HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but noise have so fully met all the requirements needful for the proper treatment of the hair and scalp, HALUS HAIR RENEWER has steadily grown in favor, and spread its fame and unefulness to every quarter of the globe. Its unparal-lebel success can be attributed to but cue cause: the entire fulfilment of its promises. The proprietors have often been surprised

at the receipt of orders from remote coun-tries, where they had never made an effort for its introduction

The use for a short time of HALL's HAIR RENEWER wonderfully improves the per-sonal appearance. It cleauses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimutates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like these of alcoholic prepara-tions, but remain a long time, which makes its use a matter of economy.

One day when a lot of Democratic speakers were at a rank Republican hotel, the landlord concluded to make them all so sick they couldn't speak, and he instructed the porter to put some tartar emetic in their drink. The

"The fool of the family" of Linn county, while traveling on the train with Bro. Watt, the temperance lecturer, raised quite a laugh at that old ney, Oregon, last week, in which one gentleman's expense, as follows: He had been holding a temperance debate with the Yamhiller for the edification of the travelers, taking the side that a "little wine for the stomach's ache" N. P. R. R., in King and Yakima was beneficial, admitting at the same counties. time that he had been a whisky drinker for years, while Watt vowed he had never tasted the vile stuff. After the war of words had ceased, the bad man took from his pocket a soda bottle full of fire water, which was capped with a patent stopper that the thirsty one did not understand. He worked at it for some time, and when about to give up, This is the first case of that nature ever Bro. Watt leaned over, and with suspicious knowledge, remarked: "Push in the courts of Eastern Oregon, it against the car seat, brother." He did, and the effect was magical-the bottle was opened and the crowded car yelled with laughter. -Sunday Wel-
