, and when crossing a slough the ice gave way and they both got wet a second time. Shortly after this they got separated, and Petee heard Peacor calling to him. He found his way back to the old man, who was lying down, and tried to get him up, but could not. He stayed with him until morning, when he went to the house where they had started for assistance. When they got back the old man was able to talk and told them not to move him and in a short time died. Petee had his feet badly frozen and is scarcely able to get about.—Roseburg Independent.

A Ministerial Statement.

Rev C A Harvey, D D, is the popular financial secretary of Howard University, and is specially fitted to judge of merit and demerit. In a recent letter from Washington to a friend he said: "I am convinced that for bright's disease in all its stages, including the first symptoms, which seem so slight but are so dangerous, no remedy heretofore discovered can be held for one moment in comparison with Warner's Safe Kidney and Liver Cure."

REMEMBER.—The sum each subscriber may owe is not great of itself, but when these amounts are aggregated they prove considerable to newspaper men. Therefore, don't think because your indebtedness is small it won't be acceptable.

PRICES REDUCED.—The prices for meals at the St Charles Hotel has been reduced. Farmers will find the meals at this hotel first-class in every particular, and at living rates.

Are You Exposed

To malarial influences? then protect your system by using Parker's Ginger Tonic. It strengthens the liver and kidneys to throw off malarial poisons, and is good for general debility and nervousness.

Time and Expense Saved.

Hard workers are subject to bilious attacks which may end in dangerous illness. Parker's Ginger Tonic keeps the kidneys and liver active, and prevents sickness, time and expense.—Detroit Press.
