

THE EUGENE CITY GUARD.

SATURDAY.....AUGUST 18, 1883.

A Vote of Confidence.

To the Editor of the Chicago Press.

I am in favor of Arthur's re-nomination.

JAY GOULD.
N. B.—Put me down for \$50,000.

The same. HUNTINGTON.

Arthur is a man in whom the people can trust. He understands their interests. VANDERBILT.

If Arthur is the person whom I hear is acting as President, I am sure he is a worthy occupant of the chair once honored by your humble.

R. B. HAYES.

The people of Ohio to the last school-house voter have forgotten Garfield in their admiration of his successor.

CHAS. FOSTER.

I will stake my position that the New York Custom House will be solid for Arthur. ROBERTSON.

It appears that Arthur is growing in the confidence of his party. I am for him. JOHN A. LOGAN

Arthur is the only man who is well thought of in Virginia, excepting truly yours. MAHON.

The working people seem to be in favor of Arthur. I can answer for 300,000 unpaid toilers for the government. JAY A. HUBBELL

Since I have been Postmaster General I have noticed that many small newspapers favor Mr. Arthur. Mr. Gresham coincides. HATTON.

Arthur is my friend—I nominated him once and I will do it again.

R. CONKLING.

The State of Maine is solid. JAMES G. BLAINE.

I am satisfied. I can also answer for my son Don. SIMON CAMERON.

I never called Arthur and his friends Guiteau Republicans. Mr. Arthur knows this. JOSEPH MEDILL.

I think Arthur knows who his friends are, without laying claim to prominence. GEN. BRADY.

I believe every prominent newspaper will support the next nominee.

WHITELAW REID.

Arthur is the man. U. S. G.

Methods before men are to be considered in the next election. It cost a great deal of money before.

S. W. DORSEY.

The Examiner of the 26th ult. has a glowing account of rich discoveries of black sand in the heart of San Francisco, and from all accounts there will be trouble arising herefrom. The discovery was made on a lot beside the box factory of Hobbs, Wall & Co. on Beale Street, near Market, owned by Dunham, Carrigan & Co., on which they were excavating for the purpose of building. The lot is 90x137 feet, and is valued at \$65,000. A notice of location was made out in regular form, and designated the Eureka Placer Mining Claim in accordance with the local customs and rules of mines in said mining district, and signed by Geo. Chard and M. J. Egan. "We just found it there—saw the little specks of gold glistening and panned for it" said Mr. Chard. The first pan yielded fifteen cents, and other pans from five to thirty cents, and some as much as fifty cents. One man who used quicksilver panned out eight dollars. Egan thinks the claim will yield \$40 to the ton.

The venerable missionary, Dr. Moffat, has just died in London. He was well known in South Africa before Livingstone decided to follow in the same career and it was his daughter who became the efficient helpmate of the great missionary. Dr. Moffat went out to Africa in 1816 and remained there until 1870, residing for more than a half-century continuously among the Bechuana, whom he transformed from a nomadic tribe, with all the African vices, into a peaceful band of agriculturists. He demonstrated that the only way to succeed in missionary work is to become thoroughly identified with the people, to speak their language like a native and to prove to them by that the Christian religion is something more than a creed and has a bearing on every day life.

Why should not Arthur be the candidate? He is a General who never was in the army; a civil service reformer who was turned out of office by a Republican President and Senate for maladministration; a statesman who never rose higher than a local boss until an accident made him President. He is, besides, a gentleman, and a fine looking, well-dressed gentleman. He will make a creditable figure-head in the campaign, and to round off his career in an appropriate manner, he will be a candidate who will never be elected.—Exchange.

Government Revenue.

The Treasury Department reports the total receipts from customs for the fiscal year ending June 30, 1883, at \$219,986,223. The receipts for internal revenue for the year were \$146,436,377, and from miscellaneous sources, \$37,430,873, making in all \$403,855,473. The current expenses of the government was \$187,630,993. The collections at the New York Custom House were \$146,578,626, other cities following in the order named: Boston, Philadelphia, San Francisco, Baltimore, New Orleans, Chicago, Galveston, St. Louis, and Burlington (Vermont). The cost of the maintenance of the New York Custom House is not far from \$2,500,000 annually. The number of employees is about 1200.

The ceremony of driving the last spike on the Northern Pacific will be witnessed by a larger number of persons celebrated for their wealth, positions or talents than any like occurrence since railroads were thought of. Pre-ident Villard has spared no endeavor to make the occasion to be long remembered by not only those interested, but by the people of the world generally. The guests from Germany, England and other prominent citizens of their several nations, all of whom will be certain to carry back with them pleasant impressions of the lands which they pass and the man who furnished the passes.

While the whole country is interested in Democratic talk of the old ticket of 1876, the Oakland Times says no one speaks up for a renewal of the Republican ticket of that year! Hayes and Wheeler are in their physical prime, why not nominate them? If they got office fairly and administered honestly why not run them again? Until the Republican party does run them, it confesses that they were not elected before. Its only historic vindication would be in re-electing them. Let it be tried.

The St. Paul Globe in speaking of the Northern Pacific terminus at St. Paul says: "Three hundred and eighty acres in St. Paul, with one hundred in the business center, and five million dollars to develop it indicates that the Northern Pacific means business at this point. Their 20 acres at Minneapolis will give them abundant yard room at that point, but the real terminal work and buildings will be upon the three hundred and eighty acres in St. Paul."

Among the striking contracts exhibited in character the most frequent were the comparisons between Stone-wall Jackson and Ewell or Early. On one occasion Lee received this devout dispatch from one flank: "By the grace of God we have beaten them on their right, and the next moment from the other wing: "By d—d hard fighting we have whipped them on the left." One Lieutenant was Jackson, the other Ewell. —Richmond State.

Reports state that Jay Gould is endeavoring to obtain control of Villard's stocks in Oregon and Transcontinental Northern Pacific and O. R. & N. Co., representing an interest valued at \$350,000,000.

Real Estate.

Having lately issued a circular descriptive of Lane county of 15,000 copies, I can furnish the same free to parties wishing to send them East to friends. They furnish more information, such as the immigrant wants, than you could write in a letter of 20 pages. I am also operating with E. J. Haight & Co., of Portland, Oregon, the most active, energetic and thoroughly advertised firms on the Pacific Coast. Parties having real estate to sell will find it to their advantage to place the same in my hands, as I am constantly increasing my advertisements, and am fully determined that Lane county shall have her share of the immigration bound westward.

Geo. M. Miller, Real Estate Broker, Office, Willamette St., Eugene City, Or.
