THE EUGENE CITY GUARD.

SATURDAY JUNE 23, 1893

University Anditorium.

We are informed that at the fast meeting of the Board of Regents the proposition was made to divide up the larger hall of the University building into class rooms, and the Executive committee were instructed so to do, if they deem it necessary. As a citizen of this state we must carnestly protest against the contemplated improvements. This is the only hall in the place where the citizens and students can be seated comfortably at Commencement, and in fact the only hall that a Commencement can be held in. The other graduating classes have been afforded this large and most ex-'cellent hall to perform their graduating exercises in, and now to deprive the classes to follow for three or four years of the same privilege is not right. Besides the public has some interest and rights to be consulted in this matter. The public have as much right to see one graduating class as another, and to cut the large hall up into three or four class rooms, is equivalent tosaying that only about two or three hundred people shall witness the graduating exercises; for if the Court House, a church, or any other hall be precured, in town,

The exercises can only be held in the chapel of the University with any degree of success or propriety. To go into some grove would be a farce and a total failure. We trust that the Executive Committee will stop and consider before they do anything in this matter. We understand rooms can be fitted up in the basement just as com fortable, as pleasant and more convenient than the rooms contemplated in the chapel, and that, too with no more expense. Then these rooms in the basement will certainly be much more preferable for class rooms than those in the third story, and certainly more conducive to the health of the girls and young ladies. But it is said the state will certainly appropriate enough money to build a hall and have it on the first floor; and be that so, it will take three years to accomplish that dies' and children's clothes at R G Callison & end. The Legislature does not meet Co.'s, at New York rates. until a year from September, and then it will require a year to get the building ready.

only about that number can get in.

And is the University to be deprived of the Commencement exercises for call before selling your grain elsewhere. want of a hall for three years? We say if the basement cannot utilized for that purpose rent rooms some place in duce. town, and don't do such a foolish thing as to spoil the only hall suitable for bolding Commencement exercises.

To Correspondents.

Correspondents must bear in mind that nothing of a personal character must be put in correspondence. Let nothing that will reflect upon the standing of anyone appear in any correspondence. Let there be nothing Best Golden syrup at \$4.25 per keg; Golden but news in which the public are inter-anywhere else. T. J. Cheshing, Manager. ested. On one or two occasions mat ter has been put in print in the GUARD which would have been excluded, had it not escaped our attention. It is our intention to publish a clean sheet and hence we call upon all who furnish matter for publication to exclude all offensive matter. This is due to themselves, the public and us.

On Tuesday next, the 26th inst, the Slate Teachers' Association will convene at Salem, to remain in session four days. We understand it will be an interesting gathering of educational men and women. Reduced rates on the railroad, in botels and in board- the machine will be shown and tested. ing houses will be had and a hearty welcome extended to all by the citizens of Salem. Under call of our very efficient State Superintendent, Prof. McElroy, an interesting time may be expected.

Gen. Grant concurs with Conkling in the belief that the Democrats will come into power in the administration of the government. The whole country seems to be settling down to the same belief. What a grand old party! Through twenty-five of defeat and disaster it has still lived. There has been

to be 700 miles, and the that the run will be unde between two cities in 30 hours. The ocean tin almost doubles that, and the dangers of the dangers of the dangers of the dangers. The ocean tin almost doubles that, and the dangers of t d. eep are also to be onsidered.

Oregon Mails to be Sent Overland.

Arrangements have been made by Captain B. F. Tuttle for the transmission overland of mails for Oregon and Washington territory from the East, which it is believed, will materially shorten the time for the transit. Instead of being sent in the usual manner the mail will be taken off the overland train at Sacramento, and thence forwarded to Portland via Redding, by stage to the extension of the Oregon & California railroad from Roseburg. Mails arriving one day previous to the sailing of Portland steamers will be landed and forwarded by water. The new arrangement went into effect Mon-

Brevities.

Cherry & Day, undertakers. For good dentistry go to Clark. Bring your chickens to Bettman's For the best mixed paints, go to Gill's.
