Completion of the Big Tunnel.
Last Friday the contractors on the Cow creek tunnel on the Oregon and California extension, reached daylight near the center, and will have the tunnel ready for the track layers in about ten days. The perforation was about 2500 feet, and is the longest tunnel on the line, except the one at the Siskiyou mountains. To an Oregonian reporter who applied for news concerning the progress of the road beyond this tunnel, Manager Kuehler gave the following information: The grade and the high structures between the Grave Creek tunnel, which was finished early in July, and the Cow Creek tunnel, a distance of seventeen miles, are finished and track laying will proceed with slight interruptions to Grave Creek. There will probably be no serious delays in finishing the line between Glendale, the present terminus, and Grant's pass, ninety-eight miles south of Roseburg. Regular trains will not run beyond Glendale until the road is opened to Grant's pass, which will be done about the middle of October. From Grant's pass to Ashland, a distance of forty-five miles through Rogue river valley, the road is easy of construction, and it is expected that the line will be in operation to Ashland by the end of the year.
Thirty-two miles of road beyond Ashland will finish the Oregon and California Company's share of the line connecting Oregon with California, but these thirty-two miles are in the Siskiyou mountains and quite as difficult of construction as any like distance through the Cow Creek hills. There will be six tunnels, aggregating 6100 feet in length, the longest being a little over 3000 feet.

In Memoriam.
Died, Saturday, August 11th, at the family residence, about three and one-half miles above Springfield, of concussion of the brain, Dalton J. infant son of William and Earetta Laird.
The little one had climbed upon a chair when no one was present and in some way fell to the floor, striking on the back of its head causing injuries, which resulted in death. The best medical skill was employed; willing ones would have held back the pure spirit of the waif, but all in vain; the dark angel of fate cast a gloomy shadow over its earthly parents, and bore one of earth's angels to Heaven to eternal happiness near Him, who said, "Suffer little children to come unto me, and forbid them not, for of such is the Kingdom on Heaven." How comforting to the parent the assurance must be that their child is now a happy spirit in paradise; all the sin, misery and countless struggles of this world avoided. In their deep sorrow the parents have the sympathy of their many friends.
A FRIEND.

Yaquina Bay Items.
We have recently been informed that work on the Yaquina Bay railroad stopped on the 4th of the present month. The employees have all been paid off and discharged. Just when work will be resumed is not known. The tunnels are none of them completed, and the present outlook is anything but flattering for the early completion of the road.
The work on the break-water at the entrance to the bay is progressing favorably under the management of Mr J S Polhemus. About 1300 feet of rock work has been put in this season, and some 200 feet more will go in before the season closes. It is estimated that the appropriation will last until the middle of October. Before that time the work, so far as it has progressed, will be made secure against the winter storms. The depth of water gained thus far on the bar is four feet, which gives encouragement that the work when completed will be of permanent worth to the rapidly increasing business of that port.
A Challenge.
We clip the following from the Dayton, W T, Journal, which fully explains itself:
To GEO. BRUSHAW, Eugene, Or.—Being satisfied that I can raise more wheat to the acre than anybody else in this or any other country, and knowing you to be considered as the "King Wheat Grower of the World," I hereby challenge you to a contest as follows: Ten acres of wheat are to be put in this fall, and when out to be taken to any mill and ground into flour and afterwards sampled sent to some well known baker to be tested. I affirm that I can raise more wheat to the acre and from it produce better flour to the acre than you. Either party may use whatever variety of wheat—provided to us by one variety—or mode of cultivation he may choose. You may have your grain ground in Lane county and I will have mine ground in Columbia county.
J. W. DUNCAN.

The Wrong Man.
Detective A J Barlow has returned from Ellensburg after an unsuccessful search after Disbrow. He had an exact description of the escaped convict, and when he arrived at Ellensburg he found that the man he was pursuing was R G Graham, and who, in every particular, tallied with the printed description of Disbrow. It appears that Graham was working on the railroad near Glendale and concluded to go to his home on Smith river, south of Ellensburg. Being short of money, he concluded to save stage fare by walking, and thus attracted suspicion. Detective Barlow is disappointed at his failure, and the State of Oregon owes him a debt of gratitude for the trouble he has taken to capture Disbrow.

DIED.—At the family residence, about three miles south of Eugene, Friday August 17, 1883, Mr John Brannan, aged 22 years, 10 months and 17 days. The remains will be buried at the Mulkey Cemetery to-day at 10 o'clock. Johnny was beloved by all who knew him for his many good qualities. The family has the sympathy of the entire neighborhood.

SAD ACCIDENT.—A sad accident occurred three miles above Springfield last Monday evening, which resulted in the death of a three year old child of Mr William Laird. It appears that the child had fallen from a chair, superinducing concussion of the brain, and although a skillful physician was called, the little one died the day of the accident.

GOOD TIMES.—One indication of good times, is the fact that there has been less latching of wheat fields than ever before in Lane county. The prosperity in this section seems general, and if wheat should bring something near one dollar per bushel this county would fairly "boom."

Mr Sharp entertained them with banjo, songs, etc. He has a lovely little home, which speaks well for a bachelor. He is a genial and worthy gentleman.

Mrs A J Barlow left here Monday in search of a man supposed to be the convict who has visited several ranches on the road from here to Siuslaw in quest of food. Mr Barlow returned Tuesday fully satisfied that he was not the man, as this one was too old and acted more like a crazy man than otherwise.

A NEARLY FATAL FALL.—About 3 o'clock Wednesday morning, Michael Conley, the yardmaster of the O & C railroad, in East Portland, fell twenty feet from a window in the St Lawrence hotel, on Second street, and suffered fractures of bones and other injuries that may prove fatal. Conley was under the influence of liquor, and it is supposed that after getting into his room he seated himself in the open window, and fell out while asleep. Dr Wheeler dressed his wounds.—Standard.

Quite a compliment to the farmers of the Willamette Forks.
